migration and diaspora **German Memory Contests** Anne Fuchs, Mary Cosgrove, Georg Grote, 2006 Since unification in 1990 Germany has seen a boom in the confrontation with memory evident in a sharp increase in novels films autobiographies and other forms of public discourse that engage with the long term effects of National Socialism across generations Taking issue with the concept of Vergangenheitsbewältigung or coming to terms with the Nazi past which after 1945 guided nearly all debate on the topic the contributors to this volume view contemporary German culture through the more dynamic concept of memory contests which sees all forms of memory public or private as ongoing processes of negotiating identity in the present Touching on gender generations memory and postmemory trauma theory ethnicity historiography and family narrative the contributions offer a comprehensive picture of current German memory debates in so doing shedding light on the struggle to construct a German identity mindful of but not wholly defined by the horrors of National Socialism and the Holocaust Contributors Peter Fritzsche Anne Fuchs Elizabeth Boa Stefan Willer Chloe E M Paver Matthias Fiedler J J Long Dagmar C G Lorenz Cathy S Gelbin Jennifer E Michaels Mary Cosgrove Andrew Plowman Roger Woods Anne Fuchs is Professor of modern German literature and Georg Grote is Lecturer in German history both at University College Dublin Mary Cosgrove is Lecturer in German at the University of Edinburgh **The Oxford Handbook of Dance and Politics** Rebekah J. Kowal, Gerald Siegmund, Randy Martin, 2017-01-03 In recent decades dance has become a vehicle for querying assumptions about what it means to be embodied in turn illuminating intersections among the political the social the aesthetical and the phenomenological The Oxford Handbook of Dance and Politics edited by internationally lauded scholars Rebekah Kowal Gerald Siegmund and the late Randy Martin presents a compendium of newly commissioned chapters that address the interdisciplinary and global scope of dance theory its political philosophy social movements and approaches to bodily difference such as disability postcolonial and critical race and queer studies In six sections 30 of the most prestigious dance scholars in the US and Europe track the political economy of dance and analyze the political dimensions of choreography of writing history and of embodied phenomena in general Employing years of intimate knowledge of dance and its cultural phenomenology scholars urge readers to re think dominant cultural codes their usages and the meaning they produce and theorize ways dance may help to re signify and to re negotiate established cultural practices and their inherent power relations This handbook poses ever present questions about dance politics which aspects or effects of a dance can be considered political What possibilities and understandings of politics are disclosed through dance How does a particular dance articulate or undermine forces of authority How might dance relate to emancipation or bondage of the body Where and how can dance articulate social movements represent or challenge political institutions or offer insight into habits of labor and leisure The handbook opens its critical terms in two directions First it offers an elaborated understanding of how dance achieves its politics Second it illustrates how notions of the political are themselves expanded when viewed from the perspective of dance thus addressing both the relationship between the politics in dance and the politics of dance Using the

most sophisticated theoretical frameworks and engaging with the problematics that come from philosophy social science history and the humanities chapters explore the affinities affiliations concepts and critiques that are inherent in the act of dance and questions about matters political that dance makes legible

Refugees from Nazi

Germany and the Liberal European States Frank Caestecker, Bob Moore, 2010 The exodus of refugees from Nazi Germany in the 1930s has received far more attention from historians social scientists and demographers than many other migrations and persecutions in Europe However as a result of the overwhelming attention that has been given to the Holocaust within the historiography of Europe and the Second World War the issues surrounding the flight of people from Nazi Germany prior to 1939 have been seen as Vorgeschichte pre history Based on a comparative analysis of national case studies this volume deals with the challenges that the pre 1939 movement of refugees from Germany and Austria posed to the immigration controls in the countries of interwar Europe Publisher s description

Art of Suppression Pamela M. Potter, 2016-06-28 This provocative study asks why we have held on to vivid images of the Nazis total control of the visual and performing arts even though research has shown that many artists and their works thrived under Hitler To answer this question Pamela M Potter investigates how historians since 1945 have written about music art architecture theater film and dance in Nazi Germany and how their accounts have been colored by politics of the Cold War the fall of communism and the wish to preserve the idea that true art and politics cannot mix Potter maintains that although the persecution of Jewish artists and other enemies of the state was a high priority for the Third Reich removing them from German cultural life did not eradicate their artistic legacies Art of Suppression examines the cultural histories of Nazi Germany to help us understand how the circumstances of exile the Allied occupation the Cold

German-Jewish Cultural Identity from 1900 to the Aftermath of the First World War Elisabeth Albanis, 2013-04-09 By illustrating the quintessentially different self perceptions of three German writers of Jewish background all born in or around 1880 in Berlin this book examines a range of German Jewish identities in a socio cultural context in Wilhelmine Germany Moritz Goldstein 1880 1977 the conflict of his dual identity and the interplay between being a German writer and a cultural Zionist is covered first Particular attention is given to the genesis of his essay *Deutsch j discher Parna* with its call for Jews to vacate their seats in German literary culture The range of positions unfolding in the debate following its publication in *Der Kunstwart* in 1912 serves to illustrate the spectrum of German Jewish self definition at the time In the second part the writings of Julius Bab 1880 1955 are examined in so far as they shed light on his advocacy of a synthesis of *Deutschtum* and *Judentum* The far side of the spectrum of German Jewish self definition is represented by Ernst Lissauer 1882 1937 who propagated complete assimilation considering the Jewish element as an obstacle which had to be overcome on the road to *Deutschtum* This study depicts how external cultural and political influences shaped the transformation of their ideas of what it meant to be Jewish in Germany and how they responded to increasing anti-Semitism By recognising the way in which the individual's cultural identity was constantly refashioned in the face of external challenges a fuller understanding of the evolving self perception of German Jews is reached
