**Aus Österreich Seit Grillparzer** Camill Hoffmann,1912 **Monatschrift Fur Hohere Schulen** ,1922 **Reluctant Meister** Stephen Green,2014-11-15 The Euro crisis has served as a stark reminder of the fundamental importance of Germany to the larger European project But the image of Germany as the dominant power in Europe is at odds with much of its recent history Reluctant Meister is a wide ranging study of Germany from the Holy Roman Empire through the Second and Third Reichs and it asks not only how such a mature and developed culture could have descended into the barbarism of Nazism but how it then rebuilt itself within a generation to become an economic powerhouse Perhaps most important Stephen Green examines to what extent Germany will come to dominate its relationship with its neighbors in the European Union and what that will mean

**Jewish Life in Nazi Germany** Francis R. Nicosia,David Scrase,2010 German Jews faced harsh dilemmas in their responses to Nazi persecution partly a result of Nazi cruelty and brutality but also a result of an understanding of their history and rightful place in Germany This volume addresses the impact of the anti Jewish policies of Hitler's regime on Jewish family life Jewish women and the existence of Jewish organizations and institutions and considers some of the Jewish responses to Nazi anti-Semitism and persecution This volume offers scholars students and interested readers a highly accessible but focused introduction to Jewish life under National Socialism the often painful dilemmas that it produced and the varied Jewish responses to those dilemmas

Divided Memory Jeffrey Herf,2013-11-01 A valuable study of how political narratives about the nation's Nazi past differed in East and West Germany The Wall Street Journal A significant new look at the legacy of the Nazi regime this book exposes the workings of past beliefs and political interests on how and how differently the two Germanys recalled the crimes of Nazism from the anti-Nazi emigration of the 1930s through the establishment of a day of remembrance for the victims of National Socialism in 1996 Why Jeffrey Herf asks would German politicians raise the specter of the Holocaust at all in view of the considerable support its authors and their agenda had found in Nazi Germany Why did the public memory of Nazi anti-Jewish persecution and the Holocaust emerge if selectively in West Germany while it was repressed and marginalized in anti

fascist East Germany And how do the politics of left and right come into play in this divided memory The answers reveal the surprising relationship between how the crimes of Nazism were publicly recalled and how East and West Germany separately evolved as a Communist dictatorship and a liberal democracy This book for the first time points to the impact of the Cold War confrontation in both West and East Germany on the public memory of anti Jewish persecution and the Holocaust Konrad Adenauer Theodor Heuss Kurt Schumacher Willy Brandt Richard von Weizsäcker and Helmut Kohl in the West and Walter Ulbricht Wilhelm Pieck Otto Grotewohl Paul Merker and Erich Honecker in the East are among the many national figures whose private and public papers and statements Herf examines His work makes the German memory of Nazism suppressed on one hand and selective on the other from Nuremberg to Bitburg comprehensible within the historical context of the ideologies and experiences of pre 1945 German and European history as well as within the international context of shifting alliances from World War II to the Cold War Drawing on West German and East German archives this book is a significant contribution to the history of belief that shaped public memory of Germany s recent past Groundbreaking admirably subjects both East and West to equal scrutiny Forward A masterful book German History     Cinema and Social Change in Germany and Austria Gabriele Mueller,James M. Skidmore,2012-09-01 During the last decade contemporary German and Austrian cinema has grappled with new social and economic realities The cinema of consensus a term coined to describe the popular and commercially oriented filmmaking of the 1990s has given way to a more heterogeneous and critical cinema culture Making the greatest artistic impact since the 1970s contemporary cinema is responding to questions of globalization and the effects of societal and economic change on the individual This book explores this trend by investigating different thematic and aesthetic strategies and alternative methods of film production and distribution Functioning both as a product and as an agent of globalizing processes this new cinema mediates and influences important political and social debates The contributors illuminate these processes through their analyses of cinema s intervention in discourses on such concepts as national cinema the effects of globalization on social mobility and the emergence of a global culture The essays illustrate the variety and inventiveness of contemporary Austrian and German filmmaking and highlight the complicated interdependencies between global developments and local specificities They confirm a broader trend toward a more complex critical and formally diverse cinematic scene This book offers insights into the strategies employed by German and Austrian filmmakers to position themselves between the commercial pressures of the film industry and the desire to mediate or even attempt to affect social change It will be of interest to scholars in film studies cultural studies and European studies     **Statistische Monatschrift. Herausgegeben Vom Bureau Der K. K. Statistischen Central-Commission, Etc. Jahrg. 1-21** AUSTRIA.

Oesterreichisches Statistisches Zentralamt,1906     Constructing a German Diaspora Stefan Manz,2014-06-05 This book takes on a global perspective to unravel the complex relationship between Imperial Germany and its diaspora Around 1900 German speakers living abroad were tied into global power political aspirations They were represented as outposts of a

Greater German Empire whose ethnic links had to be preserved for their own and the fatherland's benefits Did these ideas fall on fertile ground abroad In the light of extreme social political and religious heterogeneity diaspora construction did not redeem the all encompassing fantasies of its engineers But it certainly was at work as nationalism went global in many German ethnic communities Three thematic areas are taken as examples to illustrate the emergence of globally operating organizations and communication flows Politics and the navy issue Protestantism and German schools abroad as bulwarks of language preservation The public negotiation of these issues is explored for localities as diverse as Shanghai Cape Town Blumenau in Brazil Melbourne Glasgow the Upper Midwest in the United States and the Volga Basin in Russia The mobilisation of ethno national diasporas is also a feature of modern day globalization The theoretical ramifications analysed in the book are as poignant today as they were for the nineteenth century     Nationalism on the Internet Christian Fuchs,2019-09-17 In this timely book critical theorist Christian Fuchs asks What is nationalism and what is the role of social media in the communication of nationalist ideology Advancing an applied Marxist theory of nationalism Fuchs explores nationalist discourse in the world of contemporary digital capitalism that is shaped by social media big data fake news targeted advertising bots algorithmic politics and a high speed online attention economy Through two case studies of the German and Austrian 2017 federal elections the book goes on to develop a critical theory of nationalism that is grounded in the works of Karl Marx Rosa Luxemburg and Eric J Hobsbawm Advanced students and scholars of Marxism nationalism media and politics won't want to miss Fuchs latest in depth study of social media and politics that uncovers the causes structures and consequences of nationalism in the age of social media and fake news     *Quarterly Review* ,1870
