Victorians Against the Gallows James Gregory,2011-11-30 By the time that Queen Victoria ascended the throne in 1837
the list of crimes liable to attract the death penalty had effectively been reduced to murder Yet despite this the gallows
remained a source of controversy in Victorian Britain and there was a growing unease in liberal quarters surrounding the
question of capital punishment Unease was expressed in various forms including efforts at outright abolition Focusing in part
on the activities of the Society for the Abolition of Capital Punishment James Gregory here examines abolitionist strategies
leaders and personnel He locates the gallows question in an imperial context and explores the ways in which debates about
the gallows and abolition featured in literature from poetry to novels of purpose and popular romances of the underworld He
places the abolitionist movement within the wider Victorian worlds of philanthropy religious orthodoxy and social morality in
a study which will be essential reading for students and researchers of Victorian history **Small Business Investment
