## **Empty Space A About The Theatre Deadly Holy Rough Immediate:**

The Empty Space Peter Brook, 1996 From director and cofounder of the Royal Shakespeare Company Peter Brook The Empty Space is a timeless analysis of theatre from the most influential stage director of the twentieth century As relevant as when it was first published in 1968 groundbreaking director and cofounder of the Royal Shakespeare Company Peter Brook draws on a life in love with the stage to explore the issues facing a theatrical performance of any scale He describes important developments in theatre from the last century as well as smaller scale events from productions by Stanislavsky to the rise of Method Acting from Brecht s revolutionary alienation technique to the free form happenings of the 1960s and from the different styles of such great Shakespearean actors as John Gielgud and Paul Scofield to a joyous impromptu performance in the burnt out shell of the Hamburg Opera just after the war Passionate unconventional and fascinating this book shows how theatre defies rules builds and shatters illusions and creates lasting memories for its audiences The Ontological Turn Martin Holbraad, Morten Axel Pedersen, 2017-03-10 A new and often controversial theoretical orientation that resonates strongly with wider developments in contemporary philosophy and social theory the so called ontological turn is receiving a great deal of attention in anthropology and cognate disciplines at present This book provides the first anthropological exposition of this recent intellectual development It traces the roots of the ontological turn in the history of anthropology and elucidates its emergence as a distinct theoretical orientation over the past few decades showing how it has emerged in the work of Roy Wagner Marilyn Strathern and Viveiros de Castro as well a number of younger scholars Distinguishing this trajectory of thinking from related attempts to put questions of ontology at the heart of anthropological research the book articulates critically the key methodological and theoretical tenets of the ontological turn its prime epistemological and political implications and locates it in the broader intellectual landscape of contemporary social theory *Beyond Mimesis* Jörg Sternagel, James Tobias,, Dieter Mersch, 2023-12-20 Providing a solid media philosophical groundwork Beyond Mimesis contributes to the theory of mimesis and alterity in performance philosophy while serving to stimulate and inspire future inquiries where studies in media and art intersect with philosophy It collects a wide range of philosophical and artistic thinkers work to develop an exacting framework with clear movement beyond mimesis in aesthetic experiences in uncanny valleys Together the chapters ask if intersubjective acts of relating that are defined by alterity responsivity or witness and trust can be transferred to artificial beings without remainder The proposed framework uses a particularly fruitful theoretical model for this inquiry known as the uncanny valley a fictitious schema developed in 1970 by Japanese roboticist Masahiro Mori According to Mori artificial beings or animated dolls become more eerie to us the more humanlike they appear The model s utility requires distinguishing between visual media and real life but in general it suggests that there is a fundamental incommensurability between people and artificial beings that cannot be ignored This necessitates that all too realistic representations as well as fictional encounters with artificial beings do not transgress certain limits According to

Mori it is an ethical imperative of their design that they evidence a certain degree of dissimilarity with people This notion seems especially applicable to artistic projects in which animated dolls or robots make explicit their doll ness or robot ness and thus inscribe a moment of reflexivity into the relations they establish With contributions by Elena Dorfman J rg Sternagel Dieter Mersch Allison de Fren Nadja Ben Khelifa James Tobias Grant Palmer Stephan G nzel Nicole Ku uleinapuananioliko awapuhimelemeleolani Furtado Misha Choudhry and a conversation between Carolin Bebek Simon Makhali and Anna Suchard

performativity in contemporary Indian fiction in English Salman Rushdie Arundhati Roy and Vikram Chandra Such fiction which constructs identity through performative acts is built around a nomadic understanding of the self and implies an evolution of narrative language towards performativity whereby the text itself becomes nomadic A comparison with theatrical performance Peter Brook's Mahabharata and Girish Karnad's theatre of roots serves to support the argument that in both theatre and fiction the concepts of performance and performativity transform classical Indian mythic poetics In the mythic symbiosis of performance and storytelling in Indian tradition within a cyclical pattern of estrangement from and return to the motherland and or its traditions myth becomes a liberating space of consciousness where rigid categories and boundaries are transcended
