Edward Willis and Ellen Browning Scripps Charles Preece,1990 Journalism s flamboyant bad boy owned more newspapers than Hearst founded United Press hated advertisers carried a gun Sister surrogate mother Ellen pioneered women s rights was the soul of Scripps Howard newspapers first columnist first foreign correspondent First Scripps biography since 1960 s Ellen Browning Scripps Molly McClain,2019-12-01 Molly McClain tells the remarkable story of Ellen Browning Scripps 1836 1932 an American newspaperwoman feminist suffragist abolitionist and social reformer She used her fortune to support women s education the labor movement and public access to science the arts and education Born in London Scripps grew up in rural poverty on the Illinois prairie She went from rags to riches living out that cherished American story in which people pull themselves up by their bootstraps with audacity hard work and luck She and her brother E W Scripps built America s largest chain of newspapers linking midwestern industrial cities with booming towns in the West Less well known today than the papers started by Joseph Pulitzer and William Randolph Hearst Scripps newspapers transformed their owners into millionaires almost overnight By the 1920s Scripps was worth an estimated 30 million most of which she gave away She established the Scripps Institution of Oceanography in La Jolla California and appeared on the cover of Time magazine after founding Scripps College in Claremont California She also provided major financial support to organizations worldwide that promised to advance democratic principles and public education In *Ellen Browning Scripps* McClain brings to life an extraordinary woman who played a vital role in the history of women California and the American West *Ellen Browning Scripps* Edward Dessau Clarkson,1958 *Ellen Browning Scripps Memorial Pier, March 26, 1987*,1987 **The Environmental Legacy of the UC Natural Reserve System** Peggy L. Fiedler,Susan Gee Rumsey,Kathleen Wong,2013-02-04 The UC Natural Reserve System established in 1965 to support field research teaching and public service in natural environments has become a prototype of conservation and land stewardship looked to by natural resource managers throughout the world From its modest beginnings of seven sites the UC NRS has grown to encompass more than 750 000 wildland acres This book tells the story of how a few forward thinking UC faculty who d had their research plots and teaching spots destroyed by development and habitat degradation devised a way to save representative examples of many of California s major ecosystems Working together with conservation minded donors and landowners with state and federal agencies and with land trusts and private conservation organizations they founded what would become the world s largest university administered natural reserve system a legacy of lasting significance and utility This lavishly illustrated volume which includes images by famed photographers Ansel Adams and Galen Rowell describes the natural and human histories of the system s many reserves Located throughout California these wildland habitats range from coastal tide pools to inland deserts from lush wetlands to ancient forests and from vernal pools to oak savannas By supporting teaching research and public service within such protected landscapes the UC NRS contributes to the understanding and wise stewardship of the

Earth **Proceedings, American Philosophical Society (vol. 136, No. 4, 1992)** , **Women and Journalism** Deborah Chambers, Linda Steiner, Carole Fleming, 2004-06-01 Women and Journalism offers a rich and comprehensive analysis of the roles status and experiences of women journalists in the United States and Britain Drawing on a variety of sources and dealing with a host of women journalists ranging from nineteenth century pioneers to Martha Gellhorn Kate Adie and Veronica Guerin the authors investigate the challenges women have faced in their struggle to establish reputations as professionals This book provides an account of the gendered structuring of journalism in print radio and television and speculates about women s still emerging role in online journalism Their accomplishments as war correspondents are tracked to the present including a study of the role they played post September 11th **Science on the Air** Marcel Chotkowski LaFollette, 2009-08-01 Mr Wizard s World Bill Nye the Science Guy NPR s Science Friday These popular television and radio programs broadcast science into the homes of millions of viewers and listeners But these modern series owe much of their success to the pioneering efforts of early twentieth century science shows like Adventures in Science and Our Friend the Atom Science on the Air is the fascinating history of the evolution of popular science in the first decades of the broadcasting era Marcel Chotkowski LaFollette transports readers to the early days of radio when the new medium allowed innovative and optimistic scientists the opportunity to broadcast serious and dignified presentations over the airwaves But the exponential growth of listenership in the 1920s from thousands to millions and the networks recognition that each listener represented a potential consumer turned science on the radio into an opportunity to entertain not just educate Science on the Air chronicles the efforts of science popularizers from 1923 until the mid 1950s as they negotiated topic content and tone in order to gain precious time on the air Offering a new perspective on the collision between science s idealistic and elitist view of public communication and the unbending economics of broadcasting LaFollette rewrites the history of the public reception of science in the twentieth century and the role that scientists and their institutions have played in both encouraging and inhibiting popularization By looking at the broadcasting of the past Science on the Air raises issues of concern to all those who seek to cultivate a scientifically literate society today Ocean Wolf H. Berger, 2009-05-06 The past one hundred years of ocean science have been distinguished by dramatic milestones remarkable discoveries and major revelations This book is a clear and lively survey of many of these amazing findings Beginning with a brief review of the elements that define what the ocean is and how it works from plate tectonics to the thermocline and the life within it Wolf H Berger places current understanding in the context of history Essays treat such topics as beach processes and coral reefs the great ocean currents off the East and West Coasts the productivity of the sea and the geologic revolution that changed all knowledge of the earth in the twentieth century **Empire Builder** Sandra E.
