Emotions And Thoughts:

The Psychology of Emotions, Feelings and Thoughts Mark Pettinelli, 2007-08 This book is online for free at cnx.org/content/col10447 This book makes the statement that thought action and feeling can occur in any order it also puts forth the idea that life is divided into three groups emotion thinking and feeling These three groups make humans feel in certain ways thinking physical stimulus and emotion all contribute to feeling But what is the difference between a thought an emotion and a feeling Is there an overlap between the three Probably since any emotion can be broken down into the sensations and real events that caused it and these events all lead to emotions feelings and thoughts So emotions feelings and thoughts all might have the same source they are just expressed differently in the mind Where do your emotions feelings and thoughts rate on a scale of clarity Where do they rate on a scale of focus and attention How does understanding the psychology of ones emotions feelings and thoughts lead to a long term increased consciousness Thoughts and Feelings: Identifying Emotions
