Versprechen und Verlesen. Eine psychologisch-linguistische Studie. ([With the assistance of] Carl Mayer.) New edition with an introductory article by Anne Cutler and David Fay Rudolf Meringer,1978

Versprechen und Verlesen 1895 is distinguished more by observational accuracy than by theoretical sophistication but it is exactly this characteristic which has proved its lasting value It is a scrupulously collected usefully organized and very large corpus of errors providing material on which hypotheses can be tested and generalisations made Others before Meringer had speculated about what speech errors might demonstrate he was the first to attempt to find out In this Meringer made a worthy and lasting contribution to linguistic and psychological study This fac simile edition is preceded by an Introductory article by Anne Cutler and David Fay
