**High-Dimensional Spaces** David B. Skillicorn,2012-09-24 High dimensional spaces arise as a way of modelling datasets with many attributes Such a dataset can be directly represented in a space spanned by its attributes with each record represented as a point in the space with its position depending on its attribute values Such spaces are not easy to work with because of their high dimensionality our intuition about space is not reliable and measures such as distance do not provide as clear information as we might expect There are three main areas where complex high dimensionality and large datasets arise naturally data collected by online retailers preference sites and social media sites and customer relationship databases where there are large but sparse records available for each individual data derived from text and speech where the attributes are words and so the corresponding datasets are wide and sparse and data collected for security defense law enforcement and intelligence purposes where the datasets are large and wide Such datasets are usually understood either by finding the set of clusters they contain or by looking for the outliers but these strategies conceal subtleties that are often ignored In this book the author suggests new ways of thinking about high dimensional spaces using two models a skeleton that relates the clusters to one another and boundaries in the empty space between clusters that provide new perspectives on outliers and on outlying regions The book will be of value to practitioners graduate students and researchers      *Consequences of War* David Wilson,2014-08-29 Consequences of War is an American warrior s story of unrelenting combat against terrorism in the Far East It recounts the author s early life that gave him a warrior s soul unrelenting drive and fearlessness to fight and it follows him as he describes grueling military preparation and combat narrating mission after mission Observe as he tries rescuing wounded US Spec Ops forces still engaged with the enemy resulting in a fierce firefight against those trying to overrun his position With American conflicts never seeming to end he eventually resigned his commission and went to Africa in search of peace In his work as a wildlife scientist he describes shooting hundreds of animals including elephants buffalo and antelope for population control He narrates being knocked down and gored by Cape buffalo encounters with deadly snakes and attacks and deaths from lions and elephants After undergoing 22 surgeries and military disability the author describes the consequences of war resulting from prolonged and excessive numbers of American wars the severe impact on our military

and the devastation to the US economy He deeply honors those who fight for this nation *The Touch Of His Hand* Linda Hascall,2003-08 Through my Near Death Experience I have known there would be a time to tell part of my story There are other books that share their experiences of Near Death stories and these books were meant to be written The difference with *The Touch of His Hand* not everyone needs to have experienced a life and death journey and go through the beautiful bright light A near Death experience is a gift brought back to help guide us all on our journeys and to share with others By helping tell the experiences of others is a beginning journey of their own His guiding Hand touches us all *The Hard SF Renaissance* David G. Hartwell,2025-09-23 A major anthology of the hard SF subgenre arguing that it s not only the genre s core but also its future Something exciting has been happening in modern science fiction After decades of confusion many of the field s best writers have been returning to the subgenre called roughly hard SF science fiction focused on science and technology often with strong adventure plots Now World Fantasy Award winning editors David G Hartwell and Kathryn Cramer present an immense authoritative anthology that maps the development and modern day resurgence of this form argues for its special virtues and present preeminence and entertains us with some spectacular storytelling along the way Included are major stories by contemporary and classic names such as Poul Anderson Stephen Baxter Gregory Benford Ben Bova David Brin Arthur C Clarke Hal Clement Greg Egan Joe Haldeman Nancy Kress Paul McAuley Frederik Pohl Alastair Reynolds Kim Stanley Robinson Robert J Sawyer Karl Schroeder Charles Sheffield Brian Stableford Allen Steele Bruce Sterling Michael Swanwick and Vernor Vinge *The Hard SF Renaissance* is an anthology that SF readers will return to for years to come At the Publisher s request this title is being sold without Digital Rights Management Software DRM applied

**Understanding the Mind** Geshe Kelsang Gyatso, 2002 An explanation of the nature and functions of the mind What is the mind and how does it work Which types of

mind lead to inner peace and happiness and which do not. How can an understanding of our mind be applied to our daily life? Understanding the Mind provides a practical explanation of the mind in a unique combination of profound philosophical exploration and practical psychology. Part One explains how Buddhist psychology is based on an understanding of the mind as a formless continuum that is related to yet separate from the physical body. Though understanding the nature of the mind and the process of cognition we can attain a lasting state of inner peace and happiness that is independent of external circumstances. Part Two explains the many types of mind and shows how we can abandon those that harm us while increasing those that lead to personal joy and fulfilment. Throughout the book Geshe Kelsang skilfully shows how we can apply our understanding of our mind to improve our daily life.

[Mind and Its World 1 Sourcebook](#) Dzogchen Ponlop Rinpoche, Khenpo Tsültrim Gyamtso Rinpoche, Āchārya Lama Tenpa Gyaltzen, Āchārya Sherab Gyaltzen, 2021-01-23 Mind and Its World I begins a detailed analysis of the subjective side of experience. It examines mind and how it perceives its world in valid and invalid ways based on the Classifications of Mind which provides divisions and definitions of the types of mind identified in the epistemological tradition of Dignaga and Dharmakirti. The key point is the discernment of the aspects of mind that validly perceive things the way they are which are distinguished from those aspects of mind that are mistaken and tainted by fundamental delusion and thus keep one bound in samsara. It also introduces the two Hinayana philosophical systems the Vaibhashika and Sautrantika schools covering the two truths and the process of perception. Selected readings, analytical meditations, study questions, review summaries are included in the sourcebook.

**The Covenant of Shihala** Kyro Dean, Laya V Smith, 2022-03-29 Breakneck in pace and breathtaking in prose Rose Amber Reviews calls Fires of Qaf A stunning new fantasy series Ayelet is desperate for connection. After fifteen years wretchedly alone and on the run from the faceless tormentor of her childhood street musician Ayelet is willing to risk anything to reconnect with her first love even if it means getting caught by her former slave master. At least she thinks she is until she runs into the diamond eyes and cold smile of a handsomely devilish djinn prince. Forced together by giant lava monsters and raging ghouls the last thing Prince Jahmil needs is a coquettish human woman to slow him down and play games with his mind. He has a kingdom to save and a rival to destroy and getting rid of her should be all too easy until he hears the magic in her music. Half convinced she is his mate and equally convinced she is his doom Jahmil must decide what's most important his kingdom or his heart. Unfortunately the Faceless Man will not be forgotten and this dangerous alliance might be the only way out for both of them if it doesn't get them killed first.
