became one of the most written about wars in our history and Lepore argues that the words strengthened and hardened feelings that in turn strengthened and hardened the enmity between Indigenous peoples and Anglos Telling the story of what may have been the bitterest of American conflicts and its reverberations over the centuries Lepore has enabled us to see how the ways in which we remember past events are as important in their effect on our history as were the events themselves

Living with the Alabama-Mississippi Shore Wayne F. Canis, 1985 The Alabama Mississippi shoreline along the Gulf of Mexico boasts some of the world's most beautiful beaches and balmyest climates. Ever increasing numbers of retirees, recreation lovers and industries with work forces are being attracted to the Sun Belt. On a soft April day the Gulf's waters look as peaceful as a pond. Yet this same serene shoreline has been ravaged by seven major hurricanes during this century. Several years more than one fearful storm has come hurtling in during a single season. Loss of life and property damage have been devastating. And newcomers seem almost unaware of the potential dangers. The authors of this book offer a vivid historical overview for understanding the environment of the Alabama Mississippi shore. They describe the risks faced by new residents and they point the way toward safe and sane coastal development.

Women at War in the Borderlands of the Early American Northeast Gina M. Martino, 2018-03-23 Across the borderlands of the early American northeast—New England, New France and Native nations—deployed women with surprising frequency to the front lines of wars that determined control of North

America Far from serving as passive helpmates in a private domestic sphere women assumed wartime roles as essential public actors wielding muskets hatchets and makeshift weapons while fighting for their families communities and nations Revealing the fundamental importance of martial womanhood in this era Gina M Martino places borderlands women in a broad context of empire cultural exchange violence and nation building demonstrating how women s war making was embedded in national and imperial strategies of expansion and resistance As Martino shows women s participation in warfare was not considered transgressive rather it was integral to traditional gender ideologies of the period supporting rather than subverting established systems of gender difference In returning these forgotten women to the history of the northeastern borderlands this study challenges scholars to reconsider the flexibility of gender roles and reveals how women s participation in transatlantic systems of warfare shaped institutions politics and ideologies in the early modern period and the centuries that followed *Report of the Commissioner of Education USA*.
