*Emperor, Prefects & Kings* P. S. Barnwell, 1992 P S Barnwell examines the development of imperial and royal government in the western part of the Roman Empire and in the early barbarian kingdoms that were established within its frontiers the Visigothic Burgundian Frankish and Vandal nations Covering the fifth century the period from the death of the Emperor Theodosius to the death of the Emperor Justinian Barnwell s book demonstrates the extent to which barbarian government was influenced by its Roman predecessor Earlier studies have argued implicitly that the fifth century witnessed the disintegration of an ordered Roman governmental system and its replacement by a series of disorganized Germanic administrations Barnwell by contrast examines Roman government of the fifth century western Empire on its own terms and then analyzes the administrations of individual Barbarian kingdoms in relation to this fifth century Roman background He shows that the law and government of the Barbarian kingdoms were more deeply indebted to Roman institutions than most previous historians have realized *Emperor, Prefects and Kings* Paul S. Barnwell, 1992 [From Rome to Byzantium AD 363 to 565](#) A. D Lee, 2013-01-15 A D Lee charts the significant developments which marked the transformation of Ancient Rome into medieval Byzantium **Marble Past, Monumental Present** Michael Greenhalgh, 2009 This survey and synthesis of the structural and decorative uses of Roman remains particularly marble throughout the mediaeval Mediterranean deals with the Christian West but also Byzantium and Islam each the inheritor of much Roman territory It includes a 5000 image DVD *Warfare and Society in the Barbarian West 450-900* Guy Halsall, 2008-01-28 Guy Halsall relates warfare to many aspects of medieval life economy society and politics This book recovers its distinctiveness looking at warfare in a rounded context in the British Isles and Western Europe between the end of the Roman Empire and the break up of the Carolingian Empire Examining the raising and organization of early medieval armies and looks at the conduct of campaigns the survey also includes a study of the equipment of warriors and the horrific experience of battle as well as an analysis of medieval fortifications and siege warfare *Warfare and Society in the Barbarian West* uses historical and archaeological evidence in a rigorous and sophisticated fashion It stresses regional variations but also places Anglo Saxon England in the mainstream of the military developments in this era and in the process provides an outstanding resource for students of all levels **Leo the Great and the Spiritual Rebuilding of a Universal Rome** Susan Wessel, 2008-11-30 Leo the Great was a major figure of the late Roman world whose life and work were profoundly intertwined with the political crisis of his day As the western empire gradually succumbed to the advancing barbarian kingdoms Leo understood that the papacy needed to expand its authority in order for the church to survive the demise of the political system This book argues that his achievement was to transform the church not only in the practical level of administrative organization but in the more fluid realm of thought and idea The secular Rome that was crumbling was replaced with a Christian universal Rome that he fashioned by infusing his theology with humanitarian ideals [The Civilian Legacy of the Roman Army](#), 2024-06-24

The Roman army represented an important social and organizational reference model for the Romano Barbarian societies which progressively replaced the Western Empire in the transition from Late Antiquity to Early Middle Ages. The great flexibility of the decision making and organizational solutions used by the Roman army allowed the new lords to readapt them and thus maintain power in early medieval Europe for a long time. From a perspective ranging from political social and economic history to law anthropology and linguistic this book demonstrates how interesting and fruitful the investigation of this specific cultural imprint can be in order to gain a better understanding of the origins of the civilization that arose after the fall of the Roman world. **Europe in Late Antiquity** Ian Nicholas Wood, 2025-03-03 In studying the Late Antique period there are different approaches: political history, fall of the West Roman Empire and its replacement by the Successor States, socio economic history, e.g. collapse of an imperial aristocracy or the impact of plague, history of the weakening of classical culture and a religious history of the establishment of the Church. None of these aspects stands alone and they are all considered in this volume.

