Teamwork in Palliative Care Peter Speck, 2006-09-14 Teamwork is a complex but essential component of palliative care. The needs of people diagnosed with life threatening disease will vary greatly over time and it is rarely possible for just one professional to be able to provide adequate care. In order to ensure an holistic approach the whole multi disciplinary team must be involved. Inevitable questions arise from such an approach and this book seeks to address these. How does a team come into being? What different formats are there? How might the patient contribute to the effectiveness of their care and the way in which the team operates? What are the difficulties and frustrations encountered in developing and maintaining such teams? What models of working and styles of leadership have developed? How are power and authority handled within the team setting? The importance of team building training support attention to group process and stress management to protect the mental health of the team are explored. The ethical issues inherent in palliative care such as consent autonomy confidentiality decision making within teams and the legal implications of such are also discussed. The book concludes with one important question: do we know if teams are the most effective way of providing care? This book addresses key issues surrounding the role of the team in palliative care and is an essential guide to reappraising the importance of collaborative teamwork and enhancing understanding of existing team structures.

Safety at the Sharp End Rhona Flin, Paul O'Connor, 2017-05-15

Many 21st century operations are characterised by teams of workers dealing with significant risks and complex technology in competitive commercially driven environments. Informed managers in such sectors have realised the necessity of understanding the human dimension to their operations if they hope to improve production and safety performance. While organisational safety culture is a key determinant of workplace safety, it is also essential to focus on the non-technical skills of the system operators based at the sharp end of the organisation. These skills are the cognitive and social skills required for efficient and safe operations, often termed Crew Resource Management (CRM) skills. In industries such as civil aviation, it has long been appreciated that the majority of accidents could have been prevented if better non-technical skills had been demonstrated by personnel operating and maintaining the system. As a result, the aviation industry has pioneered the development of CRM training. Many other organisations are now introducing non-technical skills training, most notably within the healthcare sector.

Safety at the Sharp End is a general guide to the theory and practice of non-technical skills for safety. It covers the identification, training and evaluation of non-technical skills and has been written for use by individuals who are studying or training these skills on CRM and other safety or human factors courses. The material is also suitable for undergraduate and post-experience students studying human factors or industrial safety programmes. The Oxford Handbook of Health Care Management Ewan Ferlie, Kathleen Montgomery, Anne Reff Pedersen, 2016. The Oxford Handbook of Healthcare Management offers a variety of current scholarly perspectives which explore important policy developments in health care management on an international basis.

Cultivating Creative Collaboration in Student Virtual Teams in Higher Education: Design and Climate Nemiro, Jill E., 2025-07-16. Over the last twenty years, creativity has been shown to be a critical element to contemporary organizations, especially as global competition, the need for innovation and technological advances have intensified. The rise of technological advances has produced an increase in remote work and virtual teams, especially within business settings, to deal with global competition and the rise of non-routine work. However, the COVID 19 pandemic generated an even greater increase in the utilization of remote work and virtual teams, not only in business but in higher education as well, and it appears that this trend is not going away. Thus, it is crucial to teach students how to work effectively in virtual teams to

prepare them for their future careers Training current employees in virtual teaming skills is also necessary as more professionals are transitioning into remote or hybrid work Cultivating Creative Collaboration in Student Virtual Teams in Higher Education Design and Climate provides an in depth understanding of how to design academic courses and business training experiences that can offer employees and college level students hands on experiences to develop virtual teamwork skills It aims to nurture students professional development by enhancing their creativity while working in virtual teams and to assist faculty in designing and implementing effective virtual team learning experiences in their courses Covering topics such as intentional team culture information sharing and setting communication norms this book is an excellent resource for educational leaders educators instructional designers technology instructors human resource HR managers business leaders professionals researchers scholars academicians and more

Connecting Healthcare Worker Well-Being, Patient Safety and Organisational Change Anthony Montgomery, Margot van der Doef, Efharis Panagopoulou, Michael P. Leiter, 2021-01-25 This volume delineates the ways in which key areas of healthcare well being patient safety and organisational change overlap with and contribute to unhealthy workplaces for healthcare professionals There is a growing realisation within healthcare that healthcare worker well being patient outcomes and organisational change are symbiotically linked Burnout and stress in healthcare workers and toxic organisational cultures can lead to a cycle of patient neglect medical errors sub optimal care and further stress This topical volume therefore outlines the ways in which worker well being patient outcomes and organisational change can be aligned to contribute to a healthy workplace and therefore better medical care The volume includes an array of authors from different disciplines including primary care clinical medicine psychology sociology management clinical governance health policy and health services research It succeeds in integrating different voices and reaches meaningful conclusions to address the challenges facing the healthcare workforce

Leadership Team Alignment Frédéric Godart, Jacques Neatby, 2023-08-22 Debunking much of the received wisdom regarding the sources of leadership team dysfunctionality Leadership Team Alignment presents a targeted strategy for building and managing a top executive team to gain competitive advantage Frédéric Godart and Jacques Neatby bring a wealth of practical experience and in depth knowledge with over eight hundred hours of direct observation with more than fifty leadership teams across the globe and thousands of hours working with executives With this book they offer solutions to manage conflict and create environments that effectively address misalignments in organizations Godart and Neatby take readers through the dual role of leadership team members the challenges of power games and the risks of siloed leaders They give clear advice on how to improve aspects of any leadership team based on its size and structure and the nature of the organization While organizational challenges may be inevitable this book provides leadership teams the tools to correctly diagnose leadership team misalignment with evidence based remedies and strategically oriented interventions to maximize organizational performance

Inspiring Leaders Ronald J. Burke, Cary Cooper, 2006-09-27 We exist in an era of great change and

widespread uncertainty in which course determining decisions lie with organizational leaders in this continually shifting climate we require their courage to take action Billions of dollars are spent annually on developing leaders yet despite these efforts most organizations report a shortage of leaders a leadership gap and estimates of leadership failures approach fifty per cent Authored by some of the best names in the subject area this book addresses this issue and provides readers with an innovative approach to learning leadership skills merging theory with practice to enable a better understanding of this complex and significant subject It emphasizes a balance of skills the critical role of feedback in learning and development and innovative thoughts on developing women leaders Taking an international perspective this outstanding text will be an invaluable resource for those studying leadership organizational behaviour and human resource management as well as those on specialist masters and MBA courses and will be especially useful for those undertaking the difficult task of leading within organizations
