

## The Effect of Parents Digital Literacy on Sharenting Practices and Children's Privacy on Instagram

Rapikah Harnum<sup>1</sup>, Janette Maria Pinariya<sup>2</sup>

<sup>1,2</sup>Institut Komunikasi dan Bisnis LSPR, Jakarta, Indonesia

### ABSTRACT

The development of technology has given rise to various social media platforms, such as Instagram. Instagram offers numerous features to its users for content creation, such as Instagram stories, feeds, Instagram reels, and live Instagram. The use of social media is closely related to digital literacy skills. Social media has a significant impact on society, including changes in parenting patterns, known as "sharenting." Sharenting refers to the activity of parents sharing photos or videos of their children's growth and development on social media, which often makes it difficult to restrict their lives on social media and their children's privacy. This study aims to investigate the influence of parents' digital literacy on their sharing behavior and their children's privacy. The research utilizes a quantitative method by conducting a survey with 400 respondents. The findings of the study reveal that digital literacy has a significant influence on sharenting, with a coefficient of 0.799, a t-statistic of 16.785, and a p-value of 0.000. This indicates that digital literacy has a proven positive and significant impact on sharenting. Furthermore, digital literacy also has a positive and significant influence on children's privacy, as the coefficient of digital literacy's influence on children's privacy is 0.774, with a t-statistic of 16.059 and a p-value of 0.000.

### INTRODUCTION

The development of technology and information has created social media. Indonesian people are active in using social media. According to the results of research by Hootsuite and We Are Social, social media users in Indonesia in early January 2023 amounted to 167 million users, equivalent to 60.4% of the total population of Indonesia (Kemp, 2023a). Currently, various social media platforms have various types of user characteristics. One example is Instagram. Instagram is a social media platform that aims to share photos and videos and can apply digital filters, hashtags, and other digital interactions (Kurniari et al., 2021). Currently, Instagram offers many features for its users to create content, such as Instagram stories, feeds, reels, and live Instagram. Based on the results of the We Are Social survey, Instagram is in second place as the social media platform most used by Indonesians, namely 86.5%, and globally, Indonesians are the fourth most active Instagram users, amounting to 106 million active users (Kemp, 2023b).
