Ehe Hetarentum Und Knabenliebe Im Antiken Griechenland:

The Feminine Matrix of Sex and Gender in Classical Athens Kate Gilhuly, 2008-11-24 In *The Feminine Matrix of Sex and Gender in Classical Athens* Kate Gilhuly explores the relationship between the prostitute the wife and the ritual performer in Athenian literature She suggests that these three roles formed a symbolic continuum that served as an alternative to a binary conception of gender in classical Athens and provided a framework for assessing both masculine and feminine civic behaviour Grounded in close readings of four texts Against Neaira Plato s Symposium Xenophon s Symposium and Aristophanes *Lysistrata* this book draws upon observations from gender studies and the history of sexuality in ancient Greece to illuminate the relevance of these representations of women to civic behaviour pederasty philosophy and politics In these original readings Gilhuly casts a new light on the complexity of the classical Athenian sex gender system demonstrating how various and even opposing strategies worked together to articulate different facets of the Athenian subject **Greek**

Household Interests Cheryl Anne Cox, 2014-07-14 *Household Interests* is one of the first books to explore in depth the nature of the Greek household oikos in classical Athens Whereas the oikos traditionally has been defined as the household of the nuclear family in Greece Cheryl Anne Cox reveals it as a much more fluid structure taking care to distinguish between the concepts of household and family The legal basis of the typical elite household emerges as Cox describes marriage patterns or strategies among the families represented in Attic orations and funerary inscriptions property interests were a strong motivating force with the elite marrying within their kin primarily through paternal lines in which property was transferred The author ultimately shows that the household was not limited to family or kinspeople Friends neighbors concubines or prostitutes and slaves also shared in property interests and all could have a profound influence on the household After first examining marriage patterns Cox turns to inter family relationships Using anthropological sources and historical studies of European societies she shows how property interest shaped often conflicted relations between

parents and their children and among brothers and yet it encouraged male charity toward sisters Cox next considers how property transfer through adoption guardianship and remarriage and the intervention of friends concubines and slaves all contributed to expanding the boundaries of the household beyond kin Originally published in 1998 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905
