

Frank Robert Viveló

Handbuch der Kulturanthropologie

Eine Einführung. Warum legt sich bei manchen Völkern der Mann ins Kindbett, wenn seine Frau niederkommt? Warum ist der „unnatürliche“ Inzest nicht in allen Gesellschaften verboten? Kann man Begriffe wie „Recht“ und „Eigentum“ auf nicht-westliche Gesellschaften anwenden? Die Kulturanthropologie erhebt den Anspruch, die Integrationswissenschaft aller Wissenschaften vom Menschen zu sein und weist den Weg zu einem neuen Humanismus. —

Handbuch Der Kulturanthropologie Eine Grundlegende Einführung:

Handbuch der Kulturanthropologie Frank Robert VIVÉLO, 1988 **Kultur, ein Netz von Bedeutungen** Florian Steger, 2002 **Dreaming of Change** Julia Droeber, 2005 Julia Droeber focuses on the everyday experiences of young highly educated women in contemporary Jordan. She analyses their contributions to social change as well as the strategies they employ in dealing with the problems they face Spiritual Kinship as Social Practice Bernhard Jussen, 2000 This book deals with kinship in the early Middle Ages. Most scholars agree in theory that kinship is not a biological fact but a universally deployable system for structuring social relations. In empirical practice however research on kinship has focused almost exclusively on descent and alliance. This book addresses kinship beyond these concepts. It is a study of godparenthood and adoption in Frankish society at the time when Roman adoption was disappearing and godparenthood was being invented as a social tool. BOOK JACKET Title Summary field provided by Blackwell North America Inc. All Rights Reserved *Soziologie* Hartmut Esser, 1993 **Pre-tsarist and Tsarist Central Asia** Paul Georg Geiss, 2004-11-23 This study written from the perspective of political sociology represents the first comparative examination of Central Asian communal and political organisation before and after the tsarist conquest of the region. It covers Turkman, Kyrgyz, Kazakh and other tribal societies, analyses the patrimonial state structures of the Emirate of Bukhara and the Khanates of Khiva and Khokand and discusses the impacts of the established tsarist civil military administration on communal and political orientations of the Muslim population Einführung in die Kulturwissenschaften Ansgar Nünning, Vera Nünning, 2008-01-01 Der Band Konzepte der Kulturwissenschaften bietet Orientierung in einem interdisziplinären Diskussionsfeld, das inzwischen selbst für Fachleute kaum noch überschaubar ist. Er informiert über die gegenwärtigen kulturwissenschaftlichen Diskussionen, insbesondere in den Literaturwissenschaften, und gibt einen systematischen und umfassenden Überblick über die verschiedenen Ansätze wie Kultursemiotik, Kulturanthropologie und New Historicism. Weitere Kapitel widmen sich der Medienwissenschaft, kulturwissenschaftlicher Geschlechterforschung, Fragen des kulturellen Gedächtnisses oder interkultureller Kommunikation.

World Peace through Christian-Muslim Understanding Sarah Markiewicz, 2016-10-10 The open letter 'A Common Word Between Us and You' (Amman 2007) is a unique example of Christian-Muslim dialogue. The central message behind ACW is that the future of the world depends on peace between Muslims and Christians. ACW aims to achieve political change through theological argumentation. An improvement in Islam-West relations can be indirectly achieved through a focus on improving Christian-Muslim relations. This study investigates the genesis and fruits of ACW, highlighting the importance of a specific historical and sociopolitical context which decisively influenced its form and content Einführung in das Grundproblem des archäologisch-kulturhistorischen Vergleichs und Deutens Ulf F. Ickerodt, 2010 Archäologie Theorie Forschung Kulturgeschichte National and Religious Ideologies in the Construction of Educational Historiography Jil Winandy, 2022-04-19 Documenting the reception of the pre-eminent Austrian school reformer Johann Ignaz Felbiger and his

pedagogical thought in European histories of education in the nineteenth century this volume demonstrates how national and religious ideological preferences have propelled the construction of fundamental biases in educational historiography Covering more than 200 years and multiple national contexts this book's case studies of France and Switzerland as well as close analysis of historical documents and textbooks reveal how a canon of glorified historical heroes have been promoted over and above other educational actors with the aim of morally instructing future teachers according to national and religious values Based on a strong array of historical sources the author demonstrates how biased educational historiographies are utilized in gaining support for certain pedagogical and curricula models Through the deep examination of textbooks used in teacher training and the explication of the work and actual influence of Felbiger's method in Catholic parts of Europe this book captures how these narratives impact our understanding of early national histories Offering new knowledge in the history of curriculum studies this volume will be of interest to scholars and researchers with an interest in the history of education as well as comparative teacher education

