Hanes Cymru Yn Y Cyfnod Modern C:

Street Ballads in Nineteenth-Century Britain, Ireland, and North America David Atkinson, Steve Roud, 2016-04-01
In recent years the assumption that traditional songs originated from a primarily oral tradition has been challenged by research into street literature that is the cheap printed broadsides and chapbooks that poured from the presses of jobbing printers from the late sixteenth century until the beginning of the twentieth. Not only are some traditional singers known to have learned songs from printed sources but most of the songs were composed by professional writers and reached the populace in printed form. *Street Ballads in Nineteenth Century Britain Ireland and North America* engages with the long running debate over the origin of traditional songs by examining street literature's interaction with and influence on oral traditions.

Power in Tudor England David Loades, 1996-11-04 England was the most centralised state in medieval Europe. The Tudors built on this situation to reduce still further the provincial power of the nobility and to eliminate the remaining jurisdictional franchises. But sixteenth century England was not monolithic nor homogeneous. There were still strong local identities both political and culture and the Tudors achieved success by working through the local elites rather than against them.

A Critical Edition of Sir James Perrott's 'The Life, Deedes and Death of Sir John Perrott, Knight' Sir James Perrott, 2002 Although this book is purported to be biographical in nature it focuses almost exclusively on Sir James Perrott's activities in dealing with Queen Elizabeth's most hazardous and protracted problem namely Ireland.
