Pearce, Charles C. Manz, Henry P. Sims, 2014-01-01 Share Don t Take the Lead is a book that offers an alternative perspective on leadership The philosophy of shared leadership is straightforward Leadership does not derive solely from position authority or hierarchy Instead leadership is something that can be executed by anyone who has

the best knowledge or skill to undertake the leadership necessary in any given situation Shared leadership is especially relevant for example in empowered teams where shared leadership can be initiated from any team member at any time depending on the needs of the moment and the capabilities of the individuals But the notion of shared leadership is also appropriate in a larger context For example an individual lower in the hierarchy can provide leadership if that person is best qualified to exercise it Shared leadership also shows how hierarchical leaders with formal authority can use empowerment to develop leadership in others This book tells the tales of how multiple trail blazing organizations used shared leadership to build high performance The notion of shared leadership seems to contradict many of the bedrock ideas of efficient management and effective organizations A typical first reaction is It ll never work here Yet the organizations that get it and implement this new powerful approach tend to be more innovative and to out perform their nay sayer competitors In fact shared leadership is one of the most important ideas to hit business in recent years our recent feature article about shared leadership in the Wall Street Journal is testimony to that Shared leadership can provide a way for companies to increase productivity quality and flexibility while meeting the competitiveness challenge Share the Lead provides new insights and information about how to push the organizational envelope to new frontiers     *Peter Norton's New Inside the PC* Peter Norton, Scott H. Clark, 2002 This is an updated guide for anyone who needs an introduction to personal computer technology including computer programming new technologies and shopping for a PC
