Edinburgh Handbook of Evaluative Morphology Nicola Grandi, 2015-06-03 With examples drawn from over 200 world languages this ground breaking volume presents a state of the art overview of evaluative morphology

Handbook of Orthography and Literacy R. Malatesha Joshi, P.G. Aaron, 2013-05-13 Until about two decades ago the study of writing systems and their relationship to literacy acquisition was sparse and generally modeled after studies of English language learners This situation is now changing As the worldwide demand for literacy continues to grow researchers from different countries with different language backgrounds have begun examining the connection between their writing systems and literacy acquisition This text which derives from a NATO sponsored conference on orthography and literacy brings together the research of 70 scholars from across the world the largest assemblage of such

experts to date Their findings are grouped into three parts as follows Part I Literacy Acquisition in Different Writing Systems describes the relationship between orthography and literacy in twenty five orthographic systems This section serves as a handy reference source for understanding the orthographies of languages as diverse as Arabic Chinese English Icelandic Kannada and Kishwahili Part II Literacy Acquisition From a Cross Linguistic Perspective makes direct comparisons of literacy acquisition in English and other orthographic systems The overall conclusion that emerges from these eight chapters is that the depth of an orthographic system does influence literacy acquisition primarily by slowing down the acquisition of reading skills Even so studies show that dyslexic readers can be found across all orthographic systems whether shallow or deep which shows that dyslexia also has internal cognitive and biological components Part III Literacy Acquisition Instructional Perspectives explores literacy acquisition from developmental and instructional perspectives and ends with a look into the future of literacy research This Handbook is appropriate for scholars researchers and graduate students in such diverse fields as cognitive psychology psycholinguistics literacy education English as a second language and communication disorders The Oxford Handbook of English Grammar Bas Aarts,Jill Bowie,Gergana Popova,2020 This handbook provides an authoritative critical survey of current research and knowledge in the grammar of the English language The volume s expert contributors explore a range of core topics in English grammar covering a range of theoretical approaches and including the relationship between core grammar and other areas of language Morphological Theory and the Morphology of English Jan Don,2014-05-14 In presenting the morphology of English in relation to theoretical developments that have shaped the field over the last couple of decades this textbook gives a reasoned overview of the morphology of English

Lexical Semantics and Diachronic Morphology Carola Trips,2009 This book is the most comprehensive study to date of the development of the three suffixes hood dom and ship in the history of English An in depth investigation from Old English to Modern English based on data from annotated corpora reveals that all three suffixes developed from nouns into today s suffixes building abstract nouns It is shown that the rise of suffixes is triggered by semantic change The findings are analyzed in a current model of lexical semantics of word formation The book includes an index with all formations with the three suffixed from Old English to Modern English Book Jacket *Diversity in African languages* Doris L. Payne,Sara Pacchiarotti,Mokaya Bosire ,2016-12-31 Diversity in African Languages contains a selection of revised papers from the 46th Annual Conference on African Linguistics held at the University of Oregon Most chapters focus on single languages addressing diverse aspects of their phonology morphology semantics syntax information structure or historical development These chapters represent nine different genera Mande Gur Kwa Edoid Bantu Nilotic Gumuzic Cushitic and Omotic Other chapters investigate a mix of languages and families moving from typological issues to sociolinguistic and inter ethnic factors that affect language and accent switching Some chapters are primarily descriptive while others push forward the theoretical understanding of tone semantic problems discourse related structures and other linguistic systems The papers on Bantu

languages reflect something of the internal richness and continued fascination of the family for linguists as well as maturation of research on the family The distribution of other papers highlights the need for intensified research into all the language families of Africa including basic documentation in order to comprehend linguistic diversities and convergences across the continent In this regard the chapter on Daats i in Gumuzic stands out as the first ever published article on this hitherto unknown and endangered language found in the Ethiopian Sudanese border lands

