Empathy Reconsidered Arthur C. Bohart, Leslie S. Greenberg, 1997-01-01 This book is intended for clinicians theoreticians and researchers PsycINFO Database Record c 2004 APA all rights reserved **Empathy Reconsidered** Arthur C. Bohart, Leslie S. Greenberg, 2009 This book is intended for clinicians theoreticians and researchers PsycINFO Database Record c 2004 APA all rights reserved **Handbook of Experiential Psychotherapy** Leslie S. Greenberg, Jeanne C. Watson, Germain Lietaer, 1998-10-08 Integrating the work of leading therapists the book covers both conceptual foundations and current treatment applications The volume delineates a variety of experiential methods and describes newly developed models of experiential diagnosis and case formulation *The Empathic Healer* Michael J. Bennett, 2001-04-27 Empathy has long been regarded as central to the art of medicine and especially to the practice of psychotherapy The ability of a therapist to appreciate the patient's state of mind and frame of reference is the foundation of a therapeutic alliance and key to the process of healing However these subjective aspects of practice are rendered suspect by today's emphasis on objectivity formal diagnosis with biological treatments and standardized methodologies that appear to be aimed more at disease than at the person who suffers from it Pressured by the practice climate and by the advances of science practitioners have become treatment specialists and the empathic healer has become an endangered species In this book the author establishes a new foundation for the use and value of clinical empathy that is based on a distinction between treatment and healing and a model for using psychotherapy as a component of an organized system of care focused attuned to the patient's presenting motive and consistent with our understanding of the relationship between mind and brain Practicing mental health professionals and students find the rationale for assessment and treatment planning in *The Empathic Healer* an invaluable aide as they seek to adapt to the marvelous discoveries about how the brain shapes and recovers from mental disorder and how an empathic environment fosters recovery and healing within and beyond the treatment setting Establishes the historical roots of the concept of clinical empathy and its relationship to healing Elaborates the ideological and environmental factors that enhance or interfere with empathy Explores the biological importance of empathy as a feature of the normal human brain Argues for the integration of mind and brain in a new dualism Presents a vision of psychotherapy as an important component of an organized system of care Differentiates between the treating and healing functions and suggests how each relies on empathy Suggests how an endangered species may be preserved in the present technological era *The Handbook of Person-Centred Psychotherapy and Counselling*, 2024-09-05 Written by a diverse range of expert contributors unified by a relational ethics based reading of person centred theory and practice this seminal text is the most in depth and comprehensive guide to person centred therapy Divided into four parts it examines the theoretical philosophical and historical foundations of the person centred approach the fundamental principles of person centred practice as well as new developments in and applications of person centred clinical work explorations of how person centred conceptualisations

and practices can be applied to groups of clients who bring particular issues to therapy such as bereavement or trauma and professional issues for person centred therapists such as ethics supervision and training 10 years after it was last published this third edition includes new content on the climate crisis intersectionality and working with racism and anti racism It includes new dedicated chapters on the Non directive Attitude Relational Depth Experiential Practices Working with Trauma Online PCA and Person Centred approaches around the Globe International and interdisciplinary in conception this is a cutting edge resource for students of psychotherapy and counselling on a range of programmes as well as professional practitioners working in the field
