Coronavirus (COVID-19) Outbreaks, Environment and Human Behaviour Rais

Akhtar, 2021-04-22 This book covers over 24 country studies on various dimensions associated with the geographical spread of COVID 19. The chapters in the book from geographically diversified countries assert the need to undertake intensive regional research in order to understand the global pattern of Coronavirus focusing on infection migration and indigenous origin that has caused tremendous global economic social and health disaster. The book contends that understanding of peoples behaviour is crucial towards safety measures against infection as COVID 19 impacted to a greater extent social wellbeing of population because of lockdowns in all corners of the world. Some of the countries featured are USA, France, Italy, Hong Kong, South Korea, Canada, Australia, Pacific Islands, Russia, Taiwan, Thailand, Malaysia, Indonesia, India, South Africa, Nigeria, Mexico, Peru, and Brazil.

Conflict Dialogue Peter M. Kellett, 2006-06-28 Professor Kellett's text is unique among

undergraduate texts in its use of narrative theory to understand conflicts and to develop more effective strategies in family and relational conflicts. The most impressive aspect of the text is the rich and compelling stories. Students and practitioners will be able to relate to the stories and learn important conflict analysis techniques and communication skills through them. Angela Laird Brenton, University of Arkansas at Little Rock. The text is a wonderful study of the role of archetype in a conflict and the use of narrative. I am impressed with the notion of projection. In a self-focused society we don't often think that the problem may lie within ourselves. The book teaches the skill of self-reflection and helps readers to become more other-centered. I am pleased to read the case studies as they provide fine classroom tools; they are engaging and diverse. Kellett has done much to incorporate narrative into the study of conflict and communication. *Conflict Dialogue* is a welcome addition to the body of conflict literature and centers communication within that body of literature. Christopher Lynch, Kean University. Conflicts are more effectively managed if people understand the layers meaning in their conflicts and collaborate based on those meanings. In this book, author Peter M. Kellett analyzes and interprets real-life conflict stories as a way to create opportunities for more productive ways to navigate and resolve conflict. **Key Features:** Examines real lived experiences of conflict. Real-life conflict stories from students themselves illustrate how people actually manage conflict and allow readers to identify with experiences from their own lives. These stories represent the different participants in the conflict, allowing readers to compare and contrast the meaning of the conflict from varied perspectives. Addresses diversity in conflicts. Because conflicts are mediated by both personal and cultural issues of identity, case study narratives of diverse cultural relationships and conflicts are included throughout. Blends theoretical depth with practical technique. This book uses an additive approach that builds theoretically grounded technique through four sections. Throughout each chapter, readers get both a sense of the depth and complexity of conflicts and an understanding how dialogic negotiation can be used to create more productive relationships. **Intended Audience:** This is an ideal textbook for advanced undergraduate and graduate courses.
