## **Empire Or Independence 1760 1776 A British American:**

**Empire Or Independence** Ian Ralph Christie,1976      Britain and the American Revolution H. T. Dickinson,2014-07-30

This is the first modern study to focus on the British dimension of the American Revolution through its whole span from its origins to the declaration of independence in 1776 and its aftermath It is written by nine leading British and American scholars who explore many key issues including the problems governing the American colonies Britain s diplomatic isolation in Europe over the war the impact of the American crisis on Ireland and the consequences for Britain of the loss of America

**Constitutional History of the American Revolution: The authority to legislate** John Phillip Reid,1986 John Phillip Reid addresses the central constitutional issues that divided the American colonists from their English legislators the authority to tax the authority to legislate the security of rights the nature of law the foundation of constitutional government in custom and contractarian theory and the search for a constitutional settlement      **The American Revolution** Gordon S.

Wood,2003-08-19 NEW YORK TIMES BESTSELLER An elegant synthesis done by the leading scholar in the field which nicely integrates the work on the American Revolution over the last three decades but never loses contact with the older classic questions that we have been arguing about for over two hundred years Joseph J Ellis author of Founding Brothers A magnificent account of the revolution in arms and consciousness that gave birth to the American republic When Abraham Lincoln sought to define the significance of the United States he naturally looked back to the American Revolution He knew that the Revolution not only had legally created the United States but also had produced all of the great hopes and values of the American people Our noblest ideals and aspirations our commitments to freedom constitutionalism the well being of ordinary people and equality came out of the Revolutionary era Lincoln saw as well that the Revolution had convinced Americans that they were a special people with a special destiny to lead the world toward liberty The Revolution in short gave birth to whatever sense of nationhood and national purpose Americans have had No doubt the story is a dramatic one Thirteen insignificant colonies three thousand miles from the centers of Western civilization fought off British rule to become in fewer than three decades a huge sprawling rambunctious republic of nearly four million citizens But the history of the American Revolution like the history of the nation as a whole ought not to be viewed simply as a story of right and wrong from which moral lessons are to be drawn It is a complicated and at times ironic story that needs to be explained and understood not blindly celebrated or condemned How did this great revolution come about What was its character What were its consequences These are the questions this short history seeks to answer That it succeeds in such a profound and enthralling way is a tribute to Gordon Wood s mastery of his subject and of the historian s craft      **The Concept of**

**Representation in the Age of the American Revolution** John Phillip Reid,1989 Americans did not rebel from Great Britain because they wanted a different government They rebelled because they believed that Parliament was violating constitutional precepts Colonial Whigs did not fight for American rights They fought for English rights from the Preface John

Phillip Reid goes on to argue that it was generally the application not the definition of these rights that was disputed. The sole and critical exception concerned the right of representation. American perceptions of the responsibility of representatives to their constituents, the necessity of equal representation and the constitutional function of consent had diverged gradually but significantly from British tradition. Drawing on his mastery of eighteenth century legal thought, Reid explores the origins and shifting meanings of representation, consent, arbitrary rule and constitution. He demonstrates that the controversy which led to the American Revolution had more to do with jurisprudential and constitutional principles than with democracy and equality. This book will interest legal historians, constitutional scholars and political theorists.

**Constitutional History of the American Revolution** John Phillip Reid, 2003-03 John Phillip Reid addresses the central constitutional issues that divided the American colonists from their English legislators: the authority to tax, the authority to legislate, the security of rights, the nature of law, the foundation of constitutional government in custom and contractarian theory and the search for a constitutional settlement.

