Temple Studies III Philip R. Davies, John M. Halligan, 2002-01-01 This volume offers a systematic approach to the Persian Ptolemaic Seleucid and Hasmonean period correlating social contexts with the biblical and post biblical literature that each period generated The list of contributors includes many of the pioneers of the field of Second Temple sociology including Kenneth Hoglund John Wright Lester Grabbe Richard Horsley James Pasto Robert Doran and the editors The volume which also includes an introductory essay on the methods and outcomes of this kind of exercise furnishes an excellent introduction to the agenda of interpreting biblical texts as social products **The Destruction of Sodom** Graham J Harris, 2015-11-26 In The Destruction of Sodom the Biblical account of the destruction of Sodom and Gomorrah is examined under the spotlight of

modern science against a cultural backdrop of history and archaeology In this scientific reconstruction the account of events described in the book of Genesis is verified and it is established that the destruction occurred at about 2350 BC as a result of an earthquake induced landslide transporting Sodom to the depths of the Dead Sea Strands of geography geology and engineering science are drawn together to provide comprehensive treatment of all relevant scientific aspects pertinent to a rational understanding of the mechanics of the disaster The detailed scientific argument follows a discussion of the Genesis account and considerations of Canaanite culture and commerce with specific attention to the trade in bitumen On this point Graham Harris provides evidence that the mainstay of Canaanite commerce was the exploitation of the bitumen resources of the Dead Sea that the Sodomites were among the world's first chemical engineers and from the resources of the region a large number of processed materials also would have been exported to Egypt The Destruction of Sodom is an example of the application of science to a fuller understanding of one of the most intriguing events of the Old Testament and will be of direct interest to scholars as well as to the wider public

Hebrew Union College Annual Hebrew Union College, 1972 *Excavations at Tall Jawa, Jordan* James R. Battenfield, Susan Ellis, Peter R.W. Popkin, 2016-08-01 In *Excavations at Tall Jawa Jordan Volume 5* the authors present their research in the areas of regional survey salvage excavation zooarchaeology ceramic typology experimental archaeology and ethnoarchaeology This work illustrates areas threatened and later destroyed by modern development and is a contribution to heritage documentation These studies illuminate aspects of family and town life in the Iron Age Roman Byzantine and Late Ottoman Early Mandate periods in central Jordan *The Making of Israel* C.L. Crouch, 2014-06-10 In *The Making of Israel* C. L. Crouch presents the southern Levant during the seventh century BCE as a major period for the formation of Israelite ethnic identity challenging scholarship which dates biblical texts with identity concerns to the exilic and post exilic periods as well as scholarship which limits pre exilic identity concerns to Josianic nationalism The argument analyses the archaeological material from the southern Levant during Iron Age II then draws on anthropological research to argue for an ethnic response to the economic political and cultural change of this period The volume concludes with an investigation into identity issues in Deuteronomy highlighting centralisation and exclusive Yahwism as part of the deuteronomic formulation of Israelite ethnic identity **Qumran: The Site of the Dead Sea Scrolls: Archaeological Interpretations and Debates** Jean-Baptiste Humbert, Jürgen Zangenberg, 2018-11-01 Today archaeology plays an ever growing role in Qumran studies Fifteen papers

presented in 2002 at Brown University provide the necessary data to break new ground in the recent debate about the character of Qumran Section I discusses material from old and new excavations that help assess the validity of the traditional Qumran Essene hypothesis Part II discusses various aspects of the main settlement such as division of space the character of period III the date of the cave scroll deposits and the use of food Part III deals with the Qumran cemetery and a similar graveyard at Khirbet Qazone Part IV places Qumran into a wider regional context concentrating on local agriculture and ceramic production The articles strongly call for a new awareness for archaeological detail and in their various ways instigate a renewed debate about how to bring texts and material culture into a meaningful dialogue

The Caves of Qumran Marcello Fidanzio, 2016-11-01 In Qumran studies the attention of scholars has largely been focused on the Dead Sea Scrolls while archaeology has concentrated above all on the settlement This volume presents the proceedings of an international conference Lugano 2014 dedicated entirely to the caves of Qumran The papers deal with both archaeological and textual issues comparing the caves in the vicinity of Qumran between themselves and their contents with the other finds in the Dead Sea region The relationships between the caves and the settlement of Qumran are re examined and their connections with the regional context are investigated The original inventory of the materials excavated from the caves by Roland de Vaux is published for the first time in appendix to the volume
