Handbook On Parent Education Educational Psychology:

The Second Handbook on Parent Education Marvin J. Fine, 2014-06-28 This book should enhance the reader's understanding of the contemporary scene in parenting education including effective programming important issues and future trends

Handbook on Parent Education Marvin J. Fine, 2014-05-10 Handbook on Parent Education presents a contemporary picture of the state of the parent education movement. It tackles a number of critical issues such as the programs that are available or when parent education should begin. Different models of parent education are described along with parenting programs for youth. The application of parenting programs for specific groups including foster parents, parents of preschoolers, abusive parents, and parents of handicapped children is also discussed. Comprised of 14 chapters, this book begins with an overview of the parent education movement as well as several prototype programs and some ethical issues. The distinction between education and therapy is explained and parent education with special interest groups is described. In addition, problems of research and evaluation and a projection for the future are presented. Subsequent chapters focus on the state of the nuclear family in American society during the 1970s, Rudolf Dreikurs' impact on childrearing practices and his contribution to individual psychology together with the social context of child behavior, Haim Ginott's approach to parent education and the effects of parent effectiveness training on families. Transactional analysis approaches to parent education and parent education as a strategy for the prevention of child abuse are also examined. This monograph will appeal to educators, parents, sociologists, and educational psychologists.

Handbook of School-Family Partnerships Sandra L. Christenson, Amy L. Reschly, 2010-06-10 Family and community involvement are increasingly touted as a means of improving both student and school level achievement. This has led to an increase in policies, initiatives, and goals designed to address family involvement in schools. Once recognized and implemented, such family-school partnerships can lead to the following benefits: enhanced communication and coordination between parents and educators; continuity in developmental goals and approaches across family and school contexts; shared ownership and commitment to educational goals; increased understanding of the complexities of children's situations; and the pooling of family and school resources to find and implement quality solutions to shared goals.

Handbook of Diversity in Parent Education Marvin J. Fine, Steven W. Lee, 2000-10-09 Traditionally, books on parent education have focused on techniques from a certain tradition, either behavioral or humanistic, that could be applied to any problem of parenting or child behavior change. These books have used a cook book approach that is frequently oblivious to environmental conditions that influence behavior or take into account the individual differences of the children or families involved. This book highlights the complexity of our society and times by exploring the problems faced by diverse types of parents, children, and parenting situations. Moreover, the sensitive issues of parenting in unique populations are handled in a caring, straightforward way with an emphasis on research-based parent education programs along with tips and strategies for everyday use. Premier text on parent education in diverse populations.

Features tips strategies websites and support for parents Based upon cutting edge research in parent education Models for developing problem specific parenting programs Step by step parent education programs for low incidence problems

Features violence and crisis prevention and intervention skills for families

Science for Psychology in Education Barbara Kelly, Daniel F. Perkins, 2012-08-20 This book aims to help policy makers stakeholders practitioners and teachers in psychology and education provide more effective interventions in educational contexts It responds to disappointment and global concern about the failure to implement psychological and other interventions successfully in real world contexts Often interventions carefully designed and trialed under controlled conditions prove unpredictable or ineffective in uncontrolled real life situations This book looks at why this is the case and pulls together evidence from a range of sources to create original frameworks and guidelines for effective implementation of interventions **School Psychology** Frederic J. Medway, Thomas P. Cafferty, Frederic Medway, 2013-12-16 This impressive

volume reintroduces the importance of and the contributions made by social psychology to school psychology. It provides an overview of the basic areas of social psychology: history, attitudes, attribution, attraction, and research methods, as well as the traditional school psychology functions: assessment, therapy, and consultation. To unite these two crucial areas, the editors and their contributors provide detailed discussions of specific educational and social issues such as substance abuse prevention and treatment, loneliness, cooperative versus competitive environments, and integration of handicapped and culturally different children. Based on classical, contemporary, and cutting edge research and theory, this text should become an essential reference tool for all school psychologists.

Handbook of Parent-Implemented Interventions for Very Young Children with Autism Michael Siller, Lindee Morgan, 2018-08-09. This handbook offers practical strategies and evidence-based parent-implemented interventions for very young children with autism spectrum disorder (ASD). It explores this important subject within the context of rapidly increasing numbers of toddlers who are diagnosed with ASD during the second year of life. The handbook discusses how parents of young children with ASD can effectively be supported, taught, and coached to implement evidence-based parenting strategies and intervention techniques, and describes a broad range of developmentally appropriate programs at the family, community, and service delivery levels. In addition, the handbook examines individual differences in parenting, cognitions, emotions, and practices, and proposes strategies for supporting the varying capacities of diverse families to meet the needs of young children with ASD. Chapters provide diverse coverage spanning cultural, socio-economic differences, as well as differences in family structure, parenting, cognitions, emotions, and practices, parental learning styles, and access to social support. Featured topics include: Supporting families of high-risk infants who have an older sibling with ASD; The use of video feedback strategies in parent-mediated early ASD intervention; The Incredible Years (IY) Parent Program for preschool children with ASD and language delays; Self-help for parents of children with ASD; The Family Implemented TEACCH for Toddlers (FITT) support model; Parent-implemented interventions for underserved families in Taiwan; Family and provider-based interventions in South Asia. The Handbook of Parent-Implemented Interventions for Very Young Children with Autism is a must-have resource for researchers, clinicians, professionals, and graduate students in clinical child, school, and developmental psychology, family studies, behavioral therapy, and social work, as well as rehabilitation medicine, therapy, child and adolescent psychiatry, pediatrics, and special education/educational psychology.
