James Edmund Harting

Handbook On Being British:

Being British Chris Parish, 2016-06-24 *Being British Our Once Future Selves* is a journey into British culture and identity today outlining a welcome new story for ourselves in these times of lack of belonging It s a book for the liberally minded and those who feel themselves to be post traditional not defined by nationality The book takes a thought provoking angle which is neither Left nor Right but instead brings the novel lens of a developmental view It connects the dots between past present and future integrating the shadow side and draws on many unusual examples This is a fresh story of what it means to be British where the author is included in the narrative Without being nostalgic it restores a sense of rootedness and helps us appreciate our British qualities incrementally built over a millennium and a half It celebrates being British as elective and not based on race and demonstrates how to have pride in our nationality in a post traditional way [The Bookseller. Becoming British Thom Brooks, 2016-05-24 From Syrian asylum seekers to super rich foreign investors immigration is one of the most controversial issues facing Britain today Politicians kick the subject from one election to the next with energetic but ineffectual promises to crack down while newspaper editors plaster it across front pages But few know the truth behind the headlines indeed the almost daily changes to our complex immigration laws pile up so quickly that even the officials in charge struggle to keep up In this clear concise guide Thom Brooks one of the UK s leading experts on British citizenship and a newly initiated British citizen himself deftly navigates the perennially thorny path exploding myths and exposing absurdities along the way Ranging from how to test for Britishness to how to tackle EU free movement *Becoming British* explores how UK immigration really works and sparks a long overdue debate about how it should work Combining expert analysis with a blistering critique of the failings of successive governments this is the definitive guide to one of the most hotly disputed issues in the UK today Wherever you stand on the immigration debate Brooks s wryly observed account is the essential road map **A Practical Handbook of British Birds**
