thirty years ago when he was four I was swinging him in a park in Cambridge Massachusetts and not doing it right Swing me higher he said I want to feel my feelings The phrase stuck with me you might say it festered in my mind it agitated questions Why do we all want to feel our feelings so generally that people not in touch with them are thought to be in need of therapy What feeling was swinging high inducing Was it an exultation of the body or an exhilaration of the soul When he wanted to be feeling his feelings was there a difference between the general feeling the mere consciousness of being affected and his particular feelings the distinguishable affects as when you sing a song there is a difference between the singing done and the song sung or is there Eva Brann from her Preface
