*Atlantic Families* Sarah Pearsall, 2008-11-27 The Atlantic represented a world of opportunity in the eighteenth century but it represented division also separating families across its coasts Whether due to economic shifts changing political landscapes imperial ambitions or even simply personal tragedy many families found themselves fractured and disoriented by the growth and later fissure of a larger Atlantic world Such dislocation posed considerable challenges to all individuals who viewed orderly family relations as both a general and a personal ideal The more fortunate individuals who thus found themselves all at sea were able to use family letters with attendant emphases on familiarity sensibility and credit in order to remain connected in times and places of considerable disconnection Portraying the family as a unified affectionate and happy entity in such letters provided a means of surmounting concerns about societies fractured by physical distance global wars and increasing social stratification It could also provide social and economic leverage to individual men and women in certain circumstances Sarah Pearsall explores the lives and letters of these families revealing the sometimes shocking stories of those divided by sea Ranging across the Anglophone Atlantic including mainland American colonies and states Britain and the British Caribbean Pearsall argues that it was this expanding Atlantic world much more than the American Revolution that reshaped contemporary ideals about families as much as families themselves reshaped the transatlantic world **Empire's**

day **The Life of Margaret Alice Murray** Kathleen L. Sheppard, 2013-08-01 The Life of Margaret Alice Murray A Woman's Work in Archaeology is the first book length biography of Margaret Alice Murray 1863-1963 one of the first women to practice archeology Despite Murray's numerous professional successes her career has received little attention because she has been overshadowed by her mentor Sir Flinders Petrie This oversight has obscured the significance of her career including her fieldwork the students she trained her administration of the pioneering Egyptology Department at University College London UCL and her published works Rather than focusing on Murray's involvement in Petrie's archaeological program Kathleen L. Sheppard treats Murray as a practicing scientist with theories ideas and accomplishments of her own This book analyzes the life and career of Margaret Alice Murray as a teacher excavator scholar and popularizer of Egyptology archaeology anthropology linguistics and more Sheppard also analyzes areas outside of Murray's archaeology career including her involvement in the suffrage movement her work in folklore and witchcraft studies and her life after her official retirement from UCL *Royal Kinship. Anglo-German Family Networks 1815-1918* Karina Urbach, 2008-12-18 Whenever the British Press wants to attack the Royal Family they make a jibe about their foreign roots The Royals as they say are simply a posh version of German invaders But did German relatives really influence decisions made by any British monarchs or are they just an imagined community invented by journalists and historians The Royal Archives at Windsor gave the authors among others John R. H. Doyen of 19th century monarchical history open access to Royal correspondences with six German houses Hanover Prussia Mecklenburg Coburg Hesse and Battenberg **Sweet and Bitter Island** Tabitha Morgan, 2010-07-12 On a sweltering day in July 1878 the men of the 42nd Royal Highlanders the Black Watch waded ashore at Larnaca Bay to begin the British occupation of Cyprus Today Britons on sunbeds colonise the same stretch of sand the latest visitors to an island which has long held a special place in the English imagination and a controversial role in British imperial ambitions Drawing on largely unpublished material Tabitha Morgan reflects on why successive administrations failed so catastrophically to engage with their Cypriot subjects and how social segregation confusion about Cypriot identity and the poor calibre of so many administrators all contributed to the bloody conflict that led finally to Cypriot independence in 1960 Sweet and Bitter Island explores for the first time the unique bond between Britain and Cyprus and the complex sometimes tense relationship between the two nations which endures to the present day Extensively researched and lyrically written this is the definitive portrait of British colonial life on the Mediterranean island *Distant Strangers* James Vernon, 2014-08-01 What does it mean to live in the modern world How different is that world from those that preceded it and when did we become modern In Distant Strangers James Vernon argues that the world was made modern not by revolution industrialization or the Enlightenment Instead he shows how in Britain a place long held to be the crucible of modernity a new and distinctly modern social condition emerged by the middle of the nineteenth century Rapid and sustained population growth combined with increasing mobility of people over greater distances and concentrations of

people in cities created a society of strangers Vernon explores how individuals in modern societies adapted to live among strangers by forging more abstract and anonymous economic social and political relations as well as by reanimating the local and the personal

