Ikpo, 2015-09-16 The end of the twentieth century which was marked by multiparty democracy in Eastern European entities and Third World countries moved Cte dIvoire to adhere to the new democratization system in 1990 Nine years later the territory registered its first bloodless state coup On September 19 2002 the country was shared into two parts with human losses and damages when President Gbagbo was on official visit to Italy After different attempts in negotiations Linas Marcoussis 2003 Pretoria agreement 2005 and the Political Agreement of Ouagadougou 2007 for some protagonists international organizations and NGOs the perfect conflict resolution was about running elections so that the former peaceful land could regain its image of a prosperous and stable country The elections that were delayed six times came to pass and two presidents came out of the scrutiny Gbagbo was proclaimed victorious by the Ivorian Constitutional Council while Ouattara was acknowledged by the Independent Electoral Commission Once more the country fell into a postelection crisis Meanwhile the African Union the European Union the USA the French Licorne and the United Nations urged President Gbagbo to step down since Ouattara was considered the happy winner of the scrutiny The refusal of Gbagbo cost human losses and led to his arrest on April 11 2011 Nowadays the country is not unified and reconciled but it will have the 2015 elections

Ouédraogo, Ebrima Sall, 2008 This book seeks to explain the events that have been taking place in Cote d'Ivoire since 1999 and which are commonly referred to as la crise ivoirienne the Ivorian crisis It seems that the day to day interpretation of the events did not provide a satisfactory explanation of the deep fracture and that it was necessary to reconsider the essentialist theoretical categories that are striving to impose on us a false view made cumbersome by ethnocentric prejudices To avoid falling into the trap of the day to day interpretation of events will require an in depth questioning of the causes of the foreseen collapse of the Ivorian model Having a grasp on the historical meaning of facts is required in examining the sequence and interconnection of events which we always need to rule on the historical weight in order to gauge the tragic trend of the social dynamics While looking for the causes of the social and political rift the authors of this volume started by asking a central question How does the weight of the modern Ivorian society formation intervene in the modalities of the actions of individuals and current collectivities The brutal and violent fracture which the Ivorian social formation underwent brings forth once again the issue of collective identities and unveils at the same time the challenges related to the incomplete nature of the construction of Nation States in Africa In fact it is a mistake to think that the crisis spontaneously started among partisan higher authorities and to ignore that behind the ostentatious declarations on National Unity pre colonial groups have not completely melted into the modern Nation Furthermore in the process of national social space formation new social combinations emerge by continuously re-inventing themselves It seems that the roots of current crises reside in the unprecedented transformation which contemporary African societies have been undergoing **Cote D'Ivoire (Ivory**

siècle Georges Photios Tapinos, 2001-01-01 La crise économique des années 1980 et 1990 en Cote d'Ivoire a-t-elle la mesure de la

croissance des décennies antérieures souvent qualifiée de modèle ivoirien. À l'aube du XXI^e siècle, cette grave crise qui s'étend au domaine socio-politique doit être mise au regard des dynamiques démographiques, des trajectoires économiques et des défis du développement durable. Cet ouvrage privilégie par conséquent le long terme dans une étude rétrospective et prospective. Après avoir étudié les influences de la croissance de la population et de celle de l'économie, l'ouvrage analyse les secteurs clés du développement économique et social, puisement des fronts pionniers, chômage et précarisation des emplois, inadéquation des systèmes scolaires et de santé, autant de diagnostics de ces analyses. Celles-ci mettent également en évidence les potentialités du pays et les éléments des politiques publiques nécessaires, leur utilisation en étudiant notamment les populations cibles qui devraient être les femmes, les jeunes et les migrants. Enfin, en construisant plusieurs scénarios économiques, l'ouvrage permet de dessiner les devenir possibles d'une Côte d'Ivoire partagée entre l'intégration régionale et le repli nationaliste. La recherche d'une croissance démographique maîtrisée et d'un développement plus compétitif, équitable et durable.

Presidential Conflict in Côte d'Ivoire T. Y. Okosun, 2017-12-27 Presidential Conflict in Côte d'Ivoire: Governance, Political Power, and Social Justice explores the 2011-2012 presidential conflict in Côte d'Ivoire, focusing on the conflict's impact on governance, political power, civil society, security, and social justice. The book examines the ways in which dictatorial governance detracts from democratic and civil society aspirations, the intersection of power-based conflict and its impact on citizens and their security, and the role ethnic sentiments and negation play in de-emphasizing the humanity of non-favored groups. Moreover, the president's conflicting perspectives on the nature of governance and political power marginalized concerns specifically regarding the significance of democracy, civil society, and social justice. Despite President Laurent Gbagbo's challenge and demand for democracy, his presidency was unable to avoid morphing into dictatorial and autocratic governance. Autocracy and dictatorship had already been sown in Côte d'Ivoire during the thirty years of President Félix Houphouët-Boigny's benign dictatorship. It is within this rigidity that Gbagbo, a product of Ivoirian socio-political history, socialized in dictatorial, ethnic, and elite sentiments, constructed his version of autocracy and dictatorship and refused to yield power to a new president-elect, Alassane Ouattara, triggering a national presidential conflict. This analysis of the presidential conflict is an effort to forestall future similar issues around the globe but specifically in poor and developing nations from destabilization and violence. The book concludes with an African Conflict Transformation model constructed as a consultative option for political conflict mitigation purposes.
