Effecting Organizational Renewal in Schools, 1974 **Resources in Education**, 1999-10 *Effecting Organizational Renewal in Schools*, 1974 Critical Perspectives on the Organization and Improvement of Schooling
Kenneth A. Sirotnik, Jeannie Oakes, 2012-12-06 Major paradigm shifts replacing one world view with another regarding what constitutes appropriate knowledge do not happen over night Centuries usually intervene in the process Even minor shifts admitting alternative world views into the domain of legitimate knowledge producing theory and practice require decades of controversy especially it seems to us in the field of education It has only been in the last 20 years or so that the educational research community has begun to accept the scientific credibility of the qualitative approaches to inquiry such as participant observation case study ethnography and the like In fact these methods with their long and distinguished philosophical traditions in phenomenology have really only come into their own within the last decade The critical perspective on generating and evaluating knowledge and practice what this book is mostly about is in many ways a radical departure from both the more traditional quantitative and qualitative perspectives The traditional approaches in fact are far more similar to one another than they are to the critical perspective This is the case in our view for one crucial reason Both the more quantitative empirical analytic and qualitative interpretive traditions share a fundamental epistemological commitment they both eschew ideology and human interests as explicit components in their paradigms of inquiry Ideology and human interests however are the bread and butter of a critical approach to inquiry **Organizational Renewal in a School District** Philip Julian Runkel, 1980 **Effecting Organizational Renewal in Schools** Richard C. Williams, 1974 **The Nongraded Elementary School** John I. Goodlad, Robert Henry Anderson, 1987-06-15 Since its first publication in 1959 The Nongraded Elementary School has become a classic in school reform literature This reissue includes a retrospective introduction on what happened to nongraded alternatives in the aftermath of Sputnik educational reforms what is occurring amid the current resurgence of school reform and what the prospects are for the future The value of this book lies in its still contemporary theoretical underpinnings for the nongraded school The book's treatment of the issue of promotion versus non promotion is of particular interest in the current debate on school reform Alternative Education Options United States. Office of Juvenile Justice and Delinquency Prevention, 1979 *A Description of the Perceptions of the Principals and Climates of Zambia's 'Effective' Schools* Dr. Simeoni W.M. Kunkhuli, 2014-03-05 The study was in response to the pressing quest for educational qualitative improvement in Zambia An alternative qualitative method to school improvement is suggested The study describes and examines the administrative and leadership characteristics and climates of five Zambian secondary schools designated and nominated by the Ministry of General Education and Culture as successful schools Interviews and questionnaires administered to headteachers and teachers were used for data collection Content and item analysis in the interviews and questionnaire responses were used The findings are not consistent in all the five schools investigated with the

literature on effective schools No school covered was perceived favourably in all the five dimensions tested Appropriate recommendations are made for policy makers practitioners and stake holders **Romances with Schools** John I.

Goodlad, 2016-07-18 John I Goodlad has been an unflagging voice for humanistic ideals in education for more than six decades and has helped reframe the modern discourse on the role and function of schools For Goodlad the goal of public education is to help children become free and full participants in a democratic society by instilling them with a love of learning and a sense of civic responsibility goals that are incompatible with our present system of schooling that teaches to standardized tests In *Romances with Schools* John Goodlad steps out from behind the public persona of distinguished scholar and advocate for public schooling to offer a moving personal account of a life devoted to educating the young He deftly interweaves fascinating personal details with reflections on many of the larger issues in education that he has explored throughout his career John's early encounters with formal schooling began just before the Great Depression in Canada with the humble North Star School From there we are taken through sixty plus years in education starting with John's first teaching job as the sole instructor of a one room schoolhouse through his years as an education activist dean of the UCLA Graduate School of Education and national voice for educational renewal Along the way he treats us to vivid characterizations of the men women and above all children who shaped him as a person and inspired his thinking on education *Romances with Schools* is both a poignant memoir and a persuasive argument for the need to renew public education to fit the demands of a free society Stephen Goodlad John's son has written a moving Prologue to the book that provides behind the scenes insight into John's life An Epilogue by Roger Soder a long time colleague places John's work of school renewal in the context of political change **IJER Vol 7-N2** International Journal of Educational Reform, 1998-04-01

The mission of the International Journal of Educational Reform IJER is to keep readers up to date with worldwide developments in education reform by providing scholarly information and practical analysis from recognized international authorities As the only peer reviewed scholarly publication that combines authors voices without regard for the political affiliations perspectives or research methodologies IJER provides readers with a balanced view of all sides of the political and educational mainstream To this end IJER includes but is not limited to inquiry based and opinion pieces on developments in such areas as policy administration curriculum instruction law and research IJER should thus be of interest to professional educators with decision making roles and policymakers at all levels turn since it provides a broad based conversation between and among policymakers practitioners and academicians about reform goals objectives and methods for success throughout the world Readers can call on IJER to learn from an international group of reform implementers by discovering what they can do that has actually worked IJER can also help readers to understand the pitfalls of current reforms in order to avoid making similar mistakes Finally it is the mission of IJER to help readers to learn about key issues in school reform from movers and shakers who help to study and shape the power base directing educational reform in the U S and the world