**The War of American Independence, 1763-1783** Stanley D. M. Carpenter, Kevin J. Delamer, James R. McIntyre, Andrew T. Zwilling, 2023-02-15 The War of American Independence 1763-1783: Falling Dominoes addresses the military, maritime and naval, economic, key personalities, key societal groups, political, imperial rivalry and diplomatic dynamics and events from the post Seven Years War era in Great Britain's North American colonies through the end of the War of American Independence. Beginning in 1763 and moving through the war chronologically, the authors argue that British political and strategic leaders failed to develop an effective strategy to quell the discontent and subsequent revolt in the North American colonies and thus failed to restore allegiance to the Crown. This book describes and analyzes events and the outcomes of central players' decisions: the British, North American colonies, Great Britain, France, Spain and the Dutch Republic and the resultant actions. It examines events through the thematic lens of strategy, political and military leadership, public attitudes, economics, international rivalries and relations and the role of traditionally less considered groups: women, slaves and Native American peoples. This book is an enlightening and essential read for all history students from high school through to those on postgraduate courses as well as those with an interest in the American Revolution.

**The Classical and Christian Origins of American Politics** Kody W. Cooper, Justin Buckley Dyer, 2022-12-15 There has been a considerable amount of literature in the last 70 years claiming that the American founders were steeped in modern thought. This study runs counter to that tradition, arguing that the founders of America were deeply indebted to the classical Christian natural law tradition for their fundamental theological, moral and political outlook. Evidence for this thesis is found in case studies of such leading American founders as Thomas Jefferson and James Wilson, the pamphlet debates, the founders' invocation of providence during the revolution and their understanding of popular sovereignty. The authors go on to reflect on how the founders' political thought contained within it the resources that undermined in principle the institution of slavery and explores the relevance of the founders' political theology for contemporary politics. This timely important book makes a

significant contribution to the scholarly debate over whether the American founding is compatible with traditional Christianity

**The Howe Dynasty: The Untold Story of a Military Family and the Women Behind Britain's Wars for America** Julie Flavell, 2021-07-20 Finalist George Washington Book Prize New York Times Book Review Editors Choice

Finally revealing the family's indefatigable women among its legendary military figures The Howe Dynasty recasts the British side of the American Revolution In December 1774 Benjamin Franklin met Caroline Howe the sister of British General Sir William Howe and Richard Admiral Lord Howe in a London drawing room for half a dozen Games of Chess But as historian Julie Flavell reveals these meetings were about much more than board games they were cover for a last ditch attempt to forestall the outbreak of the American War of Independence Aware that the distinguished Howe family both the men and the women have been known solely for the military exploits of the brothers Flavell investigated the letters of Caroline Howe which have been blatantly overlooked since the nineteenth century Using revelatory documents and this correspondence The Howe Dynasty provides a groundbreaking reinterpretation of one of England's most famous military families across four wars Contemporaries considered the Howes impenetrable and intensely private or as Horace Walpole called them brave and silent Flavell traces their roots to modest beginnings at Langar Hall in rural Nottinghamshire and highlights the Georgian phenomenon of the politically involved aristocratic woman In fact the early careers of the brothers George Richard and William can be credited not to the maneuverings of their father Scrope Lord Howe but to those of their aunt the savvy Mary Herbert Countess Pembroke When eldest sister Caroline came of age during the reign of King George III she too used her intimacy with the royal inner circle to promote her brothers moving smoothly between a straitlaced court and an increasingly scandalous London high life With genuine suspense Flavell skillfully recounts the most notable episodes of the brothers military campaigns how Richard commanding the HMS Dunkirk in 1755 fired the first shot signaling the beginning of the Seven Years War at sea how George won the devotion of the American fighters he commanded at Fort Ticonderoga just three years later and how youngest brother General William Howe his sympathies torn nonetheless commanded his troops to a bitter Pyrrhic victory in the Battle of Bunker Hill only to be vilified for his failure as British commander in chief to subdue Washington's Continental Army Britain's desperate battles to guard its most vaunted colonial possession are here told in tandem with London parlor room intrigues where Caroline bravely fought to protect the Howe reputation in a gossipy aristocratic milieu A riveting narrative and long overdue reassessment of the entire family The Howe Dynasty forces us to reimagine the Revolutionary War in ways that would have been previously inconceivable

