Twelve Principles of Effective Parenting
David Celio, 2011. This book is a practical guide for parents who are navigating the storms and stresses of raising middle school children in turbulent times. In today's rapidly changing and demanding world, parents are challenged to identify and follow sound ethical and educational principles to produce happy and successful children. This book offers twelve principles which have been field tested by the author and formulated to serve as guidance for parents of middle school children. If parents can put these principles into practice, they will have secured the basic understanding of a psychologically healthy family life. Dr. Celio has provided this basic training to parents for decades, and they have contributed to happier family lives. He has not only applied these principles to his patients; he has also applied them to his own family with good results. Written by an experienced psychologist who has applied the principles he discusses in his own practice, it has wide applicability to raising children of all ages but is aimed at tweens, middle school children, who are increasingly being identified as an important group for intervention. It is clearly and succinctly written with examples in every chapter and a concluding chapter with a set of additional middle school crisis scenarios that parents might encounter. Applicable to charter schools as well as parochial and private schools wherever parents want the best for their children.

Three Virtues of Effective Parenting
Shirley Yuen, 2012-02-07. This Asian parenting book applies the wisdom of the Chinese sage Confucius to the challenges of modern parenting. Confucius believed that any change we wish to make in our lives must begin from within. Three Virtues of Effective Parenting calls on readers to develop the virtues to help them understand the changes they can make to become a better parent. Benevolence teaches us how to truly love our children, to guide them with discipline and respect, and to be generous with our time and loving care. Wisdom shows us how to take the right action for the right result, to understand our children's problems, and to acknowledge and learn from our mistakes. Courage helps us to preserve when things go wrong, let go of our children when necessary, and dare to make difficult choices. Readers will discover that the power of virtue is twofold. It will help them to become better people as well as influence and change the behavior of the people around them. Using the tools of Confucian philosophy, this book aims for real-life results in parent-child relationships. Readers will come to understand the three roles they play as parents: the good ruler, the inspiring teacher, and the caring friend.
