offers a quick reference to the provisions of the treaties how they are interpreted and applied in practice and to the most important legal instruments enacted on their basis The fully updated Commentary considers key developments in all areas of EU law including the debates and requirements around the Rule of Law legal decisions in relation to the Covid 19 pandemic climate change measures such as the European Green Deal as well as recent changes to the Common Agricultural Policy It also includes significant court rulings on freedom security and justice migration and asylum as well as issues relating to freedom of movement and Brexit The new edition outlines the Digital Markets Act a major piece of legislation adopted in 2022 and contains significant updates on EU competition law in the light of new Regulations and Guidelines Written by a team of contributors drawn from the Legal Service of the European Commission and from academia the Commentary offers expert guidance to practitioners and academics seeking fast access to the Treaties secondary law and current practice The Commentary follows a set structure offering a short overview of the Article the Article text itself a key references list including essential case law and legislation followed by a structured commentary on the Article The editors and contributors combine experience in practice with a strong academic background and have published widely on a variety of EU law subjects

EU External Relations and the Power of Law Kenneth A Armstrong, Joanne Scott, Anne Thies, 2024-08-22 The breadth and depth of the scholarship of Marise Cremona is honoured in this collection of essays written by her colleagues and friends Taking Cremona's field defining research as a point of reference this collection of research articles examines the power of law in EU external relations Echoing the expansive scope of Cremona's intellectual enquiries across the growing and diversifying field of external relations law this volume offers new insights into the principles and procedures that underlie this area of law the role and responsibilities of the EU as an international actor and the strategies and instruments through which the Union pursues its external agenda Spanning the analysis of foundational concepts and more contemporary interventions in respect of the environment human rights foreign direct investment and even Brexit what emerges from this collection is a richly conceptualised and clear examination of the multiple ways in which the power of law captures or eludes the EU's construction of a domain of external relations a domain in which the EU interacts not only with its Member States but also other subjects of the international legal order

International Investment Protection within Europe Julien Berger, 2020-11-24 The steadily rising number of investor State arbitration proceedings within the EU has triggered an extensive backlash and an increased questioning of the international investment law regime by different Member States as well as the EU Commission This has resulted in the EU's assertion of control over the intra EU investment regime by promoting the termination of bilateral intra EU investment treaties intra EU BITs and by opposing the jurisdiction of arbitral tribunals in intra EU investor State arbitration proceedings Against the backdrop of the landmark Achmea decision of the European Court of Justice the book offers an in depth analysis of the interplay of international investment law and the law of the European Union with regard to intra EU investments i.e. investments undertaken by an investor from one EU Member

State within the territory of another EU Member State It specifically analyses the conflict between the two investment protection regimes applicable within the EU with a particular emphasis on the compatibility of the international legal instruments with the law of the European Union The book thereby addresses the more general question of the relationship between EU law and international law and offers a conceptual framework of intra European investment protection based on the analysis of all intra EU BITs the Energy Charter Treaty and EU law as well as the arbitral practice in over 180 intra EU investor State arbitration proceedings Finally the book develops possible solutions to reconcile the international legal standards of protection with the regionalized transnational law of the European Union
