An Outline of Occult Science Rudolf Steiner, 1914 *The Origins of Self-Consciousness in The Secret Doctrine* H. P. Blavatsky, 2009 Any attempt to explain the mysterious connections between consciousness and matter and self consciousness in particular necessarily involves much complexity Because all levels of relative reality are present here and now the human being embodies the whole hierarchy of the cosmos a microcosm of the macrocosm to use an insightful Renaissance expression Besides the physical human body there is the dynamic structural plan of that body called the astral body the desire nature the life force that permeates all living creatures consciousness involved in sense perception and practical operations consciousness capable of universal thought and awareness and pure consciousness manifest in pristine intuition Above these six principles of human nature broods the luminous spirit called the Atman Many people are seldom aware of anything more in themselves than the first five of these principles although many also have intuitive glimpses of universal understanding

often as transcendent experiences which cannot be sustained Because understanding cannot be separated from experience and experience cannot be divorced from the way we live think feel and have our being various spiritual traditions have offered practices to nurture these inner awakenings to our higher natures and to a greater awareness of spiritual reality Theosophy connects together how we live our lives what we think and how we focus our attention the bold exploration of our inner natures how we react to what comes to us karma and how we can build depth of awareness across lifetimes with Enlightenment Theosophy therefore connects ethics and action including both physical action in the world and the action of our own thoughts Where we are ignorant of all the dimensions of our circumstances and short of Enlightenment we are all ignorant motive for thought and action is fundamental for altering one s karmic trajectory and future incarnations The selections from The Secret Doctrine in this book are gathered with a focus on the consciousness exhibited in Nature its origin and destiny and on human self consciousness in particular This book therefore explores one vital current in the Ocean of Wisdom that is Theosophy A thoughtful and persistent reading of these texts will radically transform one s understanding of the unity of self consciousness and the world around us and of one s place in the greater scheme of things *The Secret Doctrine: The Synthesis of Science, Religion, and Philosophy Volume I: Cosmogogenesis* Helena Petrovna Blavatsky,2018-02-24 The first book in the monumental work of Theosophic thought This book focuses on gaining occult power in the formation of the universe and the cosmos This group sought to learn the secrets of nature science and divinity in order to empower themselves to godhood and this book reveals their secrets as to how knowledge to do this can be attained It does not reveal what the ultimate saving knowledge is that can do this but it gives guidelines on how to start the journey for yourself

YUGA SHIFT BIBHU DEV MISRA,2023-12-15 Almost every ancient culture believed that human civilization and consciousness has progressively declined since an erstwhile Golden Age till the current age of greed and lies discord and strife called the Kali Yuga But when does the Kali Yuga end And what happens after that In this extensively researched book Bibhu Dev Misra has delineated the common threads that run through the Yuga Cycle doctrines of ancient cultures taking the aid of scientific discoveries wherever available His reconstruction of the original Yuga Cycle framework indicates that the end of the Kali Yuga is just around the corner in 2025 Within a span of just 15 years by the year 2040 the Kali Yuga civilization is likely to collapse due to a combination of global wars environmental catastrophes and comet impacts The survivors will inherit a renewed earth bathed in the divine light of the Central Sun Is there any scientific evidence in support of the Yuga Cycle What drives the sinusoidal fluctuation in our physical size and consciousness in course of the Yuga Cycle Why do cataclysmic obliteration of civilizations occur after every Yuga What do we make of the end time prophecies which tell of a Savior or Avatar returning at the end of the Kali Yuga These are some of the key questions addressed in this book This riveting and thought provoking work contains one of the most important messages of our time *Immortal life* Christopher James Street,1896 **The Spirit of Buddhism** Sir Hari Singh Gour,1929 **The Secret Doctrine** H. Blavatsky,2011-05-19 A three volume synthesis of science religion and philosophy by one of the nineteenth century s most controversial spiritualists The Secret Doctrine: The Synthesis of Science, Religion, and Philosophy (Complete) Helena Petrovna Blavatsky,2020-09-28 Since the appearance of Theosophical literature in England it has become customary to call its teachings Esoteric Buddhism And having become a habit as an old proverb based on daily experience has it Error runs down an inclined plane while Truth has to laboriously climb its way up hill Old truisms are often the wisest The human mind can hardly remain entirely free from bias and decisive opinions are often formed before a thorough examination of a subject from all its aspects has been made This is said with reference to the prevailing double mistake a of limiting Theosophy to Buddhism and b of confounding the tenets of the religious philosophy preached by Gautama the Buddha with the doctrines broadly outlined in Esoteric Buddhism Any thing more erroneous than this could hardly be imagined It has enabled our enemies to find an effective weapon against Theosophy because as an eminent P li scholar very pointedly expressed it there was in the volume named neither Esotericism nor Buddhism The esoteric truths presented in Mr Sinnett s work ceased to be esoteric from the moment they were made public nor did the book contain the religion of Buddha but simply a few tenets from a hitherto hidden teaching which are now explained and supplemented by many more in the present volumes And even the latter though giving out many fundamental tenets from the Secret Doctrine of the East raise but a small corner of the dark veil For no one not even the greatest living Adept would be permitted to or could even if he would give out promiscuously to a mocking unbelieving world that which has been so effectually concealed from it for long ons and ages Esoteric Buddhism was an excellent work with a very unfortunate title though it meant no more than does the title of this work The Secret Doctrine It proved unfortunate because people are always in the habit of judging things by their appearance rather than by their meaning and because the error has now become so universal that even most of the Fellows of the Theosophical Society have fallen victims to the same misconception From the first however protests were raised by Brahmans and others against the title and in justice to myself I must add that Esoteric Buddhism was presented to me as a completed volume and that I was entirely unaware of the manner in which the author intended to spell the word Budh ism