It apprises them with current discussions, insights and theories. The four parts of this book acquaint the readers with methodological considerations and recurring themes in the academic study of the history of mission. Part one revolves around methods, part two documents approaches, while parts three and four consist of thematic clusters such as mission and language, medical mission, mission and education, women and mission, mission and politics, and mission and art. The text selection represents a wide variety of disciplines, authors and backgrounds. The texts were chosen because they address the complexities involved in studying the history of Christian mission. *Critical Readings in the History of Christian Mission* is suitable for course work and other educational purposes      Jairus's Daughter and the Female Body in Mark Janine E. Luttick, 2023-11-17 Jairus's Daughter and the Female Body in Mark demonstrates that ubiquitous and significant depictions of children in the literature and material culture of the first century CE shaped the mindsets of the Gospel of Mark's original audience. Through a detailed analysis of the story of Jairus's daughter in Mark 5 and of the archaeological remains depicting female children, Janine E. Luttick reveals how ancient hearers of this story encountered an image of a female child that communicated ideas of hope to Jesus's followers and in turn how readers today can understand the authority of Jesus, the domestic structures of early Christianity, and the suffering and loss experienced by some early Christians      *Canton Days* John M. Carroll, 2020-02-12 *Canton Days* offers the first comprehensive history of the British community in China from the mid 1700s to the end of the Opium War in 1842. During that period, Britons and other Westerners in China were restricted to trading and living in a tiny section of the city of Canton and the small Portuguese territory of Macao. At Canton, trade between China and the West was conducted through a group of Chinese merchant houses specially licensed by the Qing government. British encounters with China in this period have been seen mainly as a prelude to war, and Britons in China usually have been characterized as single-minded traders determined to open the Middle Kingdom by any means or missionaries bent on converting the Chinese heathen to Christianity. John M. Carroll challenges common assumptions about the British presence in China as he traces the lives and times of the expatriates at the heart of this vital center of trade and exchange. The author draws on a rich trove of archival sources to bring Canton and its leading figures to life, concluding with the deaths of three Britons, each revealing British concerns and anxieties about being in China. Written in a clear and lively style, his book will appeal to all readers interested in British imperial history, early modern Chinese history, and the worlds of expatriate and sojourning communities      **Empire's Noble Son** Daryl Moran, 2019-04-01 Some 600 young Australians served with the British Army's Royal Flying Corps RFC during the Great War, many losing their lives. One young fighter pilot from Melbourne who gave his life was 2nd Lt Lyle Buntine MC, the son of the Principal of Caulfield Grammar School. Lyle's tragic accidental death following gallant service as a fighter pilot during the Battle of the Somme was notable in that his family preserved

every letter newspaper article photograph and artefact associated with his life and active service His extensive correspondence which has never before been published provides the basis for this book which follows his life from his school days to active service in the fledgling RFC and to his untimely death Lyle s letters trace his voyage to and travels around England his life as an officer in the British Army his training adventures on primitive RFC aircraft and his combat experiences on the Western Front including surviving being shot down six times These letters bring to us a forgotten voice from the past resounding with humility and humour coupled with absolute fear Also explored in this book is the manner in which his family and school mourned his death and marked his memory His family s struggle to come to terms with the loss in war of their Empire s Noble Son was an echo of the deep grief manifest in the wider Australian society at the end of the Great War Years May Pass On But Memory Remains A line from the Caulfield Grammar School song      Family Feuds Eileen Hunt Botting,2012-02-01 Family Feuds is the first sustained comparative study of the place of the family in the political thought of Jean Jacques Rousseau Edmund Burke and Mary Wollstonecraft Eileen Hunt Botting argues that Wollstonecraft recognized both Rousseau s and Burke s influential stature in late eighteenth century debates about the family Wollstonecraft critically identified them as philosophical and political partners in the defense of the patriarchal structure of the family yet she used Rousseau s conceptions of childhood education and maternal empowerment and Burke s understanding of the family as the affective basis for political socialization as a theoretical foundation for her own egalitarian vision of the family It is this ideal of the egalitarian family Botting contends that is one of the most important yet least appreciated legacies of Enlightenment political thought      *Imperial Childhoods and Christian Mission* K. Vallgård,2014-12-18 Making an important addition to the highly Britain dominated field of imperial studies this book shows that like numerous other evangelicals operating throughout the colonized world at this time Danish missionaries invested remarkable resources in the education of different categories children in both India and Denmark
