All I Want Is a Job! Mary Gatta, 2014-04-02 In *All I Want Is a Job* Mary Gatta puts a human face on workforce development policy An ethnographic sociologist Gatta went undercover posing as a client in a New Jersey One Stop Career Center One Stop Centers developed as part of the federal Workforce Investment Act are supposed to be an unemployed worker s go to resource on the way to re employment But how well do these centers function With swarms of new clients coming through their doors are they fit for the task of pairing America s workforce with new jobs Weaving together her own account with interviews of jobless women and caseworkers Gatta offers a revealing glimpse of the toll that unemployment takes and the realities of social policy Women both educated and unskilled are particularly vulnerable in the current economy Since they are routinely paid less than their male counterparts economic security is even harder for them to grasp And women are more easily tracked into available low wage work in sectors such as retail or food service Originally designed to pair job ready workers with available openings the current system is ill fitted for diverse clients who are seeking gainful employment Even if One Stops were better suited to the needs of these workers good jobs are scarce in the wake of the Great Recession In spite of these pitfalls Gatta saw hope and a sense of empowerment in clients who got intensive career counseling new jobs and social support Drawing together tales from the frontlines she highlights the promise and weaknesses of One Stop Career Centers recommending key shifts in workforce policy America deserves a system that is less discriminatory more human and better able to assist women and their families in particular The employed and unemployed alike would be better served by such a system one that would meaningfully contribute to our economic recovery and future prosperity

Securing the Right to Employment Philip Harvey, 2014-07-14 Basing his proposal on plans developed by New Deal social welfare administrators Harvey analyzes the feasibility and desirability of using public sector job creation to secure a right to employment He shows that such a policy would provide more effective relief from the problems of poverty and unemployment than do existing arrangements while permitting a major expansion in the production of public goods and services without increasing tax burdens The economic side effects and administrative problems associated with the policy are carefully explored and found manageable Finally the book concludes with an assessment of the political interests that stand in the way of policy initiatives like the one proposed Originally published in 1989 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of
