**Emperor of China. Self-portrait of K'ang-hsi [compiled] by Jonathan D. Spence** Emperor of China K'ANG HSI,1974     *China* Michael Dillon,1998 This new reference work contains approximately 1500 entries covering Chinese civilisation from Peking Man to the present day Subjects include history politics art archaeology and literature to name but a few     *Fall of Imperial China* Frederic Wakeman,1977 From Simon Schuster The Fall of Imperial China is Frederic Wakeman Jr s exploration of Imperial China both its astronomic rise and steep decline From the Introduction Historians of modern China are used to contrasting the dizzying changes in post renaissance Europe with the glacial creep of Confucian civilization The West s global expansion to new vistas of discovery thus distorts our perspective of those older worlds that resisted European conquest The most tenacious of these ancient civilizations was the Chinese empire     **Heritage of China** Timothy Hugh Barrett,1990-04-20 The thirteen essays in this volume all by experts in the field of Chinese studies reflect the diversity of approaches scholars follow in the study of China s past Together they reveal the depth and vitality of Chinese civilization and demonstrate how an understanding of traditional China can enrich and broaden our own contemporary worldview     **The Emperor's New Mathematics** Catherine Jami,2012 Jami explores how the emperor Kangxi solidified the Qing dynasty in 17th century China through the appropriation of the Western learning and especially the mathematics of Jesuit missionaries This text details not only the history of mathematical ideas but also their political and cultural impact

The "Inscrutably Chinese" Church Nathan Faries,2010-09-23 The first half of the twenty first century promises to be a time of great change for the Christian church in the People s Republic of China The situation is complex and fluid and the information gap between those on the inside and those outside of China is still significant though shrinking The Inscrutably Chinese Church moves readers nearer to the Chinese Christian experience as Nathan Faries helps foreign readers to see with greater clarity just how Chinese Christians view their government and themselves in relation to those ruling powers There still exists a measure of inscrutability about China and its complex relationship with religion that must be explained to the outsider It is this gap in understanding between insider points of view within China and those outsiders seeking knowledge about the Christian faith in China that Faries seeks to close     *The Qing Dynasty and Traditional Chinese Culture* Richard J. Smith,2015-10-23 The Qing dynasty 1636 1912 a crucial bridge between traditional and modern China was remarkable for its expansiveness and cultural sophistication This engaging and insightful history of Qing political social and cultural life traces the complex interaction between the Inner Asian traditions of the Manchus who conquered China in 1644

and indigenous Chinese cultural traditions. Noted historian Richard J. Smith argues that the pragmatic Qing emperors presented a Chinese face to their subjects who lived south of the Great Wall and other ethnic faces particularly Manchu, Mongolian, Central Asian and Tibetan to subjects in other parts of their vast multicultural empire. They were attracted by many aspects of Chinese culture but far from being completely sinicized as many scholars argue, they were also proud of their own cultural traditions and interested in other cultures as well. Setting Qing dynasty culture in historical and global perspective, Smith shows how the Chinese of the era viewed the world, how their outlook was expressed in their institutions, material culture and customs, and how China's preoccupation with order, unity and harmony contributed to the civilization's remarkable cohesiveness and continuity. Nuanced and wide-ranging, his authoritative book provides an essential introduction to late imperial Chinese culture and society.

The Struggle for the Eurasian Borderlands Alfred J. Rieber, 2014-03-20. A major new account of the Eurasian borderlands as shatter zones which have generated some of the world's most significant conflicts.

**Tunguso Sibirica** Michael Weiers, Hans-Rainer Kämpfe, 1995. Rethinking the Decline of China's Qing Dynasty Daniel McMahon, 2014-08-21. The many instances of regional insurgency and unrest that erupted on China's borderlands at the turn of the nineteenth century are often regarded by scholars as evidence of government disability and the incipient decline of the imperial Qing dynasty. This book, based on extensive original research, argues that on the contrary, the response of the imperial government went well beyond pacification and reconstruction and demonstrates that the imperial political culture was dynamic, innovative and capable of confronting contemporary challenges. The author highlights in particular the Jiaqing Reforms of 1799 which enabled national reformist ideology, activist-oriented administrative education, the development of specialised frontier officials, comprehensive borderland rehabilitation and the sharing of borderland administration best practice between different regions. Overall, the book shows that the Qing regime had sustained vigour albeit in difficult and changing circumstances.

