Flight into Egypt: Black Artists and Ancient Egypt 1876-Now Akili Tommasino, 2024-11-11 From the late nineteenth century onward Black Americans looked to ancient Egypt as evidence of a preeminent ancient culture from the African continent Flight into Egypt traces ancient Egypt s influence on artists from Edmonia Lewis s sculpture The Death of Cleopatra 1876 to the efflorescence of Afrocentric visual art during the Harlem Renaissance the Black Arts Movement of the 1960s and 1970s and artistic tendencies of the ensuing

decades This volume explores how Black artists writers and musicians and modern and contemporary Egyptian artists have employed ancient Egyptian imagery to craft a unifying identity Authors bring to light the overlooked contributions of Black scholars to the study of ancient Egypt while statements by contemporary Black and Egyptian artists illuminate ancient Egypt's continued hold on the creative imagination Theory of Philosophical Consciencism Dompere, Kofi Kissi, 2017-09-24 In the Theory of Philosophical Consciencism Professor Dompere establishes how Nkrumah used the theory of categorical conversion housing the necessary conditions of transformation to design strategies for creating the sufficient conditions for socio political transformations The theory of Philosophical Consciencism is about the institutionally destruction creation process for socio political transformation The theory shows the scientific contributions of Nkrumah's thinking to the solution of the transformation problem in science and its application to social systemicity where Nkrumah's analytical weapons were drawn from African conceptual system The theory is developed as logico mathematical foundations that guide the internal management of the command control decision choice systems for creative destruction of socio political varieties in transformations through the development of qualitative mathematics making possible the construct of qualitative equations of motion for connecting varieties in qualitative transfers The qualitative equations of motion through the Philosophical Consciencism constitute the sufficient conditions for transformations The theory links rationality intentionality experiential information structure defective deceptive information structures in the control dynamic games of power and dominance by the duals and poles under the principle of opposites with relational continua and unity relative to decision choice systems that induce negation negation transformations where paths are established by the history of success failure outcomes in the socially control dynamic zero sum games between the duals in any duality and between the poles of any actual potential polarity The main premise of the monograph is that there exists a set of sufficient conditions in support of the necessary conditions for internal transformation of socio natural varieties The theory is useful in understanding developmental processes and multi polar power zero sum games for global dominance The necessary conditions constitute the natural necessity that constrains cognitive freedom The sufficient conditions constitute cognitive freedom that must overcome the necessity in socio natural systems dynamics Had this conceptual system been familiar to African leaders the African transformation from colonialism to complete emancipation rather than neocolonialism would have been increasingly successful This holds for those seeking triumph over injustices oppression imperialism and social change in all systems

Moorish Circle 7 Keith Moore 32, 2005-05-04 This book is based on the theory that the black Muslim movement was created from the knowledge of the Masonic order In the early decades of the 20th century noble drew ali established a political and religious organization known today as the Moorish Science Temple of America It was this organization that exposed black to something other than the normal Christian influences of that day Ali a high degree freemason incorporated various Masonic teachings from an auxiliary group Known as the AEAONMS ancient Egyptian Arabic order of noble of the mystic shrine A pseudo Islamic Arabic oriental organization that served as a wake up call to a lost knowledge A knowledge that was taken away from Africans during the slave trades The theory behind this book is that the majority of the slaves that were taken from the west coast of Africa were practicing Muslims and these Muslims were forced to convert to Christianity under the strong oppression of slavery At one time Afro Americans were the biggest minority in the American society About 90% of the todays population of blacks are descendants of slaves that were brought to America for working on plantations since the 16th century At the beginning of the 19th century most of the so called Negroes lived in the plantation areas of the Southern States After the Civil War and the abolition of slavery it wasnt until the early 1920s and 30s that blacks were beginning to experiment with other faiths Of all the faiths Islam became the fastest growing

