Handling Problems Of Peace And War:

Handling Problems of Peace and War Andrew Kirk, 1988-06-01 *Confronting Land and Property Problems for Peace* Shinichi Takeuchi, 2014-06-05 This collection clarifies the background of land and property problems in conflict affected settings and explores appropriate policy measures for peace building While land and property problems exist in any society they can be particularly exacerbated in conflict affected settings characterized by unstable security weak governance loss of proper documentation as well as the return of refugees and Internally Displaced Persons Unless these problems are properly addressed they can destabilize fragile political order and hinder economic recovery Although tackling land and property problems is an important challenge for peace building it has been relatively neglected in recent debates about liberal peace building as a result of the strong focus on state level institution building such as security sector reforms and transitional justice Using rich original data from eight conflict affected countries this book examines the topic from the viewpoint of State society relationship In contrast to previous literature this volume analyses land and property problems in conflict afflicted areas from a long term perspective of state building and economic development rather than concentrating only on the immediate aftermath of the conflict The long term perspective enables not only an understanding of the root causes of the property problems in conflict affected countries but also elaboration of effective policy measures for peace Contributors are area specialists and the eight case study countries have been carefully selected for comparative study The collection applies a common framework to a diverse group of countries South Sudan Uganda Rwanda Burundi Cambodia Timor Leste Colombia and Bosnia Herzegovina **Issues Facing Christians Today** John R. Chinese Diplomacy and the Paris Peace Conference Qi-hua Tang, 2020-09-12 This book examines Republican China's diplomatic strategies and engagement and power reconfiguration in East Asia after 1914. Drawing on a vast trove of primary sources including newly declassified archival materials, the book offers not only a richly informed account of how the Beiyang government conducted diplomacy at the Paris Peace Conference but also new insights into why. Calling into question such long-held beliefs that the Beiyang government was inadequately prepared for the Conference was treasonous in urging the signing of the Treaty of Versailles and that its behavior at the Conference amounted to a thorough failure of diplomacy, the author tries to make a case for a much more nuanced re-interpretation and re-evaluation of this critical period in the country's diplomatic history.

In Peace Prepared Andrew B. Godefroy, 2014-10-15 The Allies claimed victory at the end of the Second World War, but the United States' invention of the atomic bomb and its replication by the Soviet Union posed new dangers for all nations. *In Peace Prepared* examines what Canada's Cold War Army did to prepare for war and why and how it did it. Although a Third World War never happened, army officers supported by a large civilian defence workforce of scientists, engineers, and designers responded aggressively to the challenges presented by the possibility of nuclear attack. Through innovation and adaptation, they developed a collaborative and systematic approach to problem-solving that not only played a significant role in the evolution of Canada's national force but also shaped how armies in the Western Alliance related to one another during the Cold War and beyond.

Territory, War, and Peace John A. Vasquez, Marie T. Henahan, 2023-04-14 This book presents a collection of new and updated essays on what has come to be known as the territorial explanation of war. The

book argues that a key both to peace and to war lies in understanding the role territory plays as a source of conflict and inter group violence Of all the issues that spark conflict territorial disputes have the highest probability of escalating to war War however is hardly inevitable much depends on how territorial issues are handled More importantly settling territorial disputes and establishing mutually recognized boundaries can produce long periods of peace between neighbors even if other salient issues arise While territory is not the only cause of war and wars arise from other issues territory is one of the main causes of war and learning how to manage it can in principle eliminate an entire class of wars This book will be of great interest to all students of war and conflict studies causes of war and peace international security and strategic studies John A Vasquez is Thomas B Mackie Scholar in International Relations at the University of Illinois Urbana Champaign He is author of *The Steps to War* 2008 with Paul Senese and *The War Puzzle Revisited* 2009 He has been president of the Peace Science Society International and the International Studies Association Marie T Henahan is Director of Internships and Lecturer Department of Political Science at the University of Illinois Urbana Champaign She is author of *Foreign Policy and Congress An International Relations Perspective* and co editor of *The Scientific Study of Peace and War*
