American Egyptologist Jeffrey Abt,2012-05-01 James Henry Breasted 1865 1935 had a career that epitomizes our popular image of the archaeologist Daring handsome and charismatic he traveled on expeditions to remote and politically unstable corners of the Middle East helped identify the tomb of King Tut and was on the cover of Time magazine But Breasted was more than an Indiana Jones he was an accomplished scholar academic entrepreneur and talented author who brought ancient history to life not just for students but for such notables as Teddy Roosevelt and Sigmund Freud In American Egyptologist Jeffrey Abt weaves together the disparate strands of Breasted's life from his small town origins following the Civil War to his evolution into the father of American Egyptology and the founder of the Oriental Institute in the early years of the University of Chicago Abt explores the scholarly philanthropic diplomatic and religious contexts of his ideas and

projects providing insight into the origins of America's most prominent center for Near Eastern archaeology. An illuminating portrait of the nearly forgotten man who demystified ancient Egypt for the general public. American Egyptologist restores James Henry Breasted to the world and puts forward a brilliant case for his place as one of the most important scholars of modern times.

His Good Name Christina Geisen, Jean Li, Steven B. Shubert, Kei Yamamoto, 2021-03-20. The wish to affiliate with a specific cultural, social, or ethnical group is as important today as it was in past societies such as that of the ancient Egyptians. The same significance applies to the self-presentation of an individual within such a group. Although it is inevitable that we perceive ancient cultures through the lens of our time, place, and value systems, we can certainly try to look beyond these limitations. Questions of how the ancient Egyptians saw themselves and how individuals tried to establish and thus present themselves in society are central pieces of the puzzle of how we interpret this ancient culture. This volume focuses on the topic of identity and self-presentation, tackling the subject from many different angles: the ways in which social and personal identities are constructed and maintained, the manipulations of culture by individuals to reflect real or aspirational identities, and the methods modern scholars use to attempt to say something about ancient persons. Building on the work of Ronald J. Leprohon, to whom this volume is dedicated, contributions in this volume present an overview of our current state of understanding of patterns of identity and self-presentation in ancient Egypt. The contributors approach various aspects of identity and self-presentation through studies of gender, literature, material culture, mythology, names, and officialdom.

The Routledge Dictionary of Egyptian Gods and Goddesses George Hart, 2005-03-31. The Routledge Dictionary of Egyptian Gods and Goddesses contains one of the most comprehensive listings and descriptions of Egyptian deities. Now in its second edition, it provides a new introduction, updated entries, and four new entries on deities. Names of the deities as hieroglyphs, a survey of gods and goddesses as they appear in classical literature, an expanded chronology, and updated bibliography, together with a list of relevant websites, drawings of the gods and emblems of each district, a map of ancient Egypt, and a time chart. Presenting a vivid picture of the complexity and richness of imagery in Egyptian mythology, students studying Ancient Egypt, travelers, visitors to museums, and all those interested in mythology will find this an invaluable resource.