religion and the most popular This book by far is in no way a research into black history instead it covers a more deeper aspect of history in which I call the history behind the history It explores the true Asiatic origins of the ancient religions of Hinduism Buddhism well as the Islamic faith Finally It explores the Masonic symbolisms of alis Moorish science dogma digging deeper into the esoteric side of his Aquarian Masonic teaching explaining their origins and discovering an age old wisdom that had been kept hidden from the human eye One would think that Africans in the Americas would have rejected the religious tradition of their European oppressors taking into consideration that African religions are far older they possess more sources of knowledge spiritual salvation Yet there are those who have turned away from traditional Christian dominated environments in order to find a greater understanding of themselves and the world in which they live One alternative has been to seek knowledge in the various religious groups that arose in the 20th century The Science of Supernatural Thinking Jareb Nott,2024-06-04 Do Your Thoughts Invite the Demonic or the Divine Is your mind clouded with thoughts of depression or anxiety even anger or bitterness Have you tried to rise up and renew your mind only to be weighed down by exhaustion or laid low by hopelessness The truth is that what you think controls who has access to your mind Even seemingly harmless thoughts can open gates in your mind that allow the enemy to secretly infiltrate build strongholds and turn your mind to wage war against the very One that you long to serve But what s been opened can always be closed Having helped multitudes experience spiritual freedom from demonic forces Jareb Nott shows how you can seal off the powers of darkness from your mind and tear down their strongholds empowering you to think thoughts that host the peace presence and power of God Through scientific and biblical research he offers a step by step process to help you transform your mind into a supernaturally impenetrable fortress of hope and joy In this revolutionary yet practical book Jareb not only exposes the enemy s insidious strategies for infecting your mind but he also reveals how to Silence the enemy s tormenting thoughts Think the kind of thoughts that host God s presence Wield the power of biblical meditation prayer and intercession to renew your mind Build supernatural strongholds in your mind that open the gates of Heaven Protect your life and mind from the powers of darkness And more A deeper dimension of fellowship and encounter with the Holy Spirit awaits you Stop empowering the darkness to dominate your thoughts It s time to dominate the darkness and flood your mind with the transforming light of God s presence **Polyrhythmicity** Kofi Kissi Dompere,2006-03-31 The modern works on African philosophy have not been integrated and fully connected to Africa s antiquity in order to provide a foundational unity for further intellectual refinement The philosophical dimensions of humanism Nkrumah s concept of categorial conversion African concepts of duality polarity unity continual creation and democratic ideals must be shown their African centered origins In considering African philosophy there arise conceptual and logical gaps that require the development of fundamental cognitive unity from the available data with judicious interpretation and restructuring in order to define the parameters of African philosophical unity that will allow these gaps to be closed for intellectual continuity This monograph is

devoted to the establishment of the foundations for the development of Africa's intellectual continuity and cognitive unity from antiquity to the present. Its main premise is that there is African philosophy with its own method of reasoning, analysis and synthesis. The monograph initiates self-contained philosophical foundations for African intellectual unity that is required to support African cultural unity, African personality, African essence and humanism needed for the creation of Greater Africa that is implied by African Union. These philosophical foundations, it is argued, formed the thinking system for Africa's social construct, law, economics, politics and governance of empires, kingdoms and social units that have come to pass. These philosophical foundations constitute the thinking system that must guide current and future Africa's socioeconomic dynamics. The monograph discusses also Africa's contributions to the global intellectual heritage by showing the relationships among foundations of African philosophical tradition and other philosophical systems that lead to *rediviva Africana*. It presents the principles of cognitive unity and continuity on the held position that without clearly developed Africa's philosophical foundations from its antiquity, providing intellectual unity and cognitive continuity, complete emancipation of Africa will be a mere mimicking of intellectual faults of other nations and philosophical systems. The research by African scholars and others on specific philosophical thoughts from different areas of Africa is useful material that must be integrated into cognitive unity by accepting those that fit and rejecting those that do not fit by a defined logical process. Mindful of this, a case is thus made in this monograph for African cognitive unity and supporting reasoning methods. The system of ideas and perceptive interpretations of relevant data is here referred to as *Africentricity* and its philosophical foundations that project thought as *polyrhythmicity* while the study of logic of reasoning about methodological and epistemic problems of *polyrhythmicity* and *Africentricity* is referred to as *polyrhythmics*. On practical level, these philosophical foundations are shown to support the conceptual basis of *Nguzo Saba*, the Seven Principles of *Kwanzaa*. The monograph would be of interest to philosophers, in general, professionals, researchers and students engaged in African philosophy, African studies, Black studies, socio-political philosophy and those interested in knowing the thinking system on the basis of which African essence arises and African social formations were constructed and governed from antiquity.

Black Reverend James M. Lamb CADCCS, 2013-11-08

Rev James Lamb has provided the Afro-centric Spiritual community a tremendous literary, historical, theological treatise. The psycho-social issues facing the African American community today have their roots in the legacy of white supremacy which has dominated Black life in all areas of human activity including economics, education, entertainment, labor, law, politics, religion, sex and war. **BLACK** uncovers the historical legacy of this dehumanization process and provides the solution for the African American community to reclaim its African soul by restoring its memory of the Ancient Egyptian genius to address contemporary struggles of Black life in all areas of people activity including economics, education, entertainment, labor, law, politics, religion, sex and war.

Rev Richard D Bullard ThM Senior Pastor of Grace Evangelical Baptist Church Pine Bluff Arkansas. This book parallels the practice of religion and the history of African and African American culture. Rev Lamb takes
