Eighteenth Century Encounters Essays On Literature And Society In The Age Of Walpole:

The Eighteenth-century British Novel and Its Background Henry George Hahn, Carl Behm, 1985 To find more information about Rowman and Littlefield titles please visit www.rowmanlittlefield.com *Friendship and Allegiance in Eighteenth-Century Literature* Emrys Jones, 2013-06-13 *Friendship and Allegiance* explores the concept of friendship as it was defined, contested and distorted by writers of the early eighteenth century. Setting well known canonical texts *The Beggar's Opera*, *Gulliver's Travels* alongside lesser known works, it portrays a literary world renegotiating the meaning of public and private virtue. **The English Novel, 1700-1740** Robert Letellier, 2003-02-28 The English novel written between 1700 and 1740 remains a comparatively neglected area. In addition to Daniel Defoe whose *Robinson Crusoe* and *Moll Flanders* are landmarks in the history of English fiction, many other authors were at work. These included such women as Penelope Aubin, Jane Barker, Mary Davys and Eliza Haywood who made a considerable contribution to widening the range of emotional responses in fiction. These authors and many others continued writing in the genres inherited from the previous century such as criminal biographies, the Utopian novel, the science-fictional voyage and the epistolary novel. This annotated bibliography includes entries for these works and for critical materials pertinent to them. The volume first seeks to establish the existing studies of the era along with anthologies. It then provides entries for a wide ranging selection of works which cover fictional, theoretical, historical, political and cultural topics to provide a comprehensive background to the unfolding and understanding of prose fiction in the early 18th century. This is followed by an alphabetical listing of novels, their editions and any critical material available on each. The next section provides a chronological record of significant and enduring works of fiction composed or translated in this period. The volume concludes with extensive indexes. *The Cambridge Companion to Jonathan Swift* Christopher Fox, 2003-09-11 *The Cambridge Companion to Jonathan Swift* is a specially commissioned collection of essays arranged thematically across a range of topics. This 2003 volume will deepen and extend the enjoyment and understanding of Jonathan Swift for students and scholars. The thirteen essays explore crucial dimensions of Swift's life and works. As well as ensuring a broad coverage of Swift's writing including early and later works as well as the better known and the lesser known, the Companion also offers a way into current critical and theoretical issues surrounding the author. Special emphasis is placed on Swift's vexed relationship with the land of his birth, Ireland, and on his place as a political writer in a highly politicised age. The Companion offers a lucid introduction to these and other issues and raises questions about Swift and his world. The volume features a detailed chronology and a guide to further reading. Defoe's Writings and Manliness Stephen H. Gregg, 2016-05-13 *Defoe's Writings and Manliness* is a timely intervention in Defoe studies and in the study of masculinity in eighteenth-century literature more generally. Arguing that Defoe's writings insistently returned to the issues of manliness and its contrary effeminacy, this book reveals how he drew upon a complex and diverse range of discourses through which masculinity was discussed in the period. It is for this reason that this book crosses over and moves

between modern paradigms for the analysis of eighteenth century masculinity to assess Defoe's men. A combination of Defoe's clarity of vision, a spirit of contrariness and a streak of moral didacticism resulted in an idiosyncratic and restless testing of the forces surrounding his period's ideas of manliness. Defoe's men are men but they are never unproblematically so; they display a contrariness which indicates that a failure of manliness is never very far away.

Writing and the Rise of Finance Colin Nicholson, 1994-07-14. The early eighteenth century saw a far-reaching financial revolution in England whose impact on the literature of the period has hitherto been relatively unexplored. In this original study, Colin Nicholson reads familiar texts such as *Gulliver's Travels*, *The Beggar's Opera* and *The Dunciad* as capital satires responding to the social and political effects of the installation of capitalist financial institutions in London. The founding of the Bank of England and the inauguration of the National Debt permanently altered the political economy of England; the South Sea Bubble disaster of 1721 educated a political generation into the money markets. While they invested in stocks and shares, Swift, Pope and Gay conducted a campaign against the civic effects of these new financial institutions. Conflict between these writers inherited discourse of civic humanism and the transformations being undergone by their own society is shown to have had a profound effect on a number of key literary texts.

Eighteenth Century Encounters Pat Rogers, 1985. Studie over de Engelse literatuur in de 18e eeuw tegen de achtergrond van de tijd. *Flesh in the Age of Reason* Roy Porter, 2004. Starting with the grim Britain of the Civil War era with its punishing sense of the body as a corrupt vessel for the soul, Roy Porter charts how through figures as diverse as Locke, Swift, Johnson and Gibbon, ideas about medicine, politics and religion fundamentally changed notions of self. He shows how the Enlightenment with its explosion of rational thinking and scientific invention of the eighteenth and nineteenth centuries provided a lens through which we can best see the profound shift from the theocentric, otherworldly Dark Ages to the modern, earthly, body-centered world we live in today. As man made in God's image gave way to the Enlightenment's notion of the Self-made man, the body moved center stage. Porter writes brilliantly on the ways in which men and women flaunted, decorated, tanned and dieted themselves, activities that we find familiar but that a Puritan divine would have considered satanic. And he explores how at the end of the century the human soul took on a new significance in the works of Godwin, Blake and Byron.

This book reconstructs the history of print and publishing in colonial Bengal by tracing the unexpected journey of Bharat Chandra's *Bidyasundar*, the first book published by a Bengali entrepreneur. The introduction of printing technology by the British in Bengal expanded the scope of publication and consumption of books significantly. This book looks at the developments and the parallel publishing initiatives of that time.