Manual of Galician Linguistics Xulio Sousa, Ernesto González Seoane, 2024-11-04 The Manual of Galician Linguistics provides a comprehensive and accessible overview of the current situation of the Galician language and introduces its readers to the most important topics of current linguistic research on Galician The volume includes chapters covering diachronic and synchronic descriptions of all main areas of language structure phonetics phonology morphology syntax and lexicology as well chapters on social and regional variation language contact sociolinguistics language variation and other interesting areas of linguistic research Rich in descriptive details and grounded in modern linguistic theory this manual will be an essential research tool for students and researchers who are interested in the Galician language and in Romance linguistics The preparation of this work has been partially funded through grants from the Ministerio de Cultura of the Government of Spain to the Instituto da Lingua Galega and from the Consellería de Cultura Educación e Universidade of the Xunta de Galicia to the research group Filoloxía e Lingüística Galega of the Universidade de Santiago de Compostela ED431C 2021 20

Memorization and the Compound-Phrase Distinction Marcel Schlechtweg, 2018-01-09 Over the last decades it has been hotly debated whether and how compounds i e word formations and phrases differ from each other The book discusses this issue by investigating compounds and phrases from a structural semantic functional and crucially cognitive perspective The analysis focuses on compounds and phrases that are composed of either an adjective and a noun or two nouns in German French and English Having distinguished compounds from phrases on structural and semantic functional grounds the author claims that compounds are by their nature more appropriate to be stored in the mental lexicon than phrases and supports his argument with empirical evidence from new psycholinguistic studies In sum the book maintains the separation between compounds and phrases and reflects upon its cognitive consequences

The Handbook of the History of English Ans van Kemenade, Bettelou Los, 2009-02-09 The Handbook of the History of English is a collection of articles written by leading specialists in the field that focus on the theoretical issues behind the facts of the changing English language organizes the theoretical issues behind the facts of the changing English language innovatively and applies recent insights to old problems surveys the history of English from the perspective of structural developments in areas such as phonology prosody morphology syntax semantics language variation and dialectology offers readers a comprehensive overview of the various theoretical perspectives available to the study of the history of English and sets new objectives for further research

Derivational Networks Across Languages Livia Körtvélyessy, Alexandra Bagasheva, Pavol Štekauer, 2020-06-08 This

pioneering research brings a new insight into derivational processes in terms of theory method and typology Theoretically it conceives of derivation as a three dimensional system Methodologically it introduces a range of parameters for the evaluation of derivational networks including the derivational role combinability and blocking effects of semantic categories the maximum derivational potential and its actualization in relation to simple underived words and the maximum and average number of orders of derivation Each language specific chapter has a unified structure which made it possible to identify in the final typologically oriented chapter the systematicity and regularity in developing derivational networks in a sample of forty European languages and in a few language genera and families This is supported by considerations about the role of word classes morphological types and the differences and similarities between word formation processes of the languages belonging to the same genus family *Metaphor, Metonymy and Lexicogenesis* Andrew Goatly, 2024-11-15 This book investigates the interaction between new English lexis and metaphor metonymy figures meticulously defined and contrasted in terms of similarity contiguity It advances three main hypotheses i derived lexis is more likely to be figurative in meaning and usage than the bases from which it is derived ii derivation obscures the figurative origins of this lexis to varying degrees depending on differing processing strategies iii lexicalisation is determined by Relevance in Sperber and Wilson s sense to the needs of a culture or its powerful interest groups where culture following Norman Fairclough is characterised as an ensemble of recognised action discourse genres This volume is distinctive in exploring the relations between grammar and metonymy and providing numerous examples of metaphorical and metonymic lexis as it reflects society s changing needs and contested ideologies *Bridging Languages and Cultures* Guntars Dreijers, Agnese Dubova, Jānis Veckrācis, 2019-03-11 Translation Studies already face new tasks in order to take account of and to discuss the changing translation environment in order to seek new approaches and tools for description analysis and teaching activities This volume of selected papers of the conference Bridging Languages and Cultures brings together current viewpoints in Translation Studies Linguistics and Intercultural Communication it provides both specific focus on certain aspects and developments and a more general overview of research landscape Distinguished authors discuss translation of LSP texts lexicological and lexicographic modules of bridging history and methodology of Translation Studies aesthetic and interactional aspects of translation and intercultural phenomena in the context of translation
