[Which Way for Our Children?](#) Alberta Munkres, 1936 *Children's Spirituality, Second Edition* Kevin E. Lawson, Scottie May, 2019-06-13 The Society of Children's Spirituality Christian Perspectives launched in 2003 with its first conference held at Concordia University Chicago in River Forest Illinois. An earlier edition of this book composed of chapters based on presentations from that conference was published in 2004. In 2018 a decision was made to revise this book from the inaugural conference updating some chapters and providing a new perspective on the ongoing work of the organization now called the Children's Spirituality Summit. For example, given the advances in what we are learning from brain research, a chapter on this topic has been extensively updated. What this revised volume provides is a collection of chapters offering theological perspectives, social science research and insights on ministry practice about the spiritual lives of children, how they relate to God, how this relationship grows and what helps in promoting the spiritual formation and vitality of children in the home, church and school. This book offers twenty-three chapters by professors, graduate students, social science researchers and ministry leaders from different denominational traditions addressing a wide range of issues in theory, research and ministry practice with children. This second edition offers much to learn from, stimulate your thinking and improve your practice. **International Handbook of Education for Spirituality, Care and Wellbeing** Marian de Souza, LESLIE J. FRANCIS, James O'Higgins-Norman, Daniel G. Scott, 2009-10-13 Acknowledging and understanding spiritual formation is vital in contemporary education. This book explores the dynamic relationship between education and wellbeing. It examines the theory underpinning the practice of education in different societies where spirituality and care are believed to be at the heart of all educational experiences. The book recognizes that regardless of the context or type of educational experience, education is a caring activity in which the development of the whole person, body, mind and spirit is a central aim for teachers and educators in both formal and informal learning. The chapters in this handbook present and discuss topics that focus on spirituality as an integral part of human experience and consequently essential to educational programs which aim to address personal and communal identity, foster resilience.

Marty,2007-04-23 Much of today s writing on children treats the child of any age as a problem or a set of problems to be solved effectively reducing the child to a complex of biological and chemical factors explainable in scientific terms or regarding children as objects of adult control In contrast Martin Marty here presents the child as a mystery who invokes wonder and elicits creative responses that affect the care provided him or her Drawing on literature as new as contemporary poetry and as old as the Bible The Mystery of the Child encourages the thoughtful enjoyment of children instead of the imposition of adult will and control Indeed Marty treats the impulse to control as a problem and highlights

Re-Enchanting Education and Spiritual Wellbeing Marian de Souza, Anna Halafoff, 2017-09-14 Education is in a constant state of renewal internationally where it responds to a number of pressing social political and cultural issues Processes of globalization a number of conflicts and acts of terror economic and environmental crises have led to large waves of migration and asylum seekers arriving in countries with the hope of finding safer and more stable places to settle This in turn has led to cultural and religious pluralism being a key characteristic of many societies with corresponding issues of

belonging and identity As well for many people there has been a shifting influence of and allegiance away from traditional religious frameworks with the emergence of new religious movements both peaceful and violent and a rise in popularity of spirituality and non religious worldviews which provide alternate frameworks for living healthy and ethical lives In order to prepare today s student for tomorrow s world one which is confronted by a range of risks and crises and which is being shaped by rapidly changing technologies educators and researchers are investigating new ways of equipping students to deal with these challenges and opportunities including the nurturing of spiritual wellbeing This book brings together the voices of many experienced educators to discuss ways to re enchant education and re enliven learning programs in response to these 21st century issues in an increasingly global and interconnected world It examines a range of international contexts including secular and religious educational settings and provides an avenue for visionary voices that identify problems and offer solutions to help shape a more promising education system that will prepare children more constructively and beneficially to flourish in their future worlds
