**Houses & Gardens by Sir Edwin Lutyens, R.A.** Sir Lawrence Weaver, 1913 The Country House Revealed Dan Cruickshank, 2012-07-31 Spanning the architectural history of the country house from the disarming Elizabethan charm of South Wraxall the classical rigour of Kinross in Scotland the majesty and ingenuity of Hawksmoor's Easton Neston the Palladian sweep of Wentworth Woodhouse with over 300 rooms and frontage of 600 feet the imperial exuberance of Clondeboy through to the ebullient vitality of Lutyens Marshcourt the stories of these houses tell the story of our nation All are the buildings of the greatest architectural interest each with a fascinating human story to tell and all remain private homes that are closed to the public But their owners have opened their doors and allowed Dan Cruickshank to roam the corridors and rummage in the cellars as he teases out the story of each house who built them the generations who lived in them and the families who lost them Along the way he has uncovered tales of excess and profligacy tragedy comedy power and ambition And as these intriguing narratives take shape Dan shows how the story of each house is inseparable from the social and economic history of Britain Each one is built as a wave of economic development crests or crumbles Each one's architecture and design is thus expressive of the aims strengths and frailties of those who built them Together they plot the psychological economic and social route map of our country's ruling class in a rich new telling of our island story **The Architecture of Sir Edwin Lutyens** A.S.G. Butler, 2023-04-28 The quality of the reprint is nearly perfect with a good selection of papers for the three sequential parts of the book the texts the drawings and the black and white photographs Text and drawings are on matte heavyweight pages while the photos are on glossy paper The inks make everything read well in particular the drawing reproductions are exquisite Archidose Edwin Lutyens one of the most famous architectural names of the 20th century died in 1944 As a memorial three large volumes of his drawings and photographs were commissioned from the thousands found in his office and were published by Country Life All three volumes will be republished in 2023 The first volume contains his own plans elevations and copious details of the finest examples of his domestic buildings on which his huge reputation principally rests The book embodies the quintessence of the man and his work the variety of style and design seen in the houses brings together in one volume the many strands of Lutyens's fertile mind Two further volumes will

include his corporate and public buildings The genius of Lutyens is now universally recognized In the work featured in this book we can now see not just the professionalism of a great architect but also the loving care with which he set down the most minute detail with the result that this is one of the few books in existence that can be used to provide working drawings

Houses and Gardens by Sir Edwin Lutyens, R.A. Lutyens, 1925      **How the Country House Became English** Stephanie Barczewski, 2023-07-22 The story of how the country house historically a site of violent disruption came to symbolize English stability during the eighteenth century Country houses are quintessentially English not only architecturally but also in that they embody national values of continuity and insularity The English country house however has more often been the site of violent disruption than continuous peace So how is it that the country how came to represent an uncomplicated nostalgic vision of English history This book explores the evolution of the country house beginning with the Reformation and Civil War and shows how the political events of the eighteenth century which culminated in the reaction against the French Revolution led to country houses being recast as symbols of England's political stability      *Houses and Gardens by Sir Edwin Lutyens* Sir Edwin Landseer Lutyens, Lawrence Weaver, 1913      *Sir Edwin Lutyens* Clive Aslet, 2024-07-02 Sir Edwin Lutyens 1869-1944 was one of the great architects of the twentieth century His Edwardian country houses surrounded by rhapsodic gardens beguiled clients with their romance and wit After 1918 the war memorials that he created symbolized a grieving nation's sense of loss In the new capital of the British Raj New Delhi the Viceroy's House or Rashtrapati Bhavan had a footprint bigger than Versailles His unfinished Liverpool Cathedral would have rivaled St Peter's in Rome Intensely shy Lutyens hid his personality behind puns and jokes and yet he could be called part mystic a reference to an inner profundity Rich in stories this entertaining and stylish short biography is a major new study incorporating fresh research which shows this most charismatic of architects in a new light      *Edwin Lutyens* Sir Edwin Landseer Lutyens, 1979 Photographs of selected houses      The Architecture of Sir Edwin Lutyens A. S. G. Butler, 1950      *The Country Houses of John F. Staub* Stephen Fox, 2007 This ambitious study of Staub's work by architectural historian Stephen Fox goes beyond a description of Staub's houses Fox analyzes the roles of space structure and decoration in creating defining and maintaining social class structures and expectations and shows how Staub was able to incorporate these elements and understandings into the elegant buildings he designed for his clients In the process he contributes greatly to a fuller understanding of Houston's emergence as a premier American city BOOK JACKET      Country houses and the British Empire, 1700-1930 Stephanie Barczewski, 2017-02-01 Country houses and the British empire 1700-1930 assesses the economic and cultural links between country houses and the Empire between the eighteenth and twentieth centuries Using sources from over fifty British and Irish archives it enables readers to better understand the impact of the empire upon the British metropolis by showing both the geographical variations and its different cultural manifestations Barczewski offers a rare scholarly analysis of the history of country houses that goes beyond an architectural or biographical study and recognises their importance as the physical

embodiments of imperial wealth and reflectors of imperial cultural influences In so doing she restores them to their true place of centrality in British culture over the last three centuries and provides fresh insights into the role of the Empire in the British metropolis
