Crossing Horizons Shlomo Biderman, 2008-02-08 In this book Shlomo Biderman examines the views outlooks and attitudes of two distinct cultures the West and classical India He turns to a rich and varied collection of primary sources the Rg Veda the Upanishads and texts by the Buddhist philosophers N g rjuna and Vasubandhu among others In studying the West Biderman considers the Bible and its commentaries the writings of such philosophers as Plato Descartes Berkeley Kant and Derrida and the literature of Kafka Melville and Orwell Additional sources are Mozart's Don Giovanni and seminal films like Ingmar Bergman's Persona Biderman uses concrete examples from religion and literature to illustrate the formal aspects of the philosophical problems of transcendence language selfhood and the external world and then demonstrates their plausibility in actual situations Though his method of analysis is comparative Biderman does not adopt the disinterested stance of an ideal spectator Rather Biderman approaches ancient Indian thought and culture from a Western philosophical standpoint to uncover cultural presuppositions that can be difficult to expose from within the culture in question The result is a fascinating landmark in the study of Indian and Western thought Through his comparative prism Biderman explores the most basic ideas underlying human culture and his investigation not only sheds light on India's philosophical traditions but also facilitates a deeper understanding of our own

Religion Chad V. Meister,Paul Copan,2013 The Routledge Companion to Philosophy of Religion Second Edition contains nine
 new entries and is an indispensable guide and reference source to the major themes movements and topics in philosophy of
 religion Buddhist and Christian? Rose Drew,2013-07-03 This is a detailed exploration of Buddhist Christian dual
 belonging engaging from both Buddhist and Christian perspectives the questions that arise and drawing on extensive
 interviews with well known individuals in the vanguard of this important and growing phenomenon The issue is pressing
 insofar the last century has witnessed a gradual but profound transformation of the West s religious landscape In today s
 context of diversity people are often influenced by more than one religion Multireligious identities are consequently on the
 rise At one end of the spectrum are those who identify themselves as fully belonging to more than one tradition One of the
 most prevalent combinations is Christianity and Buddhism This book addresses central and fundamental questions How is it
 possible to be authentically Buddhist and authentically Christian when for example God is central to Christianity yet absent
 from Buddhism when Christians have faith in Jesus Christ while Buddhists take refuge in the Buddha when Christians hope
 for heaven and Buddhists hope for nirvana and when Buddhists and Christians engage in different practices Are those who

identify themselves as belonging to both traditions profoundly irrational religiously schizophrenic or perhaps just spiritually superficial Or is it possible somehow to reconcile the thought and practice of Buddhism and Christianity in such a way that one can be deeply committed to both And if it is possible will the influence of Buddhist Christians on each of these traditions be something to be regretted or celebrated *The ^ADispeller of Disputes* Jan Westerhoff,2010-04-07 Nagarjuna's Vigrahavyavartani is one of the most important Madhyamaka Buddhist philosophical texts Jan Westerhoff offers a new translation reflecting the best current philological research and all available editions and adds his own philosophical commentary on the text His nuanced philosophically sophisticated commentary explains Nagarjuna's arguments in a way that is both grounded in historical and textual scholarship and connected explicitly to contemporary philosophical concerns

Innovative Buddhist Women Karma Lekshe Tsomo,2013-09-05 Combines the voices of scholars and practitioners in analysing Buddhist women's history 26 articles document the lives of women who have set in motion changes within Buddhist societies with analyses of issues such as gender ethnicity authority and class that affect the lives of women in traditional Buddhist cultures and increasingly the west *A Post-Western Account of Critical Cosmopolitan Social Theory* Michael Murphy,2021-01-28 In this book Michael Murphy argues that if cosmopolitanism is to remain critical and relevant rather than set out another grand project what is required is a process of critique and cooperation At the level of inter cultural exchange this requires understanding the encounter with the Other as a mutual phase of development and holds out the potential to rejuvenate world philosophies Through this process the cosmopolitan imagination emerges from a dialogue between global traditions of relational sociologies on matters of common concern The second stage of the book applies this methodology to provide a radical account of being and acting in the world This will be achieved through engaging in conversation with the works of the critical theorist Gerard Delanty the decolonial theorist Walter Dignolo and the Buddhist Confucian and phenomenological inspired work of Watsuji Tetsuro In providing a move away from abstractions and ideals to instead focus on injustices and the everyday life Murphy uncovers an independent source for political legitimacy not defined by the rationality of the state or dependent on the ideals of Western philosophy Part of this investigation also reveals a post individual account of agency as an enactive being Emphasising agency as becoming has the potential to allow us to reimagine the relationship between the self and the institutions of democracy The main themes of this book are eurocentrism critical cosmopolitanism post individual subjectivity and democracy Nagarjuna in Context Joseph Walser,2005-05-11 Joseph Walser provides the first examination of Nagarjuna's life and writings in the context of the religious and monastic debates of the second century CE Walser explores how Nagarjuna secured the canonical authority of Mahayana teachings and considers his use of rhetoric to ensure the transmission of his writings by Buddhist monks Drawing on close textual analysis of Nagarjuna's writings and other Buddhist and non Buddhist sources Walser offers an original contribution to the understanding of Nagarjuna and the early history of Buddhism
