Empires Edge Travels In South Eastern E:

Travels in South-eastern Asia Howard Malcolm,1853 *The Dust Of Empire* Karl E. Meyer,2008-08-05 When Charles de Gaulle learned that France's former colonies in Africa had chosen independence the great general shrugged dismissively They are the dust of empire But as Americans have learned particles of dust from remote and seemingly medieval countries can at great human and material cost jam the gears of a superpower In *The Dust of Empire* Karl E Meyer examines the present and past of the Asian heartland in a book that blends scholarship with reportage providing fascinating detail about regions and peoples now of urgent concern to America the five Central Asian republics the Caspian and the Caucasus Afghanistan Iran Pakistan and long dominant Russia He provides the context for America's war on terrorism for Washington's search for friends and allies in an Islamic world rife with extremism and for the new politics of pipelines and human rights in an area richer in the former than the latter He offers a rich and complicated tapestry of a region where empires have so often come to grief a cautionary tale

The Balkans and the West Andrew Hammond,2017-03-02 This collection of essays locates investigates and challenges the manner in which the Balkans and the West have constructed each other since 1945 Scholars from the two sections of the continent explore a wide range of fiction film journalism travel writing and diplomatic records both to analyse Western European balkanism and to study Balkan representations of the West over the last fifty years The first section looks back to the Cold War examining the divergent often favourable images of the Balkans that existed in Western culture as well as the variety of responses that appeared in South East European writings on the West The second section analyses the transitions that took place in representation during the 1990s Here contributors explore both the harsh denigration of the Balkans which came to dominate western discourse after the initial euphoria of 1989 and the emerging tradition of contesting Western balkanism in South East European cultural production Through this dual emphasis the volume exposes the representational practices that help to maintain a deeply divided Europe and challenges the economic and political injustices that result Despite the rise to prominence of postcolonial theory with its awareness of global inequality the current crises in many parts of South East Europe have received scant attention in literary and cultural studies The *Balkans and the West* addresses this deficiency Ranging in focus from Serbian cinema to Romanian travel literature from Western economic writings to Yugoslav fiction and from public discourse in Albania to NATO's vast propaganda machine the essays offer wide insight into representation and power in the contemporary European context