**Books on Early American History and Culture, 1971-1980** Raymond D. Irwin, 2004-11-30 Books on Early American History and Culture 1971-1980

An Annotated Bibliography continues a series of bibliographies listing book length works on North America and the Caribbean prior to 1815 Essential for scholars librarians and students of early America the book surveys nearly 1 200 monographs essay collections exhibition catalogues and reference works published between 1971 and 1980 In addition to

bibliographic information each entry includes brief annotations which describe the scope and approach to each item and the book's main thesis Also included are lists of journals where each work has been reviewed and the number of times the book has been cited in professional literature and the number of OCLC member libraries holding the work In 31 thematic sections the book covers such topics as exploration and colonialization Native Americans the American Revolutionary War the Constitution race and slavery gender religion

**William Franklin** Sheila L. Skemp, 1990 A biography of Benjamin Franklin's son William who remained a loyalist

**The British in the Americas 1480-1815** Anthony McFarlane, 2014-07-15 Of northern European nations the British had the greatest impact on the Americas Their history there embraces far more than the colonies that became the United States England had been in the New World for a century before those colonies were established and the British presence long outlived their loss This integrated account of that involvement spans the entire arc of British territories from the Caribbean to Canada and the entire period from the first appearance of the English to the disintegration of the British and other Euro American empires A fascinating story engrossingly told it fills a major gap in current historiography

*The American Revolution* Edward Countryman, 2003-01-08 A revised version of an American history classic exploring the people and culture of the Revolutionary era that birthed the nation When *The American Revolution* was first published in 1985 it was praised as the first synthesis of the Revolutionary War to use the new social history Bancroft Prize winning professor of history Edward Countryman offered a balanced view of how the Revolution was made by a variety of groups ordinary farmers as well as lawyers women as well as men blacks as well as whites who transformed the character of American life and culture In this revised edition Countryman stresses the painful destruction of British identity and the construction of a new American one He expands his geographical scope of the Revolution to include areas west of the Alleghenies Europe and Africa and he draws fresh links between the politics and culture of the independence period and the creation of a new and dynamic capitalist economy This innovative interpretation of the American Revolution creates an even richer more comprehensive portrait of a critical period in America's history Fine concise history Better than any comparable treatment New York Times bestselling author Sean Wilentz As a synthesis of modern scholarship on the Revolution this important book has no rival Pauline Maier author of *American Scripture Making the Declaration of Independence*

**Reader's Guide to American History** Peter J. Parish, 2013-06-17 There are so many books on so many aspects of the history of the United States offering such a wide variety of interpretations that students teachers scholars and librarians often need help and advice on how to find what they want The Reader's Guide to American History is designed to meet that need by adopting a new and constructive approach to the appreciation of this rich historiography Each of the 600 entries on topics in political social and economic history describes and evaluates some 6 to 12 books on the topic providing guidance to the reader on everything from broad surveys and interpretive works to specialized monographs The entries are devoted to events and individuals as well as broader themes and are written by a team of well

over 200 contributors all scholars of American history

**Rockingham Connection and the Second Founding of the Whig Party** Warren M. Elofson, 1996-02-08 Elofson reveals that the Rockinghams far more than previously recognized were governed by a coherent set of constitutional ideals and argues that they saw party not primarily as a means to office but as a vehicle for public spirited men to secure the predominance of right and uniform principles in the operation of the state He examines the ideological writings of Edmund Burke the Party's noted and prolific publicist placing them in their political context and providing a new analysis of Burke's renowned pamphlet *Thoughts on the Cause of the Present Discontents* 1770 Throughout Elofson illustrates the ways in which the Rockinghams altered and redefined the Whig Party and its principles as they took the first halting steps toward a program of constitutional amendment establishing their place not only in Whig but in British constitutional development

