S'attachant l'homme autant qu'à sa pensée et son itinéraire philosophique cet ouvrage constitue une excellente introduction à Lévinas

For You Alone Terry A. Veling, 2014-04-18 The works of Emmanuel Levinas a survivor of the Nazi horror are striking in the constancy of their thought and the strength of their appeal We are not condemned to evil and hatred rather we are called to be for each other *For You Alone* explores the relational and religious quality of Levinas' work Our lives are always twofold rather than one and the same A relational life is dependent on encounters that are revelatory Revelation means that life is no mere sameness but is tied to the revelation of the other to you Here is transcendence par excellence Here is what the name of God signifies the relational and ethical bond that takes us outside ourselves toward the other in our midst What could be more natural more human or more divine than to speak of the relational quality of life An answerable life means that we are asked after called required Here I am under your gaze Levinas writes obliged to you your servant In the name of God

Beyond Adriaan Theodoor Peperzak, 1997 Although Emmanuel Levinas is widely respected as one of the classic thinkers of our century the debate about his place within Continental philosophy continues In *Beyond The Philosophy of Emmanuel Levinas* Adriaan Theodoor Peperzak shows Levinas's thought to be a persistent attempt to point beyond the borders of an economy where orderly interests and ways of reasoning make us feel at home beyond the world of needs beyond the self beyond politics and administration beyond logic and ontology even beyond freedom and autonomy Peperzak's examination begins with a general overview of Levinas's life and thought and shows how issues of ethics politics and religion are intertwined in Levinas's

philosophy Peperzak also discusses the development of Levinas's relations with Husserl and Heidegger demonstrating thematically the evolution of both Levinas's anti Heideggerian view of technology and his critical attitude toward nature

Is It Righteous to Be? Emmanuel Lévinas, Jill Robbins, 2001 In the twenty interviews collected in this volume seventeen of which appear in English for the first time Levinas sets forth the central features of his ethical philosophy and discusses biographical matters not available elsewhere *Entretiens avec Emmanuel Levinas 1983 - 1994* Michaël de Saint-Chéron, 2015-03-02 INEDIT NOUVELLE EDITION C'est en disciple que Michael de Saint Chéron entreprit de converser avec un Emmanuel Levinas au soir de sa vie Conversation pleine de curiosité et d'espérance de tendresse et d'admiration Il y est question de la place du féminin dans son acheminement vers une transcendance de l'altérité du concept du temps dans la philosophie de Bergson de Paul Ricoeur de sa vision de la fin de l'histoire l'heure où s'écroulait l'empire communiste d'Occident Dans une seconde partie l'auteur propose une réflexion sur la phénoménologie du visage et la problématique de la déconstruction de la rupture dans l'œuvre de Levinas Pour ce faire il interroge les œuvres de Sartre Ricoeur Malraux mais aussi Kant Heidegger et Derrida Une approche résolument novatrice de la pensée du grand philosophe se déploie dans ces pages

TOTALITE ET INFINI EMMANUEL. LEVINAS, 2010-03 Totality and Infinity is Emmanuel Levinas's masterpiece and a major philosophical work in the twentieth century There Levinas defines a new meaning of ethics the happy life of the isolated egoist I is challenged by the encounter with the Other The philosophical description of this experience of this revelation of Alterity is the main goal of Levinas analyses in which the key word is the face of the other human Levinas conducts a critical examination of the Western philosophical tradition Plato Descartes Hegel Bergson Rosenzweig Buber Husserl and Heidegger The publication of Totality and Infinity's Hebrew translation is a significant contribution to the reception of Levinas in Israel both in academic circles and for broader audiences *Emmanuel Levinas: Levinas and the question of religion* Claire Elise Katz, Lara Trout, 2005 Emmanuel Levinas 1905 1995 was one of the foremost thinkers of the twentieth century His work influencing a wide range of intellectuals such as Maurice Blanchot Jacques Derrida Luce Irigaray and Jean Luc Marion Alterity and Transcendence Emmanuel Lévinas, 1999 This first English translation of a series of twelve essays offers a unique glimpse of Levinas defining his own place in the history of philosophy In today's world where religious conceptions of exalted higher powers are constantly called into question by theoretical investigation and by the powerful influence of science and technology on our understanding of the universe has the notion of transcendence been stripped of its significance In Levinas's incisive model transcendence is indeed alive not in any notion of our relationship to a mysterious sacred realm but in the idea of our worldly subjective relationships to others **Entre Nous** Emmanuel Lévinas, 1998 Emmanuel Levinas is one of the most important figures of twentieth century philosophy Exerting a profound influence upon such thinkers as Derrida Lyotard Blanchot and Irigaray Levinas's work bridges several major gaps in the evolution of continental philosophy between modern and postmodern phenomenology and poststructuralism ethics and

ontology He is credited with having spurred a revitalized interest in ethics based philosophy throughout Europe and America *Entre Nous Between Us* is the culmination of Levinas's philosophy Published in France a few years before his death it gathers his most important work and reveals the development of his thought over nearly forty years of committed inquiry Along with several trenchant interviews published here these essays engage with issues of suffering love religion culture justice human rights and legal theory Taken together they constitute a key to Levinas's ideas on the ethical dimensions of otherness Working from the phenomenological method of Edmund Husserl and Martin Heidegger Levinas pushed beyond the limits of their framework to argue that it is ethics not ontology that orients philosophy and that responsibility precedes reasoning Ethics for Levinas means responsibility in relation to difference Throughout his work Levinas returns to the metaphor of the face of the other to discuss how and where responsibility enters our lives and makes philosophy necessary For Levinas ethics begins with our face to face interaction with another person seeing that person not as a reflection of one's self nor as a threat but as different and greater than self Levinas moves the reader to recognize the implications of this interaction our abiding responsibility for the other and our concern with the other's suffering and death Situated at the crossroads of several philosophical schools and approaches Levinas's work illuminates a host of critical issues and has found resonances among students and scholars of literature law religion and politics *Entre Nous* is at once the apotheosis of his work and an accessible introduction to it In the end Levinas's urgent meditations upon the face of the other suggest a new foundation upon which to grasp the nature of good and evil in the tangled skein of our lives

