Escape From Eden:

Escape to Eden Rachel McClellan, 2021-07-06 There's got to be more to life than just surviving. In the future, mankind has learned to manipulate their DNA, harnessing only the good genes like intelligence, strength, and height. They called this prime DNA, and humans rushed to get these new pDNA injections which gave them superhuman-like qualities. Centuries later, however, their DNA became so engineered that humans rarely live past the age of thirty thanks to a new deadly disease called the Kiss. The only cure is to receive an injection of oDNA, DNA from an Original human that hasn't been genetically altered. Problem is, there aren't many Originals left. When seventeen-year-old Sage wakes up in a hospital with no memories, her only clue are the words "Run Now" written on her hand. Trusting her instincts, Sage barely escapes but only to collide with an outside world that would kill to get their hands on her. With the help of unlikely allies, including a boy with hidden bat wings, Sage makes the dangerous trek to Eden, the last place for people like her and the only place she'll be safe from those at the Institute who would use her blood until she died. But with deadly Primes hot on their trail, Sage must make the ultimate sacrifice to save the people she's grown to love.

[Eden's Escape](#) M. Tara Crowl, 2016-09-06 Eden's greatest wish has finally come true. No longer confined to her lamp, she begins a spectacular life in Manhattan with her new guardian, Pepper, a bubbly genie alum who's also a Broadway actress. Eden only gets a taste of the city's wonders before she's whisked away for a wish-granting. She is still a genie with a job, after all. David Brightly isn't like other wishers. Eden has met the owner of the world's leading tech company, seems more interested in tapping into the lamp's power than making his first wish. Trapped in Brightly's laboratory and unable to get to the lamp, Eden has no choice but to escape and go on the run. She finds herself on the streets of Paris, nowhere near out of danger. Brightly has half the city searching for Eden, claiming she is his kidnapped daughter. She manages to don a disguise and get word of her predicament out to the loyal genies on earth. But Paris is also headquarters of Electra, a group of former genies bent on revenge against Eden, and it seems the scheming Sylvana has teamed up with Brightly to seize the lamp's power once and for all. Eden embarks on a dangerous mission to

retrieve the lamp and protect the centuries old genie legacy But Brightly has more tricks up his sleeve than any mortal Eden has met Soon every genie will have to pick a side in an epic showdown against the greatest threat the lamp has ever faced
