P. Van Anglen, 2017-09-04 Examines the role that cinema played in imagining Hong Kong and Taiwan's place in the world **Littell's Living Age** Eliakim Littell, Robert S. Littell, 1881 The Image of the Middle Ages in Romantic and Victorian Literature Kevin L. Morris, 2019-06-26 Originally published in 1984 The Image of the Middle Ages in Romantic and Victorian Literature looks at the impact of medievalism in the 18th and 19th centuries and the importance of post Enlightenment literary religious medievalism The book suggests that religious medievalism was not a superficial cultural phenomenon and that the romantic

spirit with which it was chronologically connected was intimately associated with the metaphysical The book suggests that this belief gave birth to the metaphysical yearning and cultural expression of the eighteenth and nineteenth century The book seeks to clarify the post Enlightenment relationship between aesthetic culture and aesthetic religion romanticism medievalism and religious trends — Late Roman Towns in Britain Adam Rogers,2011-03-28 In this book Adam Rogers examines the late Roman phases of towns in Britain Critically analysing the archaeological notion of decline he focuses on public buildings which played an important role administrative and symbolic within urban complexes Arguing against the interpretation that many of these monumental civic buildings were in decline or abandoned in the later Roman period he demonstrates that they remained purposeful spaces and important centres of urban life Through a detailed assessment of the archaeology of late Roman towns this book argues that the archaeological framework of decline does not permit an adequate and comprehensive understanding of the towns during this period Moving beyond the idea of decline this book emphasises a longer term perspective for understanding the importance of towns in the later Roman period — Littell's Living Age ,1852