**Samuel Adams** John K. Alexander, 2004-01-13 Samuel Adams America's Revolutionary Politician offers a fresh full life biography of the man Thomas Jefferson once described as the helmsman of the American Revolution In his study historian John K Alexander uses narrative history to argue that Samuel Adams was both America's first professional politician and its first modern politician Adams Alexander argues was an unwavering politician who strove to protect the people's basic rights and who emphasized the importance of virtue liberty a sense of duty and education in fashioning a republican society John K Alexander's fresh reading of Adams's record and a uniquely close look into his personal life uncovers a masterful politician and a man consistent in his beliefs

*The Making of a Patriot* Sheila L. Skemp, 2013 On January 29 1774 Benjamin Franklin was called to appear before the Privy Council a select group of the king's advisors in an octagonal shaped room in Whitehall Palace known as the Cockpit Spurred by jeers and applause from the audience in the Cockpit Solicitor General Alexander Wedderburn unleashed a withering tirade against Franklin Though Franklin entered the room as a dutiful servant of the British crown he left as a budding American revolutionary In *The Making of a Patriot* renowned Franklin historian Sheila L Skemp presents an insightful lively narrative that goes beyond the traditional Franklin biography and behind the common myths to demonstrate how Franklin's ultimate decision to support the colonists was by no means a foregone conclusion In fact up until the Cockpit ordeal he was steadfastly committed to achieving an accommodation of our differences *The Making of a Patriot* sheds light on the conspiratorial framework within which actors on both sides of the Atlantic moved toward revolution It highlights how this event ultimately pitted Franklin against his son suggesting that the Revolution was in no small part also a civil war

**The Eighteenth Century** Paul Langford, 2002-03-29 This volume takes a thematic approach to the history of the eighteenth century in the British Isles covering such issues as domestic politics including popular political culture religious developments and change and social and demographic structure and growth Paul Langford heads a leading team of contributors to present a lively picture of an era of intense change and growth in which all parts of Britain and Ireland were increasingly bound together by economic expansion and political unification

*A Polite and Commercial People* Paul Langford, 1998 This book the first volume to

appear of the New Oxford History of England offers the most authoritative comprehensive general history of England between the accession of George II and the loss of America Though conventionally seen as static and politically stable the eighteenth century was an age of extraordinary vitality and variety of contrasts and change Beneath the serene surface of aristocratic government stately manners and Georgian elegance lay a less orderly world of treasonable plots riotous mobs and Hogarthian vulgarity While rapid commercial growth and burgeoning bourgeois pretensions gave rise to the positive achievements of military success and imperial expansion cultural confidence and polite manners tensions and contradictions simmered and threatened Evangelical enthusiasm jostled with scientific rationalism oligarchical politics with popular insubordination entrepreneurial opulence with plebian poverty sentimentality with utilitarian reform Using the most up to date research Paul Langford reveals the true character of the age and demonstrates that eighteenth century society was both strengthened and stretched by the changes to which it was subjected THE NEW OXFORD HISTORY OF ENGLAND series General Editor J M Roberts The first volume of Sir George Clark s Oxford History of England was published in 1934 Over the following fifty years that series established itself as a standard work of reference and a repertoire of scholarship for hundreds of thousands of readers The New Oxford History of England of which this is the first volume is its successor Each volume will set out an authoritative view of the present state of scholarship presenting a distillation of the new knowledge built up by a half century s research and publication of new sources and incorporating the perspectives and judgements of a new generation of scholars It is the intention of the General Editor and the Publisher that shall worthily take the place of its predecessor as the standard authoritative account of the national history and achieve a similar classic standing *Historical Dictionary of Revolutionary America* Terry M. Mays, 2005-06-09 Not just about the grievances that led to war nor the actual war itself but more particularly the subsequent period of trial and error in which the thirteen states and those that followed were welded into the United States of America In addition to the over 1100 dictionary entries on significant people and political economic and social events of the era appendixes documenting the signers of the Declaration of Independence the Articles of Confederation and the Constitution as well as listing all the Presidents of Congress under the Articles of Confederation are included
