Escaping Materialism Living A Life Thats Rich Toward God

Frank Seaver Billings

Escaping Materialism Living A Life Thats Rich Toward God:

Escaping Materialism George Caywood,1989 **Rethinking Materialism** Robert Wuthnow,1995 This collection of essays by ten of the nation s prominent social scientists and theologians offers serious commentary on our culture s obsession with material goods and examines the uneasy relation of materialism to religion The contributors assess the ways in which materialism has been understood in recent analyses of American character how the economy shapes our understandings of ourselves the ways in which religious thought is being reshaped by economic circumstances and the nature of consumerism The complement to Wuthnow s *God and Mammon in America* this volume challenges us all to look at materialism in new ways and suggests viable means for reversing our country s prevailing material fixation and its destructive effects on our spiritual lives The Money Makeover Rosemarie F. Patterson,1991 **AB Bookman's Weekly** ,1992 He Spoke in Parables Gordon J. Keddie,2016-07-29 As long as the world lasts the parables will call people to faith in Christ Their very simplicity shines brightly with the gracious invitation to repent to believe and to be reconciled to God through the same Jesus who first uttered them so long ago In this contemporary study Gordon Keddie seeks to retain the essential simplicity of the parables by the lightest touch of exposition allowing them to live and move and touch our being with a vibrant immediacy and unmistakable clarity The Christian Advocate ,1914 *Christian Advocate* ,1907 **The Christian Advocate** ,1931 Living Hope for the End of Days John S. Barnett,2006-11 The Cumulative Book Index ,1990 A world list of books in the English language **How Shall the Rich Escape?** Frank Seaver Billings,1894 **The Practical Steps to the Deeper Spiritual Life** Larry Mehaffey,2012-01-19 In attempting to more effectively communicate the principles of spiritual life to those who sincerely desire a deeper reality in their walk with Christ I have discovered that most people appreciate practical and straightforward instructions and this is especially true when it involves the mystical nature of spiritual life Although spiritual life is not meritoriously attained through natural means or human effort there are several Practical Steps that can be taken to help facilitate the practice of spiritual disciplines The combination of these Practical Steps with the spiritual disciplines themselves will work to promote a dynamic life of faith that will effectively bring the believer into a productive and rewarding relationship with God Man is an intentional creation of divine wisdom explicitly designed to fulfill a sacred purpose Agape love requires a soul to empty the wealth of its humanity upon the altar of God as a willing sacrifice If determination is to live up to its potential in promoting the spiritual life it must be united with some very fundamental practical steps Heaven should not be a culture shock to the consciousness of the believer it should be a gradual final step into the glorious reality of a spiritual life whose progress began at conversion Divine pleasure must be the goal of human effort not divine favor The genuineness of what we actually believe is nowhere so obviously exposed as in our daily schedules It does not take overtly carnal acts to corrupt the days of a man s life for inattention and idleness produce the same result as evil actions or wicked intentions Liberty must always precede service if either are to be authentic It is our

great love for the Father not our initial desire for salvation that motivates and liberates the sincere believer to live a life of chosen obedience to God *Christian Science Sentinel* ,1903

Politics and the Religious Imagination John H.A.

Dyck,Paul S. Rowe,Jens Zimmermann,2010-06-10 Politics and the Religious Imagination is the product of a group of interdisciplinary scholars each analyzing the connections between religious narratives and the construction of regional and global politics combining a set of theoretical and philosophic insights with several case studies that represent varied geographies and religious customs The past decade has seen increasing interest in the links between religion and politics and this edited volume seeks to take religion seriously as a motivator of action Few studies have attempted to bring together the multi disciplinary work in this burgeoning field of study and this work takes a global perspective using a variety of contexts including East West relations to analyze the following key themes the constructive and destructive hermeneutics of religious stories the relevance and importance of religion as a dominant political narrative the rise of new stories among groups as agents of change the way that religious narratives help to define and constrain the Other the manipulation of religious stories for political benefit This work argues that it is insufficient to judge the relationship of religion and politics through mere institutional or quantitative lenses and this collection proves that while this promise of the narrative part of the social imaginary has been recognized in political theory to a certain extent its influence in the realm of empirical political science has yet to be fully considered Combining the work of a wide range of experts this collection will be of great interests to scholars of politics philosophy religious studies and the literary influence of religion *Encyclopedia of Religion and Nature*