*The Manly Eunuch* Mathew Kuefler, 2001-07-25 The question of masculinity formed a key part of the intellectual life of late antiquity and was crucial to the development of Christian society. This idea is at the heart of Mathew Kuefler's new book which revisits the Roman Empire during the third and fifth centuries of the common era. Kuefler argues that the collapse of the Roman army, an increasingly autocratic government and growing restrictions on the traditional rights of men within marriage and sexuality all led to an endemic crisis in masculinity. Men of Roman aristocracy who had always felt themselves to be soldiers, statesmen and the heads of households became by their own definition unmanly. The cultural and demographic success of Christianity during this epoch lay in the ability of its leaders to recognize and respond to this crisis. Drawing on the tradition of gender ambiguity in early Christian teachings which included Jesus's exhortation that his followers make themselves eunuchs for the sake of the kingdom of heaven, Christian writers and thinkers crafted a new masculine ideal, one that took advantage of the changing social realities in Rome, inverted the Roman model of manliness and helped solidify Christian ideology by reinstating the masculinity of its adherents.

*The Roman Martyrs* Michael Lapidge, 2017-12-08 *The Roman Martyrs* contains translations of forty Latin *passiones* of saints who were martyred in Rome or its near environs during the period before the peace of the Church, c. 312. Some of the Roman martyrs are universally known, SS Agnes, Sebastian or Laurence, for example, but others are scarcely recognized outside the ecclesiastical landscape of Rome itself. Each of the translated *passiones* is accompanied by an individual introduction and commentary; the translations are preceded by an Introduction which describes the principal features of this little known genre of Christian literature and are followed by five Appendices which present translated texts which are essential for understanding the cult

of Roman martyrs This volume offers the first collection of the Roman *passiones martyrum* translated into a modern language They were mostly composed during the period 425-675 by anonymous authors who were presumably clerics of the Roman churches or cemeteries which housed the martyrs remains It is clear that they were composed in response to the explosion of pilgrim traffic to martyrial shrines from the late fourth century onwards at a time when authentic records protocols of their trials and executions had long since vanished and the authors of the *passiones* were obliged to imagine the circumstances in which martyrs were tried and executed The *passiones* are works of fiction and because they abound in ludicrous errors of chronology they have been largely ignored by historians of the early Church Although they cannot be used as evidence for the original martyrdoms they nevertheless allow a fascinating glimpse of the concerns which animated Christians during the period in question for example the preservation of virginity or the ever present threat posed by pagan practices As certain aspects of Roman life will have changed little between the second century and the fifth the *passiones* shed valuable light on many aspects of Roman society not least the nature of a trial before an urban prefect and the horrendous tortures which were a central feature of such trials The *passiones* are an indispensable resource for understanding the topography of late antique Rome and its environs as they characteristically contain detailed reference to the places where the martyrs were tried executed and buried

**Religious Conflict from Early Christianity to the Rise of Islam** Wendy Mayer, Bronwen Neil, 2013-08-29

Arthurian world and the legends that surround and often obscure it Sifting fact from fancy Mike Ashley reveals the originals not only of King Arthur but also of Merlin Guinevere Lancelot and the knights of the Round Table as well as all the major Arthurian sites He traces each of the legends as they developed and brilliantly shows how they were later used to inspire major works of art poetry fiction and film There is clear evidence that The Arthurian legends arose from the exploits of not just one man but at least three originating in Wales Scotland and Brittany The true historical Arthur really existed and is distantly related to the present royal family The real Arthur and the real Merlin never knew each other The real Lancelot was not British but was closer to a sixth century asylum seeker The Holy Grail legend probably grew out of a cosmic catastrophe that could have destroyed most of civilization

**Theoderic and the Roman Imperial Restoration** Jonathan J. Arnold, 2014-02-24 This book provides a new interpretation of the fall of the Roman Empire and the barbarian kingdom known conventionally as Ostrogothic Italy Relying primarily on Italian textual and material evidence and in particular the works of Cassiodorus and Ennodius Jonathan J Arnold argues that contemporary Italo Romans viewed the Ostrogothic kingdom as the Western Roman Empire and its barbarian king Theoderic r 489 93 526 as its emperor Investigating conceptions of Romanness Arnold explains how the Roman past both immediate and distant allowed Theoderic and his Goths to find acceptance in Italy as Romans with roles essential to the Empire s perceived recovery Theoderic and the Roman Imperial Restoration demonstrates how Theoderic s careful attention to imperial traditions good governance and reconquest followed by the re Romanization of lost imperial territories contributed to contemporary sentiments of imperial resurgence and a golden age There was no need for Justinian to restore the Western Empire Theoderic had already done so
