technology field Provided by publisher      *The Science of Spirit Possession (2nd Edition)* Terence Palmer, 2014-11-10 Spirit possession attachment poltergeist activity and the negative impact of obsession infestation and harassment on psychological health together with the methods of dealing with it are contemporary issues that demand serious scientific research and academic study Essential reading for anyone who is presented with the problem of identifying and dealing with negative spirit influence whether they are a health professional a service user or a research scientist this book presents a complementary approach that is built upon the theoretical concepts and experimental methods of Frederic Myers together with modern research findings in quantum theory and neuro imaging      **Intelligent Data Analysis in Medicine and Pharmacology** Nada Lavrač, Elpida Keravnou-Papailiou, Blaz Zupan, 2012-12-06 Intelligent data analysis data mining and knowledge discovery in databases have recently gained the attention of a large number of researchers and practitioners This is witnessed by the rapidly increasing number of submissions and participants at related conferences and workshops by the emergence of new journals in this area e g Data Mining and Knowledge Discovery Intelligent Data Analysis etc and by the increasing number of new applications in this field In our view the awareness of these challenging research fields and emerging technologies has been much larger in industry than in medicine and pharmacology The main purpose of this book is to present the various techniques and methods that are available for intelligent data analysis in medicine and pharmacology and to present case studies of their application Intelligent Data Analysis in Medicine and Pharmacology consists of selected and thoroughly revised papers presented at the First International Workshop on Intelligent Data Analysis in Medicine and Pharmacology IDAMAP 96 held in Budapest in August 1996 as part of the 12th European Conference on Artificial Intelligence ECAI 96 IDAMAP 96 was organized with the motivation to gather scientists and practitioners interested in computational data analysis methods applied to medicine and pharmacology aimed at narrowing the increasing gap between excessive amounts of data stored in medical and pharmacological databases on the one hand and the interpretation understanding and effective use of stored data on the other hand Besides the revised Workshop papers the book contains a selection of contributions by invited authors The expected readership of the book is researchers and practitioners interested in intelligent data analysis data mining and knowledge discovery in databases particularly those who are interested in using these technologies in medicine and pharmacology Researchers and students in artificial intelligence and statistics should find this book of interest as well Finally much of the presented material will be interesting to physicians and pharmacologists challenged by new computational technologies or simply in need of effectively utilizing the overwhelming volumes of data collected as a result of improved computer support in their daily professional practice      Emotions as Key Drivers of Consumer Behaviors: A Multidisciplinary Perspective, 2nd edition Debora Bettiga, Giuliano Noci, Omneya Yacout, 2025-09-16 Consumers not only make rational decisions but also emotional ones Research now recognizes the significance of diverse neglected factors such as emotions affect arousal and pleasure in appraisal and has identified processes and behaviors that

do not fit with the traditional view of acting as a result of a purely deliberate process Consumers behaviors and choices are grounded both in consumer beliefs and judgements and in experiences and emotions Individuals more broadly bring their perceptions values feelings and cognitive schemes to bear in interpreting the world In this context unconscious physiological manifestations can offer indications as to how people evaluate filter and react to external stimuli What is expressed by the conscious mind indeed does not represent a full and perfect representation of the actual needs and wishes of individuals Understanding consumer behaviors has long been a challenging endeavor due to different variables affecting decision making mechanisms and the difficulty of measuring them It requires indeed a comprehension of both the cognitive information processing mechanisms and of the affective and experiential systems of individuals Moreover it demands an appreciation of the rich and deep interplay between cognitive and affective processes Understanding consumers emotions can inform practitioners on how to effectively communicate with their target audience whether internal or external in order to elicit attention engagement and positive emotional responses and to build emotional connections Human stress engagement cognitive and emotional responses may be taken into account in the development of products and services by understanding consumers responses and experience with them This has a deep impact at the organizational level in terms of marketing strategies putting the consumer at the center of the whole organization This Research Topic aims to disseminate knowledge on the role of emotions in consumer behavior throughout the purchasing process while also allowing for dialogue between disciplines such as psychology organizational behavior marketing neuroscience bioscience and design Authors are encouraged to submit empirical theoretical and systematic review papers on themes including but not limited to the role of emotions in consumer behavior throughout the purchasing process neurophysiological methods to detect consumers emotions affective drivers of choice hedonic consumption and individual experience characterization classification and measurement of emotions the effect of positive emotions and negative emotions on the appraisal process the role of anticipated and transient emotions in consumer choices customer centric marketing strategies consumers expression of emotions on social media consumer emotions during online service encounters consumer emotions after negative service incidences antecedents to brand love and brand hate consumer emotions in ethical consumption contexts
