Ego at the Threshold Edward E. Sampson, 1975 **Psychopathology** Charles Frederick Reed, 1958 Five general areas are represented in the selections 1 the problem of the effects of early experience on psychological development 2 psychosomatic disorders and neurosis 3 schizophrenic psychosis 4 somatic factors in psychopathology and 5 the social context and its effects on the phenomena of behavior Ruling Oneself Out Ivan Ermakoff, 2008-04-21 *Ruling Oneself Out* develops a sociological theory to account for collective abdications of power such as those of the German Reichstag in 1933 and the French parliament in 1940 *Thresholds* Matt Allman, Matt Oldman and Eve Bodice, 2010-08-12 *Thresholds* is the fourth in a series of books that begins with *To Bind Fast* It continues the search of the main characters Mark and John for answers as to how things work that is all things that are knowable One of the main objects of their examination is human behavior and the values that sometimes attend that behavior Over the course of these four novels Mark and John have gone from each quietly living in near solitude to living titillating lives in the company of two very creative women who re involve them in the buzzing world of human activity Modelling and Simulation for Autonomous Systems Jan Mazal, Adriano Fagiolini, Petr Vasik, Michele Turi, Agostino Bruzzone, Stefan Pickl, Vlastimil Neumann, Petr Stodola, 2022-04-01 This book constitutes the thoroughly refereed post conference proceedings of the 8th International Conference on Modelling and Simulation for Autonomous Systems MESAS 2021 held as a virtual event due COVID 19 in October 2021 The 30 full papers together with 2 short papers included in the volume were carefully reviewed and selected from 50 submissions They are organized in the following topical sections M and AxS AI in context of future warfare and security environment and future challenges of Advance M S Technology **Psychotherapy of Preoedipal Conditions** Hyman Spotnitz, 1995-08-01 To find more information on Rowman Littlefield titles please visit us at www.rowmanlittlefield.com **Network Collective Action** David Knoke, 2025-04-09 *Collective action* asks a fundamental question in social science How do sets of actors choose courses of action and work together to achieve desired outcomes often in opposition to other coalitions Psychological and economic rationality explanations are incomplete in emphasizing the mental decision processes of individuals Collective action must be understood at the level analysis of interpersonal and interorganizational relations Social network theories and methods provide optimal frameworks for explaining collective action in a variety of settings This book reviews theories and empirical research on collective action in several substantive areas demonstrates how agent based models can analyze collective action networks pandemics riots social movements insurrections insurgencies and concludes with speculations about future research directions **Riddle of the Human 'I'** Sergei O. Prokofieff, 2017-04-24 Anyone who embarks upon the study of anthroposophy will soon recognise that the mystery of the human ego lies at its very heart This mystery is one of the central questions of anthroposophical Christology and at the same time forms one of the most difficult cognitive challenges presented by anthroposophy Sergei O Prokofieff The question of the true nature of the human I or individuality is one of the

key issues of our time but it is also one of the most complex riddles of existence This booklet doesn't give simple answers but adds perspectives that deepen the theme offering a picture of its manifold mysteries In three great panoramas the author develops central aspects of the topic beginning with the threefold nature of human individuality followed by an illumination of the cosmic dimension of the ego and finally an encapsulation of the significance of the earthly ego With his usual thoroughness and clarity Sergei O Prokofieff throws light on one of the fundamental questions of our time Dynamism of Character in Shakespeare's Mature Tragedies Piotr Sadowski,2003 The theory considers human behavior in terms of functional equilibrium between the stable properties of the mind independent from the pressures of the sociocultural environment and the immediate situational context What we call character thus denotes an autonomous configuration of psychological elements which remains stable despite the changing external circumstances **Lucifer**,1892 Safer Care Human Factors for Healthcare Patrick Mitchell,2013 **The Saturday Review of Politics, Literature, Science, Art, and Finance**,1889 *Digest of Neurology and Psychiatry* Institute of Living,1971 The Structure and Dynamics of the Psyche C. G. Jung,2014-12-18 The Structure and Dynamics of the Psyche first appeared in the Collected Works in 1960 In this new edition bibliographical citations and entries have been revised in the light of subsequent publications in the Collected Works and essential corrections have been made The book traces an important line of development in Jung's thought from 1912 onwards The earliest of the papers elaborates Freud's concept of sexual libido into that of psychic energy In those that follow we see how Jung discarding one by one the traditional philosophical hypotheses gradually arrived at a concept which is even more controversial than psychic energy was in its day DDL namely psychic reality The book contains the first mention of the archetype in Jung's writings as well as his later views on its nature There is also a valuable account of the therapeutic uses of active imagination first described in an essay written in 1916 Thinking on Thresholds Subha Mukherji,2011 Through a combination of case studies and theoretical investigations the essays in this book address the imaginative power of the threshold as a productive space in literature and art Transpersonal Psychology in Psychoanalytic Perspective Michael Washburn,1994-07-01 In this book Michael Washburn provides a psychoanalytic foundation for transpersonal psychology Using psychoanalytic theory Washburn explains how ego development both prepares for and creates obstacles to ego transcendence Spiritual development he proposes can be properly understood only in terms of the ego development that precedes it For example many difficulties encountered in spiritual development can be traced to repressive underpinnings of ego development and significant gender differences in spiritual development can be traced to corresponding gender differences that emerge during ego development Washburn draws on a wide range of psychoanalytic perspectives in discussing ego development and uses both Eastern and Western sources in discussing spiritual development In rethinking transpersonal psychology in psychoanalytic terms he explains how essential elements of Jungian thought can be grounded in psychoanalytic theory Self-Pollution Dr. Taha,2014-12-02 Abuse others No Fears powerful ego Ego Mind