Facing the Other Sean

Hand, 2014-04-04 Emmanuel Levinas is one of the key philosophers in the post Heideggerian field and an increasingly central presence in contemporary debates about identity and responsibility His work spans and encapsulates the major philosophical and ethical concerns of the twentieth century combining the insights of a basic phenomenological training with the demands of a Jewish culture and its basis in the endless exegesis of Talmudic reading His concerns and subjects are wide they include the Other the body infinity women Jewish Christian relations Zionism and the impulses and limits of philosophical language itself This collection explicates Levinas's major contribution to these debates namely the idea of the primacy of ethics over ontology or epistemology It investigates how in the wake of a post structuralist orthodoxy scholars and practitioners in such fields as literary theory cultural studies feminism and psychoanalysis are turning to Levinas's work to articulate a rediscovered concern with the ethical dimension of their discipline Stressing the largely assumed but unexplored Jewish dimension of Levinas's work this book is an important contribution to the field of Jewish studies and philosophy

Emmanuel Levinas: Beyond Levinas Claire Elise Katz, Lara Trout, 2005 Emmanuel Levinas 1905-1995 was one of the foremost thinkers of the twentieth century His work influencing a wide range of intellectuals such as Maurice Blanchot Jacques Derrida Luce Irigaray and Jean Luc Marion Emmanuel Levinas Abi Doukhan, 2012-08-23 Our era is profoundly marked by the phenomenon of exile and it is has become increasingly urgent to rethink the concept of exile and our stance

towards it This renewed reflection on the problem of exile brings to the fore a number of questions regarding the traditionally negative connotation of exile Is there not another way to understand the condition of exile Permeated with references to the stranger the other and exteriority the philosophy of Emmanuel Levinas signifies a positive understanding of exile This original and compelling book distills from Levinas s philosophy a wisdom of exile for the first time shedding a positive light on the condition of exile itself Abi Doukhan argues that Levinas s philosophy can be understood as a comprehensive philosophy of exile from his ethics to his thoughts on society love knowledge spirituality and art thereby presenting a comprehensive view of the philosophy of Levinas himself as well as a renewed understanding of the wealth and contribution of exile to a given society Ethics as First Philosophy Adrian Peperzak,2013-12-02 In Ethics as First Philosophy Adrian P Peperzak brings together a wide range of essays by leading international scholars to discuss the work of the 20th century French philosopher Emmanuel Levinas The first book of its kind this collection explores the significance of Levinas texts for the study of philosophy psychology and religion Offering a complete account of the most recent research on Levinas Ethics as First Philosophy is an extraordinary overview of the various approaches which have been adopted in interpreting the work of a revolutionary but difficult contemporary thinker **Levinas Studies** Peter Atterton,2010 Dedicated to scholarly work on the innovations and implications of the thought of Emmanuel Levinas Levinas Studies includes insightful and inspiring essays by well known and newer Levinas scholars One volume of original essays appears each year This volume is devoted to the early writings 1930 1949 of Levinas and will be especially useful for those readers who wish to understand the direction of Levinas s thinking leading up to and immediately after World War II **Meaning and Melancholy in the Thought of Emmanuel Levinas** Stine Holte,2014-11-19 Although considered as one of the 20th century most central ethical thinkers Emmanuel Levinas claimed that his task was not to construct an ethics but to seek the meaning of the ethical In this study Stine Holte examines the problem of ethical meaning in Levinas thinking and shows how the articulation of the ethical implies notions like trauma melancholy and shame and hence a questioning of what we normally regard as meaningful **Emmanuel Levinas** Seán Hand,2008-09-12 Best known for his theories of ethics and responsibility Emmanuel Levinas was one of the most profound and influential thinkers of the last century In this clear accessible guide Se n Hand examines why Levinas is increasingly fundamental to the study of literature and culture today Exploring the intellectual and social contexts of his work and the events that shaped it Hand considers the influence of phenomenology and Judaism on Levinas s thought key concepts such as the face the other ethical consciousness and responsibility Levinas s work on aesthetics the relationship of philosophy and religion in his writings the interaction of his work with historical discussions his often complex relationships with other theorists and theories Emmanuel Levinas s unique contribution to theory set an exemplary standard for all subsequent thought This outstanding guide to his work will prove invaluable to scholars and students across a wide range of disciplines from philosophy and literary criticism through to

international relations and the creative arts Emmanuel Levinas Lis Thomas, 2004-08-04 This book explores Levinas's rethinking of the meaning of ethics justice and the human from a position that affirms but goes beyond the anti humanist philosophy of the twentieth century Emmanuel Levinas Et Henri Meschonnic - Resonances Prophetique , 2013 **Face to Face with Levinas** Richard A. Cohen, 2012-02-01 Face to Face with Levinas makes available to American readers the best of recent thought on Emmanuel Levinas The contributors to this volume are some of the most significant and best known Levinas scholars in the United States and Europe Maurice Blanchot Luce Trigaray Theodore De Boer Adriaan Peperzak Jan de Greef Alphonso Lingis Most notably it features an interview with Levinas by Richard Kearney This elaborate interview provides a succinct introduction to the themes developed within the book and allows Levinas to restate his philosophy in light of the criticisms that follow The contributions range from the imaginative to the academi Together they provide a well focused introduction to the ethical and ontological import of Levinas philosophy