*Asia Past and Present* Peter P. Wan, Thomas D. Reins, 2021-02-17. A wide-ranging introduction to the multi-faceted history of Asia from early origins to the present. *Asia Past and Present* is an expansive survey of the social, political and economic history of the continent from the Paleolithic era to the early 21st century. As there is no physically discrete continent, rather an arbitrary division of the Eurasian landmass, this book focuses on terrain that encompasses India, Pakistan, Afghanistan, Central Asia, China, Korea, Japan, Mongolia, the Russian Far East and Southeast Asia, the area which most modern scholars identify as Asia. Offering broad chronological and topical coverage of Asia, this book examines subjects including written languages, religions and philosophies, concepts of monarchy, militarism, independence and nation building, and more. Particular focus is placed on the varying levels of influence the core cultures of India and China have had on the continent in a multitude of socio-political areas. Historical dialogues of how colonies, later emerging nations, blended traditional Asian culture and Western political and economic models of modernization complement contemporary discussions of globalization, nuclear tensions and growing demands for greater

individual freedom Written in an engaging accessible style this book Covers of a wide range of topics perspectives geographic regions and time periods Highlights India and China as the pre 19th century cultural cores of Asia Presents a relatable political cultural narrative framework Discusses contemporary themes including gender sexual orientation the environment and Western and Islamic influence on Asian culture Includes coverage of commonly underrepresented regions such as the Himalayan nations Maldives and New Guinea Asia Past and Present A Brief History is a valuable resource for undergraduate courses where Asian cultures are introduced and in courses on Asian politics diplomacy environmental issues and socio economics     The Intellectual Consequences of Religious Heterodoxy, 1600-1750 ,2012-03-02 It is too often assumed that religious heterodoxy before the Enlightenment led inexorably to intellectual secularisation Challenging that assumption this book expands the scope of the enquiry hitherto concentrated on the relation between heterodoxy and natural philosophy to include political thought moral philosophy and the writing of history Individual chapters are devoted to Grotius the Dutch Remonstrants and Socinianism to Hobbes Robert Boyle Robert Hooke Dutch Collegiants and English Unitarians Giambattista Vico Conyers Middleton and David Hume In their opening essay the editors argue that the critical problems for both Protestants and Catholics arose from destabilising the relation between the spheres of Nature and Revelation and the adoption of an increasingly historical approach both to natural religion and to the Scriptural basis of Revelation Contributors include Hans Blom Justin Champion Jonathan Israel Martin Mulrow Enrico Nuzzo William Poole Sami Juhan Savonius Richard Serjeantson and Brian Young     Asia in the Making of Europe Donald Frederick Lach,Edwin J. Van Kley,1965 First systematic inclusive study of the impact of the high civilizations of Asia on the development of modern Western civilization     *Time and Space in Chinese Culture* Chun-chieh Huang,Erik Zürcher,2021-09-13 All cultures and times have their own notions of time and space Being one of the fundamental ideas in every society they influence virtually every aspect of society In this book the authors explain the notions of time and space in China how culturally concrete and particularly Chinese they are and how significant such Chinese cultural ness of these notions is Seventeen scholars of various disciplinary backgrounds have treated topics within this general perspective in a comprehensive way     **Dynasties** Jeroen Duindam,2016 A vibrant and broad ranging study of dynastic power in the late medieval and early modern world     A Translucent Mirror Pamela Kyle Crossley,2002-04-16 A Translucent Mirror explores the origins of nationalism and cultural identity in China revealing how the Qing dynasty incorporated neighbouring but disparate political traditions into a new style of imperialism     *The Last Emperors* Evelyn S. Rawski,1998 The Qing Dynasty was the last of the conquest dynasties to rule China Its rulers Manchus from the north held power for three centuries despite major cultural and ideological differences with the Han majority In this book Evelyn Rawski re interprets the remarkable success of this dynasty arguing that it derived not from the assimilation of the dominant Chinese culture but rather from an artful synthesis of Manchu leadership styles with Han Chinese policies
