*Solution-oriented Social Work Practice* Gilbert J. Greene, Mo Yee Lee, 2011 Too often in practice there is a tendency to pathologize clients requiring a diagnosis as part of the helping relationship Suppose however that most of the client problems that social workers encounter have more to do with the vagaries of life and not with what clients are doing wrong This powerful idea is the philosophy behind the strengths based approaches to social work This groundbreaking practice handbook takes this concept one step further combining the different strengths based approaches into an overarching model of solution oriented social work for greater impact The strengths perspective emphasizes client strengths goal setting and a shared definition of positive outcome Solution focused therapy approaches ongoing problems when they have temporarily abated amplifying exceptions as solutions This natural but rarely explored pairing is one component in the challenging and effective practice framework presented here by the authors two seasoned practitioners with over 50 years of combined experience By integrating the most useful aspects of the major approaches a step by step plan for action emerges With this text in hand you will Integrate elements from the strengths perspective solution focused therapy narrative therapy and the strategic therapy of the Mental Research Institute the MRI approach into an effective and eclectic framework Build and practice your skills using case examples transcripts and practical advice Equip yourself with the tools you need to emphasize clients strengths Challenge the diagnosis first medical model of behavioral health care Collaborate with clients to get past thinking first order change and more to acting outside the box second order change Learn to work with a wide variety of clients including individuals groups and families involuntary clients clients with severe mental illness and clients in crisis For any student or practitioner interested in working with clients towards collaborative and empowering change this is the essential text

in Action shows students studying in macro social work practice how to enact change at the organizational community societal and global levels An emphasis is placed on engaging in macro practice using the tenets of the award winning author team s Advocacy Policy and Practice Model APPM that highlight the inclusion of economic and social justice supportive environment human needs and rights and political access      *The Psychology of Employee Empowerment* Rozana Ahmad Huq,2016-03-03 The complexities of employee empowerment have been largely underestimated and it is clear that organisations struggle with putting the concept into practice Rozana Ahmad Huq recognises that effective utilisation of human resources is a strategic issue for organisations Hierarchical organisations struggle to survive The growing trend for downsizing and merging of organisations means that they can no longer maintain the command and control approach and employees are given more responsibility and expected to take decisions However simply burdening employees with extra responsibility without empowering them does not deliver results Drawing on her own research in organisations Dr Huq investigates the concept of empowerment in a new way that combines themes from the disciplines of management and social work the latter being a domain where empowerment is an important construct This helps to bridge the gaps in knowledge in the management domain and draws attention to the positive and negative psychological implications for employees of the practice of empowerment that are often ignored by leaders and managers Ultimately the author offers a practice model to help people in management and non management understand the new roles and behaviours that they need to adopt if empowerment is to become a reality This book is a resource for any business or other organisation genuinely interested in employee empowerment and for those with a responsibility for teaching about it      **Encyclopedia of Social Work** ,1965
