New softbound print book      *New Developments in Employment Discrimination Law* Oana ?tefan, 2012-11-01 Drawing on a data set of 696 documents competition and state aid judgments orders and opinions of the European Courts and Advocates General opinions referring to various soft law instruments this detailed textual and doctrinal analysis investigates the way in which the EU Courts deal with soft law how the normative status of these instruments is acknowledged and how their effects are recognized It reveals that several champion instruments feature frequently in the case law the guidelines on fines and the leniency notice in competition law the state aid instruments on aid to be granted to enterprises in difficulty regional aid de minimis aid and aid to be granted to SMEs all of them having in common the fact that they regulate highly litigated areas The analysis treats issues such as the following the pathway from judicial ignorance to judicial acknowledgement of soft law the judicial creation of legal hybrids the judicial review of soft law the potential use of soft law as a sword or as a shield in a court of law the distinction between legally binding force and legal effects how soft law can produce legal effects through the operation of general principles of law such as legitimate expectations legal certainty or human rights and how the Courts locate soft law on a strong constitutional pluralist background Although the analysis might appear to relate to a fairly narrow spectrum of EU law in fact the interaction of soft law and legal principles reaches into many diverse areas of law and increasingly so in the twenty first century Consequently this ground breaking book will prove immeasurably valuable to any practitioner academic or policymaker interested in how the EU Court is fulfilling once again its constitutionalizing role even in an area traditionally lacking formalism and conventions that of soft instruments of governance      **Employment**