Pathways to Heaven Holger Jebens, 2006-09-01 How does global Christianity relate to processes of globalisation and modernization and what form does it take in different local settings These questions have lately proved to be of increasing interest to many scholars in the social sciences and humanities This study examines the tensions antagonisms and outright confrontations that can occur within local Christian communities upon the arrival of global versions of fundamentalism and it does so through a rich and in depth ethnographic study of a single case that of Pairundu a small and remote Papua New Guinean village whose population accepted Catholicism after first being contacted in the late 1950s and subsequently participated in a charismatic movement before more and more members of the younger generation started to separate themselves from their respective catholic families and to convert to one of the most radical and fastest growing religious groups not only in contemporary Papua New Guinea but world wide the Seventh Day Adventist Church This case study of local Christianity as a lived religion contributes to an understanding of the social and cultural dynamics that increasingly incite and shape religious conflicts on a global scale

Shaman of Oberstdorf Wolfgang Behringer, 1998 Shaman of Oberstdorf tells the fascinating story of a sixteenth century mountain village caught in a panic of its own making Four hundred years ago the Bavarian alpine town of Oberstdorf surrounded by the towering peaks of the Vorarlberg was awash in legends and rumors of prophets and healers of spirits and specters of witches and soothsayers The book focuses on the life of a horse wrangler named Chonrad Stoeckhlin 1549-1587 whose extraordinary visions of the afterlife and enthusiastic practice of the occult eventually led to his death and to the death of a number of village women for crimes of witchcraft Wolfgang Behringer is one of the premier historians of German witchcraft not only because of his mastery of the subject at the regional level but because he also writes movingly forcefully and with an eye for the telling anecdote Amazon.ca

Das Menschenbild nach dem Johannesevangelium Christina Urban, 2001 English summary In a new methodical and hermeneutical approach Christina Urban focuses on the anthropology of the Gospel of John and on the relationship between anthropology Christology and soteriology in the Fourth Gospel She begins by discussing the few current concepts of Johannine anthropology and the methodical and hermeneutical handling of the anthropological assertions and terms in the Johannine texts By developing a new semantic text concept which does however depend on historical criticism she finds a way out of the current discussion between the anthropological and the Christological narrowness of Johannine theology and then rewords the basis of Johannine anthropology In this way the Fourth Gospel develops an anthropological system not only anthropological aspects or terms German description Das Johannesevangelium gehort zu den Bereichen neutestamentlicher Exegese die in den vergangenen Jahrzehnten eine kaum uberschaubare Fulle an Spezialuntersuchungen hervorgebracht haben Seit Bultmanns epochemachendem Ansatz zur johanneischen Anthropologie hat sich das Forschungsinteresse allerdings weniger auf anthropologische Fragen als vielmehr auf christologische eschatologische ekklesiologische und pneumatologische Themenkomplexe des vierten Evangeliums gerichtet Diese Untersuchung johanneischer Anthropologie die nicht auf Bultmanns Thesen fusst schliesst somit eine Lucke in der Forschung Christina Urban stellt in einem methodischen und hermeneutischen Neuansatz die Frage nach der johanneischen Anthropologie und ihrem Verhaltnis zur johanneischen Christologie und Soteriologie Als Grundlage dient ihr dabei die Theorie der Vagheit von Sprache die sie mit den Mitteln der historischen Kritik kombiniert Zunachst untersucht die Autorin die wenigen bereits vorliegenden Konzepte zur johanneischen Anthropologie Mit Hilfe sprachphilosophischer und linguistischer Theoriebildungen erarbeitet sie wichtige methodische Grundlagen fur den Umgang mit johanneischer Anthropologie Darauf aufbauend untersucht Christina Urban ausgewahlte Texte des Johannesevangeliums und zeigt dass dieses Evangelium ein eigenes anthropologisches System entwickelt hat in dessen Mittelpunkt die Sprach und Beziehungsfahigkeit als wesentliche Grundbeschaffenheit des Menschen stehen
