assume that it must be increasing this work has focused on better understanding the various ways that noise is defined what that noise can do and how we can use noise as a strategically political tactic Noise Thinks the Anthropocene is a textual experiment in noise poetics that uses the growing body of research into noise as source material It is an experiment in that it results from indeterminate means alternative grammar and experimental thinking The outcome was not predetermined It uses noise to explain elucidate and evoke akin to other poetic forms within the textual milieu in a manner that seeks to be less determinate and more improvisational than conventional writing Noise Thinks the Anthropocene argues that noise poetics is a necessary form for addressing political inequality coexistence with the nonhuman other the ecological crisis and sustainability because it approaches these issues as a system of interconnected fragments and excesses and thus has the potential to reach or envision solutions in novel ways **Silencing the Sounded Self** Christopher Shultis,2013-11-05

Christopher Shultis observes an intriguing contrast between John Cage s affinity for Thoreau and fellow composer Charles Ives connection with Emerson Although both Thoreau and Emerson have been called transcendentalists they held different views about the relationship between nature and humanity and the artist s role in creativity Shultis explores the artist s sounded or silenced selves the self that takes control of the creative experience versus the one that seeks to coexist with it and shows how understanding this distinction allows a better understanding of Cage Having placed Cage in this experimental tradition of music poetry and literature Shultis offers provocative interpretations of Cage s aesthetic views especially as they concern the issue of non intention and addresses some of his most path breaking music as well as several experimentally innovative written works **A Chance Meeting** Rachel Cohen,2024-03-19 Weaving a tapestry of creativity and
