Employment And The Urban Poor:

Employment and the Urban Poor Alice E. Trost, 1997 Presents a theory on poverty attempting to explain the high unemployment rates and depressed wages of low skilled workers residing in the central cities of large metropolitan areas located mainly in the Northeast and Midwest of United States

When Work Disappears William Julius Wilson, 1997-07-29 Wilson one of our foremost authorities on race and poverty challenges decades of liberal and conservative pieties to look squarely at the devastating effects that joblessness has had on our urban ghettos Marshaling a vast array of data and the personal stories of hundreds of men and women Wilson persuasively argues that problems endemic to America's inner cities from fatherless households to drugs and violent crime stem directly from the disappearance of blue collar jobs in the wake of a globalized economy Wilson's achievement is to portray this crisis as one that affects all Americans and to propose solutions whose benefits would be felt across our society At a time when welfare is ending and our country's racial dialectic is more strained than ever *When Work Disappears* is a sane courageous and desperately important work Wilson is the keenest liberal analyst of the most perplexing of all American problems This book is more ambitious and more accessible than anything he has done before *The New Yorker*

Employment Creation Aimed at the (urban) Poor M. Levin, 1994-01-01 *Low-skill Job Accessibility* Alice Elizabeth Trost, 1994

Accessibility and Segregation Peter M. Hutchinson, 1972 *Basic Needs and the Urban Poor* P. J. Richards, A. M. Thomson, 2017-10-12 Originally published in 1984 The diverse problems suffered by the urban poor in Asia and the means by which their welfare levels can be raised are investigated comprehensively in this study All chapters written by specialists deal with a particular subject but the general theme remains that the factors causing urban poverty and low income levels are interconnected and transmitted from one generation to another It is intended that this study will lead to discussion of the problems involved in providing services for the urban poor and result in the increased responsiveness of urban management This title will be of interest to students of urban and development studies

The Politics of the Urban Poor in Early Twentieth-Century India Nandini Gooptu, 2001-07-05 Nandini Gooptu's magisterial 2001 history of the labouring poor in India represents a tour de force

The Urban Poor in Latin America Marianne Fay, 2005 About half of the region's poor live in cities and policy makers across Latin America are increasingly interested in policy advice on how to design programmes and policies to tackle poverty This publication argues that the causes of poverty the nature of deprivation and the policy levers to fight poverty are to a large extent site specific It therefore focuses on strategies to assist the urban poor in making the most of the opportunities offered by cities such as larger labour markets and better services while helping them cope with the negative aspects such as higher housing costs pollution risk of crime and less social capital

Basic Services for Urban Poor Archana Ghosh, S. Sami Ahmad, Shipra Maitra, 1995

The Betrayal of the Urban Poor Helene Slessarev, Helene Slessarev-Jamir, 1997 Presents the history from 1960 of how policies allegedly designed to promote the welfare of the urban poor have been half hearted This book shows how little the Civil Rights Act of 1964 and

the War on Poverty provided for the urban poor and demonstrates the weakness of job training programs devised at the federal level Guidelines for Formulating Projects to Benefit the Urban Poor in the Developing Countries PADCO.,1976

The Human Settlements Conditions of the World's Urban Poor Inge Jensen,1996 The (urban) Poor and Employment Creation Michiel Levin,199? **Inclusion and Exclusion of the Urban Poor in Dhaka** Rasheda Khan,2023-10-13

Inclusion and Exclusion of the Urban Poor in Dhaka explores how the inhabitants of poor neighborhoods in Dhaka Bangladesh gain inclusion in the city at the face of exclusion The book considers how the people of poor neighborhoods encounter the exclusionary behavior of city development and how their inclusionary attempts have influenced the urban design The book is presented in two parts first it explains how people in poor neighborhoods face exclusion because of the imbalance of power and politics Second it demonstrates how the existing exclusion of urban poor is affecting their strategies to gain access to urban services through people s power and politics Focusing on the transdisciplinary field of urban anthropology the chapters uncover the urban forces policies and actions that facilitate urban politics It also investigates the people who live in poor neighborhoods who in the face of exclusion have included themselves in urban development planning and design by employing diverse strategies against those forces in the urban politics e g accepting dominance bargaining or having control over their lives This book will recontextualize an ethnographic inquiry into the exclusion and inclusion of the people within city development design plans and innovations in applications of anthropological theory and methodology This book will encourage the reader to understand the politics of state s development projects and plans and furthermore instigate the city government planners and policymakers to focus on the people s political power and agency that enables them to achieve inclusion It will therefore be of interest to researchers and students of urban planning and development urban geography and urban anthropology as well as planning professionals and policymakers **Climate Change,**
